Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 30th May 1885.

No.	District, and date of return	Rainfall at Sadler Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
<i>Western Districts.</i>			
BURDWAN DIV.	1 Burdwan, May 30 '85	0.07	Weather—cooler latterly. Rain is urgently wanted. Price of rice varies from 11½ to 16 seers per rupee. Cholera prevails about, but is decreasing.
	2 Cutwa, „ 30 „	0.03	Weather—exceedingly hot and sometimes cloudy. Standing crops are generally suffering from want of sufficient rain. A heavy shower is very much wanted for the cultivation of lands for the next harvest. Prices of rice stationary. Cholera is reported from the Bishanpur sub-division; otherwise public health good.
	3 Bankoora, „ 30 „	0.50	Weather—cloudy and unusually hot. Agricultural operations are at a stand-still for want of rain. Prices almost stationary. Cholera is increasingly prevalent. Scarcity of food and water is much felt.
	4 Beerbhoom, „ 30 „	0.01	Weather—very hot. Rain is much wanted for cultivation of land and sowing of paddy.
	5 Midnapore, „ 30 „	Nil	Weather—very hot. More rain is wanted, especially in the Jahanabad sub-division, where the young paddy and sugarcane are being scorched up. Mango crop has generally failed. Prices steady. Public health fair.
PRESIDENCY DIV.	6 Hooghly, „ 30 „	Nil	Weather—very hot. Rain urgently wanted for cultivation. Public health good.
	Howrah, June 1 „	Nil	
	<i>Central Districts.</i>		
	7 24-Pergha, June 1 '85	0.05	Weather—very hot. Early rice and jute seedlings are doing well, but rain very much wanted. Public health is generally good.
	8 Nudda, May 30 „	0.17	Weather—very hot. Rain is urgently wanted for paddy. Seedlings are dying out for want of rain.
RAJSHAHY DIV.	9 Khoolna, „ 30 „	Nil	Weather—very hot and dry. Ploughing and sowing are going on satisfactorily. Public health is good.
	10 Jessore, „ 30 „	0.18	Weather—very hot. Sowing of paddy is nearly finished. Prospects seem to be good, but rain is wanted to help the growth of the young paddy plants.
	11 Jhenedah, „ 30 „	1.46	Harvesting of <i>boro</i> paddy in the Narail sub-division is finished. Deaths from fever and cholera are reported from the Hongong sub-division.
	12 Magoura, „ 30 „	0.65	Weather—very hot. Rain very badly wanted; not more than 25 per cent. of the <i>aus</i> crop has been sown, and that which was sown is withering from want of rain. The mulberry crop also is suffering from the drought. Common rice is selling at from 12 to 14 seers per rupee. Public health fairly good, but cholera prevails in some villages.
	13 Monradabad, „ 30 „	Nil	Weather—very hot. Rain beginning to be wanted again. Rice is selling at 14 seers on an average per rupee.
RAJSHAHY DIV.	14 Dinagopore, May 29 '85	Nil	Weather—very hot. <i>Boro</i> paddy is being harvested. Paddy seedlings are withering owing to continued want of rain, and further sowings are stopped. Public health is deteriorating again from excessive heat and scarcity of drinking water.
	15 Rajshahye, „ 30 „	Nil	Weather—hot. Sowing of <i>aus</i> and jute completed. Rain is beginning to be wanted. A few cases of cholera reported from the Nilphamari station. Prices of food-grains gradually rising.
	16 Itanagore, „ 30 „	0.16	Weather—latter part of the week cool owing to good falls of rain. <i>Aus</i> paddy and jute are coming on well and ploughing continues. Public health fair.
	17 Kurigram, „ 30 „	1.39	Weather—hot. Prospects of crops good throughout the district.
	18 Hogra, „ 30 „	0.18	Returned not received.
Dacca Division	19 Pubna, „ 30 „	0.18	
	20 Darjeling, „ 23 „	„	
	21 Julpigore, „ 30 „	Nil	Weather—very hot in early part of the week; cooler with clouds towards end. Reports from all quarters are favorable. A hail-storm has done some injury to jute in the Dhupguri thana. Public health good; a few cases of cholera in Bala.
	<i>Eastern Districts.</i>		
Dacca Division	22 Dacca, May 30 '85	Nil	Weather—very hot. Harvesting of <i>boro</i> paddy is nearly finished. Sugarcane, jute and paddy plants are doing well. Prospects of crops fair. Price of rice is rising. Public health fair. Some cases of cholera are reported from parts of the district and from the town.
	23 Mandekgunge, „ 30 „	0.82	
	24 Narnineunge, „ 30 „	0.73	Weather—very hot. Sowing of paddy and jute nearly finished. Public health fair.
	25 Furreedpore, „ 30 „	0.07	Weather—very hot; south winds; slight rain fell on the 27th. Prospects of crops fair. Cultivation for <i>aus</i> paddy progressing. Public health generally fair. Cases of cholera are still reported.
	26 Madaripore, „ 28 „	1.00	Weather—hot. Prospects of crops good; more rain is wanted. Public health generally good.
Dacca Division	27 Backergunge, „ 28 „	0.33	
	28 Mymensingh, „ 29 „	0.63	
	29 Jaisulpur, „ 29 „	0.48	
	30 Kishoregunge, „ 29 „	0.54

<i>Eastern Districts.</i>			
CHITTAGONG DIV.	22 Chittagong, June 2 '85	0.18	Weather—hot. Rain much wanted. Prospects of crops fair. Prices steady. Cattle-disease reported; cholera lurking.
	23 Noakhally, May 29 "	Nil	Weather—very warm and sultry; generally there has been a variation of 8° between the morning and evening temperature. <i>Am</i> plants are doing well, but rain is wanted. Sowings on high lands are progressing. Cholera reported from the mofu-ail.
	24 Tipperah, " 28 "	1.07	Weather—cloudy and cool with light showers of rain. Crops are progressing favourably. Public health is still unsatisfactory owing to the ravages of cholera and (to a less degree) of small-pox.
	Brahmanbariah " "	0.16	
	Chundpore " "	0.45	
CHITTAGONG DIV.	25 Chittagong Hill Tracts, " 26 "	Nil	Weather—very hot throughout the week. Rain is much wanted for sowing in <i>goms</i> and for sugarcane. Public health very bad.
	Hill Tipperah, " 27 "	0.27	Weather—hot. <i>Sajya</i> paddy is growing. Lands are being prepared for <i>amra</i> paddy. Public health good.
BEHAR.			
PATNA DIV.	26 Patna, May 30 '85	Nil	Weather—hot with west winds. Rain is wanted for sowings of <i>bhadoi</i> crops; <i>chenna</i> sown on <i>daarh</i> land has germinated well. Collection of cotton is going on. Cholera and fever prevail in the Dinapore and Sudder sub-divisions.
	27 Gaya, " 30 "	Nil	Weather—hot with west winds. Standing crops are doing well. Ploughing going on. Prices stationary. Health fair, but fever, cholera and small-pox prevail in some places.
	28 Shehabad, " 30 "	Nil	Weather—very hot. Sugarcane, indigo, and millet are doing well. A few cases of chicken-pox and cholera reported from the Samarra and Bhambhan sub-divisions.
	29 Darbhanga, " 30 "	Nil	Weather—very hot. Rain is urgently needed for <i>bhadoi</i> sowings which have commenced in places. Early paddy on low lands is also suffering from want of rain. Prices continue stationary. Public health is generally good.
	30 Mokuffupore, " 30 "	Nil	Weather—exceedingly hot with light east winds in the morning. Want of rain is felt all over the district. Land is being prepared for paddy. In some places <i>kodo</i> , <i>sama</i> , <i>moong</i> , and <i>chenna</i> are already sown. Prices rising. Public health good.
PATNA DIV.	31 Saran, " 30 "	Nil	Weather—clear and very hot. Early <i>chenna</i> being harvested with fair results. Indigo and sugarcane are being kept alive by irrigation; rain much wanted for sowings of <i>bhadoi</i> crops. A few sporadic cases of cholera and small-pox are reported, otherwise public health good.
	32 Champaran " "	Return not received.
	33 Monghyr, May 30 '85	Nil	Weather—west wind with extreme heat in the daytime, cool at night. Rain is urgently needed for the <i>bhadoi</i> crop and sugarcane. Prices steady. Public health good.
	34 Bhagalpore, " 30 "	Nil	Weather—intensely hot; no rain in any part of the district. Prospects of sugarcane and indigo are fair, the former is kept up by constant irrigation. Agricultural operations are going on very slowly, and in many places stopped for want of rain. <i>Bhadoi</i> and <i>mura</i> or as recently sown are suffering from want of rain. Prices stationary at the Sudder station, but there has been a slight rise in the Seepole and Bunka sub-divisions.
	35 Purneah, " 30 "	Nil	Weather—very sultry. Rain is much wanted; crops backward. Public health fair.
BAGLPORE DIV.	36 Mahan, " 30 "	Nil	Weather—excessively hot and dry. Harvesting of <i>boro</i> paddy still continues. Progress of ploughing and sowing of paddy has been much retarded by want of rain, which is very seriously felt; and where the crop has been sown it is suffering much from great heat. Common rice is selling at from 14 to 17 seers per rupee. A few cases of cholera are still reported.
	37 Southal Pergah, " 30 "	Nil	Weather—variable; cloudy and threatening after sunset, but extremely hot during the day. Want of rain is generally complained of everywhere. Wells and tanks are fast drying up. Sugarcane in Deoghar barely kept alive. <i>Boro</i> paddy is suffering from want of rain. Cholera and small-pox here and there; otherwise public health good.
ORISSA.			
ORISSA DIV.	38 Cuttack, May 29 '85	2.60	Weather—very hot; occasionally cloudy with showers of rain. Sowings of <i>sarad</i> and <i>berai</i> paddy is in progress. Common rice is selling at from 16 to 19 seers per rupee in the town, and from 23 to 26 seers in the interior. Public health generally good.
	39 Pooree, " 28 "	Nil	Weather—hot. <i>Sarad</i> paddy is being sown. Sugarcane is being manured and is thriving. Cotton is being gathered. Common rice is selling at an average of 20 seers 11 chittacks per rupee in the Sudder sub-division, and 21 seers 1 chittack in the Khoorda sub-division. Public health is good.
	40 Balasore " 29 "	Nil	Weather—hot and occasionally cloudy. Cultivation of paddy is being vigorously pushed on. Cholera is still reported from some parts of the district; public health otherwise good.
CHOTA NAAGPORE South-West Frontier Agency.			
CHOTA NAAGPORE	41 Hazratnagar, May 29 '85	Nil	Weather—hot. Ploughing continues, and in some places sowing of early paddy has commenced. A few cases of small-pox in the town; cholera prevalent at Burea; both diseases have appeared in some places in the Giril sub-division, otherwise public health good.
	42 Loharongga, " 30 "	Nil	Weather—warm and cloudy. Sowing of <i>bhadoi</i> crops has commenced. Prices steady. Small-pox of wild type still reported; otherwise public health good.
	43 Singhbhum, " 29 "	0.01	Weather—excessively hot; latterly unsettled. Rain reported from different parts of the district; ploughing and first sowings are proceeding; sugarcane is doing well. Health generally good.
	44 Manbhum, " 30 "	0.20	Weather—hot and still. Ploughing is going on, and <i>gora dhan</i> is being sown. Rain is much wanted as the water-supply is getting very scanty. Price of rice is rising; coarse rice is selling at 19 seers per rupee in Purulia, and from 15 to 18 seers elsewhere. Cholera prevalent.

CALCUTTA, REV. DEPT.,
The 2nd June 1885.A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN 'BENGAL FOR THE WEEK ENDING FRIDAY, THE 29TH OF MAY 1885.

At the commencement of the present week a rather strong dry westerly air current was blowing over the whole of North and South Behar and Chutia Nagpur, and over parts of South-West and North Bengal, while the moist southerly winds which were blowing in South and East Bengal only penetrated to a short distance inland. These winds of course indicated that the usual hot-weather conditions were prevailing over the Province, and that, so long as these conditions lasted, rainfall would be confined to a few local hot-weather storms, and that no general rainfall was possible. During the week these dry westerly winds have been very slowly, but steadily, driven back by the advancing southerly and easterly winds, and for the last day or two of the week, the westerly winds were confined to South Behar and Chutia Nagpur. Easterly winds were then blowing in North Bengal and North Behar, and southerly and south-easterly winds were blowing in South-West and East Bengal. The very slow and gradual advance of the southerly and south-easterly winds was sufficient to show that they were by no means strong, and consequently comparatively little moisture was brought up by them into Bengal. By the interaction of these wind systems a few local storms have been produced, but they have been by no means general, and in most instances the rainfall brought by them has been small. It will thus be seen that the rainfall for the week has been exceedingly scanty in a few districts, and almost entirely absent over a large part of the Province. In fact the only division which has received even moderate amounts of rain has been Orissa.

The changes of pressure have been of the usual oscillatory description, and for the first two days pressure generally increased, it then decreased for two days, again increased for two days, and on the last day it decreased, the changes being of nearly equal amounts. At this season of the year, however, pressure usually decreases rather rapidly, so that the changes during the past week have had the effect of increasing the previous excess above the normal pressure. During the previous two weeks pressure over the whole Province had been about 0.06" above the normal, but the effect of this week's changes has been to raise it to 0.11" above the normal. The excess pressure over the Province varies from 0.14" at Cuttack to 0.09" in North Behar.

With the comparative absence of rainfall, and with the clear skies which have obtained over the greater part of the Province during the past week, temperature has in most instances increased, and it has been abnormally and excessively high at almost all stations. The temperature in Orissa has not been far removed from the normal, but South-West Bengal and South Behar have registered temperatures which average nearly 5° above the normal. The average temperature in South Behar and Chutia Nagpur has been nearly 3° above the normal, while in East Bengal it has been 2° above the normal. Some exceedingly high maximum temperatures have been reported during the week. Thus Raneegunge registered 111° on the 26th, Gya registered 110.2° also on the 26th, and Patna 110.1° on the 27th. The high day temperature which has prevailed over the Province during the past week is perhaps most clearly shown by stating that the average maximum temperature of all the days of the week at all the recording stations has been 100.7°, or to put it in another way, out of 40 stations reporting, 28 have registered temperatures above 100° and only 12 below it.

The rainfall of the week has been so small as to be scarcely worth discussing. Orissa has received the largest amount which averages 0.59 inch as against the normal mean of 0.98 inch. East Bengal has received 0.25 inch against the normal amount of 2.53 inches. The stations in South-West Bengal have averaged 0.24 inch against the normal fall of 1.41 inches; North Bengal has received 0.13 inch against the normal of 2.73 inches, and Chutia Nagpur 0.06 inch against an average of 0.58 inch, while no rain, whatever, has fallen in North and South Behar.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 29th of May 1885:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph. The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 85 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDA.

The table annexed to this memoranda furnishes the following particulars in connection with the registration of births and deaths in the principal Municipalities in Bengal during the week ending 16th May 1885:—

1. That the mean birth and death-rates stood at 21.0 and 30.6 per 1,000 of population, respectively, in opposition to 23.4 and 31.0 per 1,000, respectively, during the preceding week ending 9th May, indicating a noticeable diminution in the registration of births.

2. That the following towns furnished the highest proportions of births and deaths:—

Births.			Deaths.		
		Ratio per mille.			Ratio per mille.
Jessore	...	42.8	Burdwan	...	32.4
Naraingunj	...	33.1	Durbhanga	...	50.4
Gya	...	31.5	Bhagulpur	...	43.4
Purneah	...	31.1	Suburbs of Calcutta	...	40.7
Bhagulpur	...	29.9	Purneah	...	38.1
Patna	...	29.2	Patna	...	36.6
			Gya	...	34.2
			Darjiling	...	32.6
			Chittagong	...	30.5
			Dacca	...	29.8

3. That the mortality from none of the undermentioned principal diseases exhibits any noticeable difference in comparison with the death-rates from the same diseases in the preceding week:—

			Ratio per mille during the weeks ending—	
			16th May 1885.	9th May 1885.
Cholera	6.1	6.0
Small-pox	7	6
Fever	12.2	12.6
Bowel-complaints	4.5	4.2
Injury	4	5
Other causes	6.7	7.0

4. That of the above-mentioned death-causes, while injury proved nowhere severe, the Municipalities noted below suffered in the highest degree from the rest of the diseases:—

Cholera.		Small-pox.		Fever.		Bowel-complaints		Other Causes.	
	Ratio per mille.		Ratio per mille.		Ratio per mille.		Ratio per mille.		Ratio per mille.
Burdwan	44.2	Dacca	4.5	Purneah	34.6	Durbhanga	11.0	Durbhanga	16.5
Suburbs of Calcutta	13.6	Durbhanga	3.1	Burdwan	27.4	Patna	9.4	Poori	12.6
Bhagulpur	7.2			Darjiling	26.1	Burdwan	8.1	Dacca	12.3
Dacca	7.1			Gya	21.1			Bhagulpur	10.9
Mozufferpur	6.1							Suburbs of Calcutta	9.5
Hughli	5.4								
Patna	3.2								
Howrah	2.9								

It is observable that while cholera prevailed with considerably abated severity in Bhagulpur and Hughli, in comparison with its incidence during the preceding week, it progressed in virulence in the Suburbs of Calcutta and in Burdwan, very notably in the latter. Fever also exhibited added severity in the Purneah Municipality.

5. That the death-rates in relation to Sex, Class and Age stand as follows:—

According to Sex.		According to Class.		According to Age.	
	Ratio per mille.		Ratio per mille.		Ratio per mille.
Males	31.4	Christians	21.7	Under 1 year	214.4
Females	30.0	Hindus	29.3	1 and under 5 years	59.7
Ratio of male deaths to every 100 female deaths	117	Mahomedans	34.0	5 " 10 "	21.0
		Other classes	72.9	10 " 15 "	14.9
				15 " 20 "	23.1
				20 " 30 "	16.7
				30 " 40 "	18.2
				40 " 50 "	24.6
				50 " 60 "	32.8
				60 years and upwards	58.8

GENERAL REMARKS

The result of the month's working again shows a fair increase in all the principal staples except railway material and tobacco, and slight decreases under the heads of ginger and jute. The falling off in the weight of railway material lifted can be accounted for by the fact that less coal passed up for the Locomotive Department than during the same time last year; that under tobacco to bad prices.

The increase actually stands at 2105'62 tons over and above the weight lifted during the corresponding period last year, giving a better working result of 16·19 per cent.

INCREASES.

Alc	Tons	474
This increase is nominal.							
Food-grain	Tons	120'06
The market for all sorts of rice has been active during the month. Ballam has been in good demand for London, the West Indies, Mauritius, Bourbon and Jeddah.							
Gunny-bags		220'88
The demand for foreign exportation is again springing up.							
Miscellaneous	Tons	2,093'07
The traffic in through booked consignments has been particularly brisk during the month.							
Piece-goods	Tons	110'08
With the approach of the spring season a demand from local markets sets in.							
Salt	Tons	133'23
This increase was to be expected in the face of last month's falling and cheap freight.							
Sugar	Tons	31'26
No transactions are reported in the Calcutta market. What passes up is the usual monthly supply for local consumption, and it depends on prices. At present sugar is cheap.							
Tea	Tons	598'27
The demand for fine tea for spring delivery continues. The other kinds are neglected.							
Tobacco	Tons	337'22
A strong demand for all descriptions at advanced prices has existed during the month.							

DECREASES.

Ginger	Tons	474
The season is now in, but there is no demand for this article.							
Jute	Tons	88'08
The market for loose jute is very quiet. The demand is irregular and prices bad.							
Railway material	Tons	795'46
This decrease is due to less coal being carried for the Locomotive Department.							
Tobacco	Tons	337'22
Prices are bad, and there is little or no enquiry.

DRAFT NOTIFICATION.

The 5th June 1885.—The Lieutenant-Governor directs the extension to the Angul estate, in the Tributary Mehals of Orissa, of the following rules under section 75 (d) of the Indian Forest Act (Act VII of 1878) for the prevention of fires in Forest Reserves which, under the notifications of the 11th December 1880 and of the 3rd December 1881, were applied to the districts of Darjeeling and Julpigoree in the Rajshahye Division, and to the districts of Lohardugga and Hazaribagh in the Chota Nagpore Division, respectively. The season during which these rules will hold good will be from the 1st January to the 1st June in each year.

1. Any person living in the vicinity of a Government Forest Reserve, or occupying or using land in such vicinity, and desirous of clearing by fire any standing forest or grass land near that reserve in a locality from which such fire would be likely to endanger the reserve, shall observe the following rules:—

- (1)—He shall give notice of at least one week to the nearest Forest Officer, Ranger, or Forester of his intention.
- (2)—He shall clear a belt of land, at least 20 feet broad, on the side of the land he proposes to burn nearest to the forest reserve.
- (3)—He shall choose for such burning a day or time when a high wind is not blowing.
- (4)—He shall light the fire in a direction contrary to the prevailing wind.

2. Any such person desirous of burning, on land adjoining a forest reserve, wood, grass, or weeds or other cut material, shall collect that material into heaps, and burn it separately in such a way that the fire may not endanger the forest reserve.

3. Any person collecting inflammable forest produce, such as grass and bamboos, on land adjoining a forest reserve, and any holder of a permit to collect such materials from the forest reserve, shall stack the materials so collected in an open space as far removed as possible from the forest.

4. All persons travelling on roads passing through or along the boundary of a forest reserve shall camp only at such places as may be cleared and set apart for the purpose of camping-grounds by the Forest Officer, who shall yearly publish a list of such grounds in the vicinity of the reserve. Camping at other localities than those so set apart is forbidden; and all persons so camping shall light any fires they may make for cooking or other purposes in such a way as not to endanger the forest reserve or the buildings or property on the camping-ground, and they shall, besides, extinguish all such fires before leaving the camping-ground.

5. The carriage of burning wood, firebrands, or torches, through or along the boundary of any reserved forest is prohibited.

These rules will hold good during the season in which fires may be expected to occur, viz. from the 1st January to the 1st June in each year.

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

DRAFT NOTIFICATION.

The 6th June 1885.—The Lieutenant-Governor is pleased, under the provisions of section 26 of the Indian Forest Act (VII of 1878), and with the previous sanction of the Governor-General in Council, to declare that the area described below, which comprises 175 acres, and used to form a part of the Munjha Forest Reserve, in the Darjeeling district, which was declared to be reserved forest in the notification, dated the 10th August 1883, published at page 688, Part I of the *Calcutta Gazette* of the 10th August 1883, has ceased to be reserved forest from the 2nd April 1885.

Boundaries.

On all sides a line demarcated with masonry pillars, separating the area from the Munjha Forest Reserve.

The Lieutenant-Governor is pleased, under the provisions of section 4 of the Indian Forest Act (VII of 1878), to declare that it is proposed to constitute as reserved forest the plot of land described below, which, in a notification of the 23rd January 1879, was excluded from the Munjha Reserved Forest as being the location of the New Terai Tea Company.

District	Pargannah or other sub-division	Name of forest.	Boundaries.
Darjeeling	Hill Territory	Addition to the Munjha Forest.	All sides the Munjha Forest Reserve.

The Deputy Commissioner of Darjeeling is appointed to be the Forest Settlement Officer for the purposes of enquiring into and determining the existence, nature, and extent of any rights alleged to exist in favour of any person or persons in or over any land comprised within the above boundaries, or in or over any forest produce to be found therein, and to deal with the same as provided in Chapter II of the said Act.

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 7th June 1885.—Under section 2, clause 3 of the Agriculturists' Loans Act, XII of 1884, the Lieutenant-Governor is pleased to extend the Act to the provinces under his administration with effect from this date.

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 7th June 1885.—Under the powers conferred upon him by section 4, sub-section (1) of the Agriculturists' Loans Act, No. XII of 1884, the Lieutenant-Governor, with the previous sanction of the Governor-General in Council, is pleased to make the following rules as to loans to be made to owners and occupiers of arable land, for the relief of distress, the purchase of seed or cattle, or any other purpose not specified in the Land Improvement Loans Act, 1883, but connected with agricultural objects:—

1. Loans under these rules will be made from such sums as the local Government may from time to time allot to the Board of Revenue.

2. Commissioners will submit, by the 15th October of each year, an estimate of the requirements for loans under the Act for each of the districts of their divisions for the ensuing financial year; and when orders thereon are received from Government and an allotment is made, the Board will distribute such funds as are available. It will be in the power of Commissioners to divide the sum so allotted among the districts of their divisions at their discretion, and to transfer assignments from one district to another, but expenditure in the division must be kept strictly within the amount assigned.

3. Subject to the provisions of these rules, the Collector may sanction loans not exceeding Rs. 700 for purposes specified in the Act, provided the district allotment must not be exceeded without the sanction of the Commissioner of the division. Loans exceeding Rs. 700 require the sanction of the Commissioner, and exceeding Rs. 5,000 the sanction of the Board. A Collector may delegate to an officer in charge of a sub-division the power to sanction loans not exceeding Rs. 250 for purposes specified in the Act.

4. Applications for loans may be presented to any Revenue officer of or above the rank of a Kanungo or Sub-Deputy Collector, for transmission to the Collector.

5. The application shall be made in writing as nearly as possible in the annexed Form A.

6. The Collector shall either make a local enquiry himself, or cause one to be made by a Revenue-officer not below the rank of a Kanungo or Sub-Deputy Collector, for the purpose of ascertaining the particulars mentioned on the reverse of Form A.

7. (1) When the applicant possesses in immoveable property an interest of value sufficient to secure the whole amount that may become payable in respect of the loan, he must mortgage that interest, or a sufficient portion thereof, to the Government as security for the payment of that amount, and no further security need be required from him.

(2) When the applicant does not possess in immoveable property an interest of such value, he must procure some person or persons to become his surety or sureties for the payment of the said amount.

When the sureties are a body of village residents, who bind themselves jointly and severally to the Government for the payment of the amount, their personal security may be accepted. In other cases the security given by the surety or sureties must consist of the mortgage of immoveable property.

8. Repayment shall be by half-yearly instalments, the date of the instalment not exceeding one year from the date of the loan.

9. The date of the last instalment shall not ordinarily exceed five years from the date of the loan. With the sanction of the Board of Revenue, the time for repayment may in special cases be extended to ten years.

10. If the loan applied for is one that can be granted under the provisions of section 4, sub-section (1) of the Act, and the security offered is good and sufficient, the Collector may, on completion of the local enquiry, sanction the loan himself, if empowered to do so. Otherwise he shall forward the application with his report to his superior officer for disposal.

11. (1) If the loan is sanctioned, the applicant must sign the order granting the loan, which shall be in the annexed Form B, as nearly as may be.

(2) If the security for the repayment of the loan consists of the mortgage of an interest of the applicant, such as is referred to in clause (1) of rule 7, the mortgage may be effected by clause (d) of the form being inserted in the order granting the loan, and by the order being attested by at least two witnesses and registered.

(3) If the security is furnished by a surety or sureties, it will be taken, where the sureties give personal security only, in the annexed Form C, and, where the surety or sureties mortgage or mortgage immoveable property, in the annexed Form D, which should be attested by at least two witnesses and registered.

12. A copy of the order granting the loan shall be given to the applicant, and payment of the loan shall be made at the district or sub-divisional treasury on its presentation.

13. (1) The rate of interest shall be one anna in the rupee, or $6\frac{1}{4}$ per cent. per annum.

(2) But the Local Government may, for special reasons, and on special application through the Board of Revenue, sanction a loan at a lower rate of interest or without interest.

(3) If any instalment of principal or of interest, or of consolidated principal and interest, is not paid when it falls due, the Collector may, if he thinks fit, charge interest on it at any rate not exceeding $6\frac{1}{4}$ per cent. per annum from the date of its falling due to the date of payment.

14. The repayment of the loan shall be made in accordance with the table marked E, which shows the amount of equal half-yearly payments necessary to repay a loan advanced with interest at $6\frac{1}{4}$ per cent. per annum for any number of years from one to ten.

15. The dates for payment of instalments shall usually be the dates fixed for payment of the land revenue.

16. Instalments may be suspended by order and at the discretion of the Collector on proof of failure of crops or other exceptional calamity. The Collector shall report the suspension through the Commissioner to the Board of Revenue, who shall pass such orders on the case as may seem proper.

17. If at any time it is proved to the satisfaction of the Collector that any part of the loan has been misapplied, he may, after recording in writing the grounds of his decision, and subject to the control of the superior Revenue authorities, proceed to recover the whole amount of the loan with such interest and costs (if any) as may be payable in respect thereof.

18. When any portion of the amount payable in respect of a loan made under these rules is found to be irrecoverable, a special report shall be made to the Board of Revenue.

19. The Board of Revenue shall regulate the forms of all returns, registers, and accounts relating to loans under the Act.

NOTIFICATION.

The 9th May 1885.—The following notification, having been approved by the Lieutenant-Governor, is published for general information.

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

UNDER the provisions of section 84, Act V (B.O.) of 1870, the Commissioners for making improvements in the Port of Calcutta, with the sanction of the Lieutenant-Governor of Bengal, hereby declare that the wharf on the west bank of the river Hooghly, known as the Sulkea Banda Ghat, and bounded as follows: on the north by the land of Luckhoy Narain Set, and on the south by the lands of Kedar Nath Koondoo and Kestomohini Dassee, is ready for receiving, landing, and shipping goods from and upon vessels not being sea-going vessels; and order that, within the limits lying between Chowlaputty Ghat on the south and Juggut Bannerjee's Ghat on the north, it shall not be lawful to land or ship any goods out of or into any vessels (not being sea-going vessels), except at the aforesaid wharf.

By order of the Commissioners,
W. D. BRUCE,
Vice-Chairman.

NOTICE TO MARINERS—(No. 29.)

AFRICA—EAST COAST.

RED SEA—COAST OF NUBIA.

Shoals in Northern approaches to Trinkitat Harbour.

With reference to Notice to Mariners No. 18 of 28th March 1885, issued by this Department, on the existence of certain shoals lying in the approach to Trinkitat (*Taring-hatah*) harbour from the Northward, Western shore of the Red Sea.

The following information, the result of an examination of the locality, has been received from Commander the Hon'ble F. C. Vereker, H.M.S. *Rambler*, through the British Admiralty, London:—

Sha'b-ul Shubuk—A reef extending 6 cables in a North and South direction, and $3\frac{1}{2}$ cables wide, having a small sand cay near the centre, forms the S. E. extreme of *Sha'b-ul Shubuk*; this reef is separated from the main reef by a passage two cables in width; it may be passed on the eastern side at a distance of about 3 cables.

Position of the small sand cay.—Latitude $18^{\circ} 44' 40''$ N., longitude $37^{\circ} 44' 45''$ E.

A shoal (*Rambler shoal*) extending 4 cables in a N. N. W. and S. S. E. direction, and 2 cables wide, with a least depth of 3 fathoms over coral, and $4\frac{1}{2}$ fathoms around, lies with the sand cay on the S. E. extreme of *Sha'b-ul Shubuk*, bearing N. 17° E., distant $1\frac{1}{2}$ miles.

A circular coral patch (*Fairway patch*) two cables in diameter, and a least depth of 4 fathoms, lies with the sand cay on the S. E. extreme of *Sha'b-ul Shubuk*, bearing N. 8° W., distant $2\frac{1}{2}$ miles.

Ras Makdah is marked by the most conspicuous of the low sand hills in the vicinity, a ridge 37 feet high. The point is low, with three small islets lying northward of it; shoal ground extends $\frac{1}{2}$ to $1\frac{1}{2}$ miles of shore. *Mersa Makdah* is the bight enclosed between the S. E. part of *Sha'b-ul Shubuk* and *Ras Makdah*. Anchorage in 8 to 9 fathoms, sand and mud can be found, under the lee of the reef, over the northern portion of the bight, but the southern part is blocked by the shoals extending $1\frac{1}{2}$ miles northward of *Ras Makdah*.

Trinkitat (*Taring-hatah*) harbour off the entrance is an extensive coral reef, named *Kat'* at *Kennashah*, which is steep-to and always visible. Between this reef and the harbour entrance is a shoal extending, within the 5 fathoms line, 2 cables in a North and South direction and $\frac{1}{2}$ of a cable in width with a least depth of 3 fathoms. The harbour lies 2 miles S. E. of *Ras Makdah*. The entrance is not easily distinguished from seaward, the coast being low and sandy. Shoal ground extends $1\frac{1}{2}$ cables S. E. of the north entrance point of the harbour and $3\frac{1}{2}$ cables northward of the south entrance point, narrowing the entrance within the 3 fathoms line to about half a cable. Two temporary beacons have been erected on the western shore of the harbour, which, kept in line bearing S. 55° W., lead in between the shoals with 24 feet least water. Should the beacons be down, a stranger should buoy the entrance before attempting to enter.

Outside the harbour there is good anchorage in 6 to 7 fathoms under shelter of Kat' at Kennashah.

In the vicinity of the harbour the coast is low and barren, consisting of sand hillocks with scattered scrub. A sandy plain, flooded at times, extends for a considerable distance inland.

The bearings are Magnetic.

Port Officer of Calcutta.

INDIA—WEST COAST.

NORTH KONKAN.

Shoal off Kumbharu Point.

The British Admiralty, London, has notified that information has been received from the Superintendent, Marine Survey of India, of the existence of a shoal lying in the fairway of vessels navigating the coast of Kumbharu Point.

This danger (*Shah Jehan Shoal*) consists of two patches, having respectively $2\frac{1}{2}$ and $3\frac{1}{2}$ fathoms at low water spring tides, with a depth of $4\frac{1}{2}$ fathoms between them.

The shoalest patch extends half a mile in a N. W. by N. and S. E. by S. direction with a breadth of 2 cables, and lies with the following bearings and distance:—

Rajpuri point ... N. by E. $\frac{1}{2}$ E.

Kumbharu point ... N. E. by E. $\frac{1}{2}$ E., distance one mile.

The other portion of the shoal is a ridge lying about a third of a mile seaward, and is about a mile in length in a direction parallel to the shore.

Position.—Latitude $18^{\circ} 12' 35''$ N.; longitude $72^{\circ} 54' 0''$ E.

Note.—Vessels navigating in the vicinity should keep outside the 5 fathoms line.

The bearings are Magnetic.

NOTIFICATION.

The 26th May 1885.—The following Notice to Mariners is published for general information:—

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 27.)

AUSTRALIA—SOUTH COAST.

VICTORIA.

PORT PHILIP.

Removal of facilities for Navigation in case of War.

TELEGRAPHIC information has been received by the Government of India from the Hon'ble Premier of Victoria that at any moment it may become necessary to remove the facilities now afforded for the navigation of Port Philip in the event of war. Masters of vessels are warned to be cautious in approaching the heads, as they may find the lights on points Lonsdale and Queenscliff extinguished. No vessel would be permitted to enter during the night, but arrangements will be made for piloting vessels by day only. As electric lights may be exhibited from Queenscliff and Nepean points for defence purposes, masters of vessels are particularly warned that they are not to treat them as guiding lights.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, Captain, R.M.,

Port Officer of Calcutta.

Port Office, Calcutta, the 22nd May 1885.

The Calcutta Medical College Session 1884-85 will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

2. Ten (10) free presentations will then be awarded. These are given to students according to their relative position in the University B.A., B.L., and F.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as matriculated students of the College who has not previously passed the First Arts Examination of the Calcutta University, or some one of the preliminary Arts Examination of the United Kingdom recognized by the British General Medical Council.

4. All matriculated students of the College are required to pay Rs. 15 on entrance, Rs. 30 for the summer session on the 23rd June, and Rs. 30 for the winter session on 1st November of each year.

5. Students who have failed to pass their final examination and who, under the regulations of the University, are required to attend a further course of lectures and of hospital practice before being allowed to present themselves again for examination, will pay for such further course an annual fee of Rs. 45 in two instalments of Rs. 30 and Rs. 15, payable at the beginning of the summer and winter sessions respectively.

6. Any matriculated student of the College may, with the permission of the Principal and the Professors of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and he shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he has really studied the subject. The fees payable in advance for such additional courses are the following:—

For a single course of lectures on each subject	Rs. 40
For six months' attendance in each department of hospital practice	60

7. Any matriculated student who leaves the College before completing his University course with the object of continuing his studies at a Medical School in Europe may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

8. Any person not being a matriculated student of the College who may be desirous of attending any course of lectures or any department of hospital practice may do so with the permission of the Principal and Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 6.

If such student has passed the Entrance Examination of the University, he may receive certificates of attendance at lectures, provided the Professors are satisfied that he has attended the full course of lectures, and has mastered the subjects taught.

A student who has not passed the Entrance Examination will be entitled to no certificates of any kind.

9. College scholarships, prizes, and certificates of Honour are open for competition only to matriculated students of the College Hospital apprentice class and Female Certificate class.

10. No fees are payable by the holders of the Calcutta Medical College scholarships.

The holders of the Doorga Charan Laha and all other scholarships will be required to pay fees as a matriculated student. These scholars may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

11. Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognized Medical School in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligent prosecution of his studies.

12. The offices of class assistant, clinical clerk, dressers, &c., can be held only by students whose names are on the rolls of the College.

HIGH COURT NOTICES.

No. 7, dated Calcutta, the 27th April 1885.

From—C. A. WILKINS, Esq., Registrar,
To—All District Judges in Bengal and Assam.

THE Judges of the High Court having learnt that certain processes sent from the Court of Small Causes at Benares for service in Bengal have in several instances been returned by Civil Courts in this Province unserved, merely because no one on behalf of the parties, at whose instance such processes were issued, appeared in those Courts to point out the persons to be served, although such persons were presumably well and commonly known by reason of their position in local society, I am directed to convey the following instructions for your guidance and that of the Courts subordinate to you.

2. When a summons is received under section 85, Civil Procedure Code, for service in your district, it shall be the duty of your Nazir, and of those of the Courts subordinate to you, to make all reasonable efforts to effect service, and this whether or not any one appears on behalf of the person at whose instance such summons was issued to point out the person to be served. Although the Rules* for the service of processes require that sufficient proof be afforded of proper service, and suggest the presence of some one to identify the person to be served, they do not provide that no attempt at service shall be made unless a person appear to identify. If no such person appears, the peon must nevertheless endeavour to effect service, and where the person to be served is a well-known individual, the peon should be able to find him and effect service without the aid of a person to point out and identify him.

* Chapter V, rule 3, clauses (a) to (e), pages 245 to 249, Rules and Orders, Civil.

Circular orders issued by authority of the High Court of Judicature at Fort William in Bengal.

To be substituted for Rule of same No. and Date.

CIVIL.

Rule No. 7, dated the 13th April 1885.

(c.) All the fees abovementioned shall be paid in Court-fee stamps, if the commission is to issue to a Court. If it is to issue to a Pleader of a High Court, the additional fee shall be received in cash and transmitted together with the commission to the Court in which the Commissioner is practising as a Pleader, and when such Court is the High Court, to the Registrar.

To clause (c) of Rule 9, Chapter I, page 15 Civil Rules and Orders, append the following as a foot-note:—

Fees transmitted to the Registrar, as provided above, shall be remitted by money order payable to the Accountant, Office of Registrar, High Court, Appellate Jurisdiction.

CIVIL.

No. 8, dated the 21st April 1885.

The following corrections should be made on page 307, Civil R. and O. :—

1. For clause (7) and "Note" substitute the following :—

(7) Prefixed to each record there shall be a fly-leaf or index of its contents. This must be filled in by the ministerial officer in attendance on the Bench from day to day as the trial proceeds. In this index the exhibits contained in the record will be mentioned only by number, as all other necessary particulars will be forthcoming from the list of documents filed by the parties.¹

¹ Vide revised Rule 3, page 2, Chapter I.

2. In clause (7A), for the words "Columns 5, 6, and 7 will be filled in by the Amlah in charge of the records, before sending them into the record-room," substitute—

"Columns 1 to 7 will be filled in as the trial proceeds. Column 1 will give the serial number of the sheets on the record, and column 4 the dates of filing the documents, in chronological order."

3. In the same clause, for the words "in these, as in other columns," substitute "in all the columns."

4. In the "Note" to clause (7), for the words "a separate fly-leaf should be prepared for the process record, in which the papers should be grouped as much as possible," substitute—

"A separate fly-leaf, in the form given in clause (7A), shall be prepared for the process record in the manner prescribed in clauses (7) and (7A)."

5. In the same "Note" cancel the words :—

"If there are any papers * * * * * group by themselves."

(7) Prefixed to each record there shall be a fly-leaf or index of its contents: this must be prepared as soon as the trial is terminated. In this general index the exhibits contained in the record will only be mentioned by number, but there must be a supplementary index showing separately for each party to the suit the documents used by them. The entries in these subordinate indices shall specify the nature of each document with its date.

NOTE.—It is not necessary that a detailed list of the exhibits admitted in evidence in a case should form part of the general index of the contents of the trial notes. It is sufficient to state in the general index the number of exhibits used by each party, the necessary detail being given in the supplementary lists of exhibits, which should also have a column to show the distinguishing mark put upon each by the Court.—(C. O. No. 24 of 14th June 1877).

(7A)¹ The fly-leaf shall be in the following form. Columns 5, 6 and 7 will be filled in by the Amlah in charge of the records, before sending them into the record-room. On receipt of the records in the District Judge's office, the record-keeper shall compare the entries in these, as in other columns, with the records themselves, and shall bring to the immediate notice of the District Judge any instance in which the rules for the cancellation of stamps have not been strictly carried out, or in which the entries have been wrongly made, or any other irregularity in regard to the stamps that may have occurred.

(9) Papers other than those herein before specified shall be kept apart, when they ought to be kept at all, and form the process record.

NOTE.—A separate fly-leaf should be prepared for the process record in which the papers should be grouped as much as possible, all processes to plaintiff's witnesses and all processes to the witnesses of each defendant or group of defendants being entered consecutively. Petitions and other papers should be similarly shown. If there are any papers which cannot be distributed among several parties, they will form a separate group by themselves (C. O. [NOTE.—Sessions Judges in most Provinces are ordinarily required to dispose of certain criminal work at their stations during the periodical Court vacations; but the work to be done is often insufficient to require their presence at their stations during the whole vacation. A Sessions Judge or other officer whose work requires him to be present at his station for a portion of the vacation is eligible for privilege leave

under the ordinary rules, provided he has not been absent from his station for more than 15 days of the vacation. If he has been absent for more than 15 days, his title to privilege leave is regulated by Rules 1 and 3 under this section. Any such officer applying for privilege leave under the ordinary rules, must attach to his application a certificate that he was not absent from his station for more than 15 days in any of the vacations included in the period of service by which the privilege leave claimed has been earned.]

PUBLIC WORKS DEPARTMENT—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 223.

The 8th June 1885.

THE following annual accounts and reports of the Road Cess Committees of the districts of Patna, Gya, Shahabad, Mozufferpore, Durbhunga, Saran and Champaran, for the cess year 1883-84, together with the remarks thereon of the Commissioner of the Patna Division, are published for general information.

G. F. E. S. NEILL, Major, M.S.C.,
Under-Secretary to the Govt. of Bengal, P. W. Dept.

No. 175, dated Patna, the 15th January 1885.

From—C. C. QUINN, Esq., C.S., Chairman, District Road Committee, Patna,
To—The Commissioner of the Patna Division.

I HAVE the honour to submit the following report on the administration of the Road Cess Department for the year 1883-84.

2. The annual accounts, which are submitted herewith in duplicate, were scrutinized and passed by the Sub-Committee of Audit appointed under section 174 of Act IX of 1880.

3. The report and accounts were laid before, and approved of by, the District Cess Committee at a meeting held on the 15th January 1885.

Original works.—The chief original works undertaken during the year were—(a) Bukhtecarpore to Behar road, section III; (b) Behar to Ekangarsarai road; (c) Futwa to Behar road; (d) Mussoudhi to Pubhera road; (e) Mussoudhi to Paligunj road; and (f) Futwa to Hilsa road.

4. The Bukhtecarpore to Behar road, section III, was taken in hand during the preceding year. A sum of Rs. 6,628 was expended on it during the year under report, and with the exception of work to the amount of Rs. 3,000, the unexpended balance of the estimate for the road, which could not be provided in the budget, the work in question would have been completed.

5. The Behar to Ekangarsarai road, is one of the most important works undertaken by the Committee. At the close of the year the earthwork (except the approaches to the bridges), a part of the turfing (the whole could not be done on account of the failure of the rains), and the culverts were finished. Out of an estimate of Rs. 1,84,620, Rs. 19,002 was expended during the year and Rs. 36,941 altogether up to date.

6. The earthwork and culverts of the Futwa to Behar road were nearly completed, the expenditure during the year being Rs. 11,837, and that to date Rs. 27,468 out of an estimate of Rs. 75,389.

7. The earthwork and culverts of the road from Mussoudhi to Pubhera were carried as far towards completion as the budget allotment would allow, the expenditure of the year being Rs. 5,531, and that to date Rs. 10,428 out of an estimate of Rs. 38,317.

8. The Mussoudhi to Paligunj road was nearly completed. It has had all necessary culverts built, but not the big bridges. The annual outlay on the road was Rs. 4,500, and the total expenditure incurred up to date, Rs. 8,517 out of an estimate of Rs. 9,476.

9. The metalling of the Futwa to Hilsa road was about three quarters finished, the expenditure during the year being Rs. 11,215 and that to date Rs. 22,628 out of an estimate of Rs. 30,143.

10. The total outlay on original works amounted to Rs. 73,926 against Rs. 70,767 of the preceding year.

11. *Repairs.*—The repair works undertaken during the year were of an ordinary nature, no large expenditure being incurred on any one work.

12. On first class roads, of which there are 94 miles in the district (excluding the 14 miles from Futwa to Hilsa, which are very nearly metalled throughout), the expenditure was Rs. 14,200, giving an average of Rs. 151 per mile.

13. On second class roads, of which there are 222 miles, the expenditure was Rs. 14,700, or Rs. 66 per mile.

The rate is somewhat higher than usual, as in many of the roads masonry culverts were substituted for the existing temporary ones.

14. On third class roads, of which there are 141 miles, the outlay was Rs. 5,400, or Rs. 38 per mile, and on fourth class roads, of which there are 121 miles, it was Rs. 5,500, or Rs. 45 per mile.

15. The total outlay on repair works was Rs. 50,300, against Rs. 50,968 of the previous year.

16. *Union roads.*—The state of roads in the three unions in the Dinapore sub-division was good. Besides the amount of Rs. 521 spent on the union roads, an additional sum of Rs. 2,100 was allotted and spent from the Nizamut funds.

17. The small expenditure on union roads in Khagoul and Manair is owing to there being no pucca roads in these unions. There is only one pucca road in Khagoul, which is the main thoroughfare and is in good order.

18. In the Manair Union a sum of Rs. 1,000 was set aside from the cess funds in order to metal the main road through the town, but this project was abandoned because the Committee thought that it was not absolutely necessary to spend this money, as in the event of the road being once metalled it would require to be kept up, and this would necessitate a greater annual expenditure than the Manair Union could well afford. The road is at present in a fairly good condition and is not much used.

19. The roads in the unions in the other sub-divisions of the district are not of sufficient importance to require a special mention in this report.

20. The total expenditure on union roads amounted to Rs. 1,489.

21. *Villages roads.*—In the sudder sub-division sixty miles of village roads were newly opened out and 165 miles repaired. Tar seeds were also planted along the edges of the roads to form hereafter an unmistakable border. At present encroachments on these roads by the neighbouring cultivators are very common, and necessitate a larger expenditure on repairs than would otherwise be required.

22. The village roads of the Barrh sub-division, which were, towards the close of the last cess year, placed under the supervision of the District Engineer, were considerably improved, the expenditure on them being Rs. 2,573 against Rs. 1,380 of the preceding year.

23. The Chairmen of the Dinapore and Behar Branch Road Cess Committees continue to take much interest in the matter of village roads, which are reported to be in a thoroughly good condition.

24. No progress was made on the village road from Bargaon to Moharbagh, which was undertaken last year by the then Sub-Divisional Officer of Behar, Baboo Nobin Chunder Sen. The work, as stated in the last year's report, was stopped by the action of the zamindar, Chondhri Zahur-ul-Huq, who claimed compensation for the land required for the road. The Chowdri was sent for and spoken to on the subject by the present Sub-Divisional Officer. But he is still unwilling to allow the completion of the road until the point of compensation is settled. I have asked the Sub-Divisional Officer to take steps for acquiring the land under Act X of 1870.

25. The total outlay on village roads amounted to Rs. 7,819 against Rs. 9,130 of the last year.

26. *Arboriculture.*—Under the head of "Arboriculture" a sum of Rs. 1,700 was expended during the year, the expenditure being chiefly on nurseries and on replanting vacancies in existing young avenues; but owing to the failure of the rains the year was a most unfavourable one for tree-planting. The District Engineer had all the trees on the roadsides that were alive at the close of the hot season counted in the last week in May and first in June, checking the enumeration in some cases personally, and there were:—

Mango	14,755
Mahua	2,852
Tamarind	193
Jamun	2,762
Jack	408
Bael	14
Tar	34,832
Other fruits	621
					<hr/> 55,957 <hr/>

Bar and Pipal...	1,402
Teak	71
Toon	16
Siris	350
Bamboo	8
Sissoo	644
Other kinds	1,808
					4,294

i.e., 55,957 fruit trees and 4,294 others, or in all 60,251 trees. This is a good result, considering that the tree-planting has been taken in hand since 1880; that the expenditure has been moderate; and that the soil of the district is for the most part most unfavourable for tree growing.

27. *The principal works to be undertaken.*—The principal works to be undertaken during the year 1884-85 are—

Works.	Their estimated outlay or the est.			
	Rs.			
1. Behar to Ekangserai road	15,311
2. Futwa to Behar road	16,466
3. Mussoudhi to Pubhera road	18,802
4. Futwa to Hilsa road	7,236
5. Extension of Road Cess Office building	11,828

28. *Working of the Road Cess Act.*—The Cess Act continued to work smoothly. The gross demand for the year under report was Rs. 1,81,800. Rupees 1,45,722 was collected during the year, Rs. 4,815 was previously paid in advance on account of this year, and Rs. 5,430 was remitted, leaving a balance at the close of the year of Rs. 25,833, or 14.1 per cent. on the gross demand. Considering that the last day of the kist for September of the year under review fell on the 5th of October, the result was fairly satisfactory.

29. 2,331 certificates were filed during the year, which, together with the pending cases of the preceding year, make a total of 2,948 cases. Of this, 2,163 were disposed of, leaving 785 cases for disposal at the close of the year.

30. The revaluation of the district, which was commenced in November 1881, was completed in March last, resulting in an increase in valuation of Rs. 7,20,686. This increase is mainly due to a larger number of valuations on returns this time.

31. *Working of the District and Branch Committees.*—The District Committee worked satisfactorily, the members continuing to take intelligent interest in matters brought up before them. I take this opportunity of putting on record the valuable services rendered by Moulvi Khoda Bukhsh Khan Bahadur, both as a member of the Committee and as their *ad-interim* Vice-Chairman.

32. The Branch Committees at Behar and Dinapore worked well during the year. They paid particular attention to village road works, on which nearly the whole of the allotment made for the respective sub-divisions were spent up.

33. The allotment for the Barrh sub-division was spent on the village roads situated therein under the supervision of the District Engineer, and the Branch Committee there had consequently very little work to do and were called only once during the year.

34. The establishments in the several departments of the Road Cess Office have worked satisfactorily.

35. A tabular statement embodying the particulars of the meetings of the District and Branch Committees held during the year under review is enclosed herewith.

G. A. GRIERSON,
Vice-Chairman, District Road Cess, Patna.

No. 243, dated Gya, the 19th January 1885.

From—J. BOXWELL, Esq., Chairman, District Road Committee, Gya,
To—The Commissioner of the Patna Division.

I HAVE the honour to submit the annual accounts and report of the road cess operations for the year 1883-84.

Working of the Road Cess Act.—The Cess Act has worked satisfactorily and without friction.

Collection and Assessments.—The gross demand of cess for the year under report was Rs. 2,09,078-5 of which Rs. 4,090-5 had been realized in advance in the previous year. The net demand, therefore, was Rs. 2,04,988, of this Rs. 1,97,447 were on account of the year under report, and Rs. 7,541 on account of balance of previous years. The collections were Rs. 1,70,683-3-9, leaving an unrealized gross balance of Rs. 34,354-6. The collections during the year were not as satisfactory as would be desired, being only 86·4 per cent. against 92 per cent. in the previous year. The decrease was due partly to the fact that the Durga Puja holidays began before the end of September. A large portion of the money due for the last quarter was therefore paid in October after the new year had begun, and partly to the failure of the crops. The cess was realized at the maximum rate.

Working of the Committee.—The Committee held seven meetings during the year. The average attendance of the members was 6·7 out of a total of 19 members. The non-official members have not been regular in their attendance, in fact it is only those non-official members who are at or near Gya that can make an appearance at the meetings.

Working of Branch Committees.—There are three Branch Committees in the district (at Nowada, Aurangabad and Jehanabad). Only one meeting was held by the first, two by the second, and three by the third. The members who attended the meetings appear to have taken an interest in the proceedings.

Establishment.—The several establishments under the Road Cess Committee are said to have worked satisfactorily. The only change in the year was in the engineering staff. Mr. Tritsch, the late District Engineer, resigned on the 7th September 1883, making over charge to Baboo Rajendra Nath Neogy, who officiated as District Engineer to the 18th March 1884, when he was succeeded as a temporary measure by Baboo Gria Chandar Bhar, overseer. Mr. James Keddie became District Engineer on the 24th April 1884. It was unfortunate that the district was without a competent engineer for some months before Mr. Keddie took charge. Mr. Keddie, an active and experienced officer, is rapidly making an improvement in the state of roads and means of communications.

Village Roads.—Great improvements are yearly made to those roads under the supervision of the District Engineer and Branch Committees. No applications from the village panchaits and zemindars were received.

Arboriculture.—Trees have been planted on the Nowada road under the Sudder Committee and on some of the roads under the Branch Committees of Aurangabad and Nowada. A collection of plants has been made in the nurseries at Gya and Aurangabad. The trees planted on the road side in previous years have been maintained, and such as withered have been replaced.

Original Works.—Under this head the only important work was the metalling and raising of the road from Gya to Nowada, 35½ miles. The work on this road was undertaken during 1882-83, and completed during the year under report satisfactorily, with the exception of a few miles, which are being rectified departmentally at the contractor's expense.

Repair works.—The existing metalled and fair weather roads and culverts and bridges were maintained throughout the year.

We are lucky in having the services of Mr. Keddie. The improvement in all kind of work since he came has been very great. Not the least of his good work is his treatment of such contractors as attempted to give us their exceedingly bad work.

The rapid and satisfactory completion of the Nawada road is due to Mr. Keddie's activity.

In consequence of the number of large rivers, torrents in the rains and weary stretches of deep sand in the dry months, all running northwards from the hills through the district, cart traffic may be said hardly to exist. Bridges and carts will probably come in together.

No. dated Gya, the 8th January 1885.

From—The Members of the Audit Sub-Committee, Gya,
To—The Chairman of the District Road Committee, Gya.

We have the honour to report the result of our examination of the Gya District Road Fund accounts for the year 1883-84, ending 30th September 1884.

The entries in the annual accounts have been found to tally with those of the monthly accounts.

All the prescribed books have been properly kept, and they are brought up to date. The vouchers were examined and cancelled at the time of auditing monthly accounts.

The Accountant Baboo Bipin Behari Ghose has as heretofore kept the accounts well.

Statement shewing particulars of the meetings of the Gya District Road Cess Committee during the year 1883-84.

J. BOXWELL,
Chairman.

No. 178, dated Arrah, the 23rd January 1885.

From—P. NOLAN, Esq., Chairman, District Road Fund Committee, Shahabad,
To—The Commissioner of Revenue, Patna Division, Bankipore.

I HAVE the honour to submit in duplicate the annual accounts of the Shahabad District Road Fund for the year ending on the 30th September 1884, with the prescribed report. The accounts have been audited and passed by a Sub-Committee duly appointed under section 179 of Act IX (R.O.) of 1880.

3. *Working of the Act in matter of collections.*—The demand amounted to Rs. 1,45,464 current and Rs. 21,425 arrears, making a total of Rs. 1,66,889. The collections were Rs. 1,37,163, remission Rs. 13, leaving a balance of Rs. 89,713. As the outstanding debt has increased, the result is unsatisfactory. It is ascribed to two causes, *firstly* the badness of the harvests, and *secondly* the growing acquaintance of the zemindars with the facilities afforded by the law for delaying payment. It appears to me that our present system of collecting the land revenue with the utmost strictness, and the charges imposed on land for public works and road are merely as judgment debts, as to which it is notorious that the

creditors difficulties only begin, when he has obtained a decree, is inconsistent. There is no distinction between the public charges on land, and it follows that we are either too severe in the one instance or too lax in the other, or perhaps that the wise course would be intermediate between these extremes. The Additional Commissioner of Patna, lately issued a circular as to sales upon certificate which, if strictly carried out, will occasion for the delays, and greater arrears, though it may correctly explain the proper procedure. Among other formalities to be observed, he directed that in every instance before selling an estate for arrears, a search should be made against it in the Registrar's office to ascertain all incumbrances.

3. *Working of the Sudder and Branch Committees.*—The District Committee met three times during the year. The Act contemplates the allotment of the funds at the disposal of the Committee once for all at the commencement of the year, on a budget sanctioned by the Commissioner, and if this most important work is properly performed, there is little to do afterwards. The Financial Committee sees to the audit of all accounts. The Buxar Branch Committee met eight times; the Bhabooah, three times; the Sasseram, five times, excluding cases on which there was not a quorum.

4. *Audit of monthly accounts.*—The monthly accounts were regularly audited by a standing Sub-Committee, formed under section 174 of the Oess Act IK (B.C.) of 1880, consisting of the Vice-Chairman and two non-official members, before they are submitted to the Accountant-General, Bengal. The accounts were found by the Audit Committee in fair order.

5. *Inspection of accounts.*—The offices of the Chairman and District Engineer were inspected by the Examiner of Local Fund Accounts, Bengal, on the 21st and 22nd March 1884, and found in a satisfactory condition. His remarks are noted below.

"The District Engineer's Office was inspected by the Divisional Superintendent of Works, on the 30th November 1883, and the prescribed books and registers seem to be maintained with care and regularity by the Accountant, Baboo Heramba Chandra Chakraverti."

CHAIRMAN'S OFFICE.

"The Committee's Accounts are also well kept and were up to date."

6. *How the different Establishments worked during the year.*—The establishment worked satisfactorily during the year, except that under the Buxar Branch Committee.

7. *Working of the Branch Committees.*—There are three sub-divisions in Shahabad, and in each a Branch Committee has been established with independent powers. The Branch Committees at Sasseram and Bhabooah worked well, that at Buxar, indifferently.

8. *State of roads.*—The principal original works carried on during the year were the metalling of the roads from Doomraon to Tendooi, which completes the line of communication between Buxar and Sasseram, and metalling the road from Arrah to Sasseram. The former was completed during the year and the latter has been subsequently finished. These roads have taken five years to construct, and they open out the district by connecting the Grand Trunk Road, which runs east and west, with the East Indian Railway. The total expenditure on original works during the year was Rs. 46,566.

9. *State of roads.*—The existing roads were maintained during the year in fair repair. All metalled roads were kept in good order, and the other roads were repaired immediately after the rains, but most of them were unavoidably a good deal cut up by traffic during the season, and became difficult during the rains.

10. *Village roads.*—Thirty-nine miles of new village roads were opened during the year in the Sudder Sub-division, and a good deal of work was also done in this direction by the Branch Committees.

• *Arboriculture.*—One hundred and thirty miles of roads was planted in recent years with valuable trees and the protection of this plantation absorbed the resources available in 1883-84, for arboriculture.

The floods of the Sone and the Ganges destroyed a great number of young trees.

throughout the district have received careful attention, and their condition has been generally good during the year under report.

11. *Arboriculture*.—The trees that were planted in the previous years, with the exception of those abandoned in the year 1882-83, owing to the narrowness of some of the roads, have been well looked after.

12. *Village roads*.—The outlay under this head was Rs. 838 during the year. The repairs were undertaken by the Managers of Indigo factories, and the zamindars of villages benefited thereby.

13. *Public Works Establishment*.—The District Engineer reports that satisfaction has generally been given by the present establishment. One overseer was dismissed in October 1883, for falsely certifying for payment, work which had not been executed. His place has been filled up by a fully qualified man. One Sub-overseer has been re-transferred to the Public Works Department, as his age incapacitated him for active work. His place has also been satisfactorily filled up.

14. *Committee's Office Establishment*.—Originally there were two Accountants, namely one attached to the office of the District Engineer, and the other to that of the Road Fund Committee. In December 1883 the former post was abolished, and its incumbent Baboo Ramjibon Ghose was promoted to the latter on an increased pay of Rs. 100 a month. Notwithstanding that the post of the Accountant in the District Engineer's office has been abolished, Baboo Ramjibon Ghose has to perform the duties of that office as well as those of that of the Committee, and I am glad to hear that he has been discharging the two-fold duties of his office ably and efficiently. The subordinate clerks also continue to give satisfaction.

15. I consider that Mr. Davies, District Engineer, is a good man of business, and has done his work in a satisfactory manner.

H. W. C. CARNDUFF,

Vice-Chairman, Dist. Road Committee, Mozufferpore.

We do hereby certify that we have examined and found the District Road Fund Accounts for the cess year 1883-84 to be correct.

H. W. C. CARNDUFF,

*Vice-Chairman, Dist. Road Committee, Mozufferpore.*GOURISHANKER BISWAS, *Member.*

Mozufferpore, the 10th December 1884.

No. 124, dated Durbhunga, the 27th November 1884.

From—The Chairman, District Road Committee,
To—The Commissioner of the Patna Division.

As required under section 179 of Act IX of 1880 (B.C.), I have the honour to submit the following report on the working of the District Road Department of this district, during the last cess year (1883-84).

District Committee.—During the great part of the year the total number of members on the Committee was 23 only, but at the end of the year two new members were appointed making the total 25. A statement is annexed showing the particulars of the attendance of the members.

The attendance was not, in my opinion, altogether satisfactory; but individual members, particularly Europeans, took great interest locally in the Committee's work and rendered material help by undertaking the repairs of several district and village roads.

Branch Committees.—There are two Branch Committees in the two outlying subdivisions of the district, viz: Madhubani and Tajpore. The work done by them consisted in securing the repairs of village roads including the bridges in their respective jurisdictions. I beg to annex extracts from the reports received from the Chairman of these Branch Committees. Mr. Earle writes, "The Sub-Committee nominally consisted of six members (one official and five non-officials), of the five non-officials, three are Europeans and two are native gentlemen. Of the two native members one Baboo Goudar Pershad Narayan died lately and the other Baboo Suriydeo Narayan, has never put in an appearance at any of the meetings, so that they can no longer be considered as members. The other members are W. Crowdy, Esq., R. Abercrombie, Esq., and E. MacNaughten, Esq. There were two meetings, convened during the year, in both of which Mr. Crowdy attended only. This shows that as a deliberative body, the Sub-Committee has been a failure during the year. Mr. Reilly says, "One meeting was held on the 15th December 1883 at which the accounts for 1882-83 were passed and arrangements were made for spending the money sanctioned for 1883-84. The policy described in previous year's report of Mr. Faulkner, was followed again during 1883-84. The Committee allotted a round sum to each member of other gentlemen who undertook to repair the roads in his neighbourhood, leaving the details of expenditure entirely to him."

On the subject of Committees, I will make a few brief remarks. I think the District Road Committee should meet at least once every month, to discuss generally district and village road matters, and at any rate to pass accounts if there is nothing special to do. I find, however, that members care very little of road matter relating to any other part of the district than that in which they reside. Another is but natural. In respect of roads near their houses they are keen to see that the requirements of each case are met, and the money judiciously expended. I think the Members of Committee should meet every month to talk over the general condition of roads in their neighbourhood, and to draw the attention of the Chairman or Vice-Chairman or District Engineer, to the progress of work being done in the several roads. A wholesome check is thus provided in the work of subordinates. The Madhubani Branch Committee, I think, is too large and windy, with its great redundancy of members; it met only once, and then only to make the different allotment of village road funds. I may remark of the District Road Committee of Durbhungah, that its tone is very independent, and on the whole, it exercises a wholesome influence.

• **Income.**—The total income of the Committee during the year amounted to Rs. 1,81,456-4-3, as will appear from the accounts.

• The principal item was the road cess.

The Revaluation of estates having been completed during the year before last, there was a considerable increase in the income under this head. The total demand of the year was Rs. 2,10,518 against Rs. 1,69,195 of the year before last; and as the year commenced with an unrealized balance of Rs. 39,136, the total realizable demand was Rs. 2,49,654. Of this sum Rs. 1,66,531 were realized including arrears, and Rs. 1,537 were remitted on account of amendments of the valuation of certain estates, leaving a balance of Rs. 83,609, at the end of the year.

• This balance was made up as follows:—

	Rs.
Previous year's arrears	12,316
Current year's demand	61,263
	<u>73,609</u>

The percentage of arrears on the total demand was therefore 21 against 14 of the year before last. But this increase in the percentage is only nominal. A sum of Rs. 25,753, was realized on account of last year in October after the Doorga Poojah holidays, as the latest day of payment of land Revenue fell after the holidays. If this sum be deducted from the total arrears, the percentage of the remaining balance will be Rs. 11 only on the total demand. Considering the bad outturn of the harvests last year, and the high prices of food-grains from which the people suffered and are still suffering, this result of the collections can by no means be called unsatisfactory.

• **Expenditure.**—The total expenditure during the year was Rs. 1,88,076-6-1, under the several heads as detailed in the accounts.—

Original Works.—The following original works were done during the year.—

1. Masonry culverts and bridges	18
2. Metalling with jamma and kunker	7 miles
3. Remodelling of road (earthwork)	9

Besides the above, three very large light iron bridges, the work on which has been in progress for the last two years were completed.

Tree-planting.—No work was done under this head, and no provision for it was made in the budget, the Durbhunga Raj having agreed to undertake the planting of new trees and

the maintenance of the old throughout all roads passing through his estates. But I consider this provision insufficient, and I will write to the sub-divisional officers and the European planters of this district asking them, whether, if funds are provided, they will undertake to plant trees and maintain them along certain district roads.

Repairs.—The total amount spent under this head, was Rs. 91,743-4-4, of which sum Rs. 18,575 represented the expenditure on village roads.

Of the total mileage 640, on district roads, 115 miles of road were repaired through the agency of the Sub-Divisional Magistrates and the planters of the district. The assistance of the European planters proved to be a great help to the Committee, and the work done was also excellent with few or no exceptions. In the Madhubani Sub-Division particularly, where the Sub-Divisional Officer took great interest in seeing that effective repairs were done and in checking the expenditure, excellent work was done by European planters and others. Mr. Reily says "I have inspected almost all the roads repaired and bridges repaired and constructed, and the work done is good, and the money appears to me to have been usefully expended. A great portion of the money has been spent in making pucca culverts; and if this policy is continued, as I think of doing in a few years, almost all the roads will have pucca culverts or bridges, by this means more money will be able to be expended on earthwork and raising the level of roads where it is low.

"All those who have spent the road cess money seem to take an interest in the matter; and are quite willing to continue their exertions in that respect, excepting Mr. Lloyd who has explained his inability to undertake any road cess work this year."

"I would remark that I would have been glad if the Road Cess Committee at Durbhunga would have allotted this sub-division a larger sum than Rs. 6,000 for expenditure on roads during the year. The large extent of the sub-division, the net work of roads within its limits, added to its importance, give it a claim to a larger amount of money to be spent on roads and bridges." With Mr. Reily's remark in respect of the advisability of constructing bridges and culverts wherever practicable, funds being available, I quite agree.

The District Engineer was entrusted with the construction of all larger bridges and earthwork repairs. The most important work done under this head was the construction of masonry arches where a large number of wooden-top, old and dilapidated culverts existed.

The state of the road in Durbhunga, I am sorry to say, is not at all satisfactory. The surface of the roads was kept scarcely passable and the breaches caused by floods were not filled up promptly, it is said that the existence of broken bridges everywhere proved to be a great drawback; be that as it may, it was I can testify a source of great inconvenience and of reiterated complaint from the public. As has been reported in the previous years, the roads in this district abound in old and dilapidated tar wood bridges which were constructed during the famine of 1874. Until these wooden bridges are all replaced by masonry culverts, doubtless the roads can never be put into a proper and satisfactory condition. But the District Engineer ought undoubtedly to take steps to prevent a complete collapse of these bridges. If a rotten plank or beam were replaced now and then or a nail hammered in occasionally, a bridge though a tar wood one, would last much longer than when it is utterly neglected and allowed to fall to pieces of its own accord.

Village roads.—The amount originally sanctioned for village roads in the Sudder Sub-Division was Rs. 5,000, but during the middle of the year an additional sum of Rs. 2,461-5-9 was sanctioned for the purpose of carrying on certain works with the view of affording relief to the people in the eastern part of the sub-division who were supposed, though not a good ground, to be suffering from a partial failure of the crops.

The allotments for the Madhubani and Tajpur Sub-Divisions were Rs. 6,000 and Rs. 5,000, respectively.

The whole of these allotments was spent to the best advantage, though in the accounts no expenditure appears against the Madhubani Sub-Division, owing to the non receipt of detailed accounts from the planters and other gentlemen to whom advances were made for the purposes of road repairs. The work in sub-divisions was done entirely under the supervision of the Branch Committees.

The annual accounts are herewith submitted in duplicate. They have been only audited and examined under section 179.

No. 142, dated, Chupra, the 22nd December 1884.

From—A. FORBES, Esq., Chairman, District Road Cess Committee, Sarun.
To—The Commissioner of the Patna Division.

I HAVE the honour to forward herewith in duplicate, the Report and Annual Accounts of the District Road Cess Committee of Sarun for the cess year 1883-84.

No. A, dated Chupra, the 13th December 1884.

From—H. LEE, Esq., Vice-Chairman, District Road Cess Committee, Sarun.
To—The Chairman, District Road Cess Committee, Sarun.

I HAVE the honour to submit herewith, a detailed account of the receipts and expenditure of the Sarun District Road Fund for the cess year 1883-84.

2. With the exception of the works noted in the explanatory sheet, all other works provided for in the budget were completed.

3. All original works and repairs in the Sewan sub-division were executed by the Sewan Branch Committee, and those in the Gopalgunge Sub-Division, excepting original works on the main roads, were executed by the Gopalgunge Branch Committee.

4. Rupees 12,177-6-4 were spent on the improvement and repairs of village communications. The works were for the most part carried on by the managers of factories and native zemindars.

5. *The main roads.*—There were seven miles of new metal laid. There were already 52½ miles of metalled roads and these were kept throughout the year in perfect order. The *kutchas* roads were maintained in fair order.

6. No serious damage was done to any of the district roads by flood, except that portions of the 47th and 52nd miles of the Chupra Goothny Road were encroached upon and carried away by the Gogra. At these places, the road will have to be retired. This has, however, previously been done and a new alignment is probably necessary.

7. Two miles of road in the Chupra Sub-Division and two miles in the Sewan sub-Division were planted with trees, and about 200 new brick protections constructed. All the trees that were planted in previous years were properly taken care of and maintained.

8. The establishments, both in-door and out, worked on the whole excellently well.

Explanatory sheet to accompany the annual accounts.

Cess on lands.—The explanation regarding the short collection of cess will be submitted separately in the administration report of the Cess Department.

Process fees.—Rupees 485-8 shown under this head were due for the period prior to the introduction of the system of realising talabana fees by court-fee stamps.

Miscellaneous.—Rupres 2,916-2-1 realised on account of interest on cess on lands have been shown under this head, as per orders of Bengal Government conveyed in their Resolution No. 1795R.O. of 23rd May 1884.

Contribution of Rs. 1,300 payable from the provincial funds was not realised within the year, as owing to a mistake in the treasury accounts, the above sum billed for was placed to the credit of some other department instead of road fund. It has been credited in the accounts for November 1884.

Refund of cess.—Out of Rs. 30-4-10 refunded from this head, Rs. 2-4-8 represent the sum to be credited to dak and embankment cesses, Rs. 25-2-2 to revenue deposit, Rs. 2-6-0 were payable to the pound-keeper of Purna for the feeding charges of cattle attached for the arrears of road cess, and the remaining 8 annas were to be credited to talabana account.

Collection establishment.—Travelling allowance Rs. 81-6 11 was given to the naib wazir for going into the mofussil for the realization of cess arrears.

The figures in red ink with *plus* signs indicate the extra sums sanctioned by the Committee after the preparation of the Budget estimate, and those with *minus* signs represent the sums transferred to other works. The statement of re-appropriation shows in detail the transfers made from one work to another.

The explanations relating to works which have not been touched or which have exceeded the budget grants are given in District Engineer's No. 209 of 12th December 1884, an extract from which is annexed.

The unadjusted outstanding advances at the close of the year were as detailed under :—

H. LEE,

Vice-Chairman.

Extract from the District Engineer's letter No. 209 of the 12th December 1884.

(a). The construction of a bridge over the Ghoonry on Meerungunge-Sutterghat road was deferred pending submission of a project, and hence no expenditure was incurred on it last year.

(b). There was a Government ferry boat plying in the river Jharai, 4th mile, Chupra-Goothay Road, consequently the construction of a temporary bridge at the spot was not necessary and disallowed.

(c). A melani boat for ferry purpose at Myiwa was built last year, but payment was not made; the amount, however, has been reappropriated for expenditure in this year.

(d). A melani boat for ferry purpose at Chainpore (same remarks as above).

(e). Pending submission of a project, the improvement of cart track 1st-3rd mile of Sewan-Lukree road was not undertaken.

(f). Metalling at Burrowlee Bazar. The execution of this work was also deferred pending submission of a project for feeder road.

(g). The amount put down for a three opening bridge on 23rd mile of Sewan-Kuteya road was already spent in last year in making payment for bricks supplied by a contractor.

(h). Constructing a 5-feet culvert on 9th mile of Gopalgunge-Buturda road. Bricks only made and paid for, construction pending project.

(i). Constructing a two opening bridge on 9th mile of Gopalgunge-Buturda road. Bricks only made and paid for (same remarks as above).

(j). A 6-feet culvert on 10th mile of Gopalgunge-Buturda road. Bricks only made and paid for (same remarks as above).

(k). A two opening bridge on 11th mile of Gopalgunge-Buturda road. Bricks only made and paid for (same remarks as above).

(l). Raising a portion of 3rd mile of Gopalgunge-Buturda road. Bricks only made and paid for. Not undertaken pending submission of project.

(m). Constructing a two opening bridge 8 feet each on 2nd mile of Saddowa-Sarfra road. Disallowed. Diversion of road being recommended as preferable.

ii. (a and c). The repairs of bridges on the roads Nos. 6, 13, 16, 22, 29, 35, 41, 43, and 51, 4, 18 and 22 in the Chupra and Sewan subdivisions marginally noted were not done, as contractors could not be obtained.

(c). Damages done on a portion of road No. 5 by flood were thoroughly repaired, and the expenditure added to that for the whole road.

(d). Repairs to the approaches to the bridge on road No. 13 were not carried out, as contractors could not be obtained, nor could the work be done departmentally at rates.

iii. The excesses noticed are very small and were unavoidably necessary. Such variations must occur in repair estimates, where the state of bridges, &c., cannot be accurately ascertained until opened up. There were also large savings effected on some other works; and these could be made available to meet the excesses alluded to.

H. LEE,
Vice-Chairman.

No. 131, dated Motihari, the 7th January 1885.

From—E. R. HENRY, Esq., Collector and Chairman, Chumparun,
To—The Commissioner of the Patna Division.

With reference to the circular No. 973A. of the 14th September 1880, forwarded with your No. 283J. circular of the 25th September 1880, I have the honour to submit the annual accounts and report* of the District Road Fund for the cess year 1883-84.

The balance left unrealized is a sum of Rs. 19,609 on the last day of the cess year; a sum of Rs. 3,751 was, however, paid into the treasury on the 6th October 1884, the last day of the list. This unusually large balance in the unrealized demand is mainly owing to introduction of a new procedure in the working of the Certificate Act. There were four meetings of the Sudder District Road Cess Committee held during the year, the particulars of which will be found in the accompanying statement.

The Chainputtia bridge over the Sekrahua river was commenced in December of last year, and will be completed during the current year. This bridge, which is 400 feet long, is the largest original work ever carried out by the Chumparun Road Cess Committee out of their own funds.

The bridge, when completed, is expected to give a stimulus to the traffic between Nepal and this district, as a road leading from Bettiah over the Chainputtia bridge is being carried on to Bikna Thoree on the frontier, and the district is thus provided for the produce of the fertile Chiloura valley of Nepal.

The immense relief which this bridge will afford to inter-district traffic is obvious, and it was mainly upon this consideration that the Road Cess Committee agreed to contribute the large sum of Rs. 27,824 at their meeting held at Segowlee on the 15th August 1883.

Eight hundred and seventy-five miles of road have been repaired during the year under report and kept in good order; also about 179 miles of village roads repaired, and six bridges and culverts have been built.

Sixteen thousand five hundred and seventy trees have been planted along the sides of roads, which will serve admirably as demarcation marks, and effectually protect the roads from the incessant encroachments which are being made upon them by cultivators holding lands which are contiguous to the road.

There is a Branch Committee at Bettiah in this district, and an allotment for expenditure on village roads is placed at the credit of the Chairman, Branch Road Cess Committee, and all works during the year were carried out under the direct supervision of its Chairman, with the exception of the Patilash bridge, which was constructed under the immediate supervision of the District Engineer from funds provided by the Branch Committee.

No new roads were made during the year under review. There was no meeting of the Bettiah Branch Committee during the year under report.

The different establishments worked satisfactorily during the year.

Form of Audit Certificate.

We hereby certify that the books and accounts specified below,* prescribed for the road cess office and for the office of the District Engineer, are duly kept up, and that they have been posted for the year 1883-84, and have been duly scrutinized by the sub-committee.

Also that the Treasury Officer's abstract of the account of the committee for the year has been duly received, checked with the cash and pass-books, and found to agree therewith (except in respect of uncashed cheques which are above enumerated, and have been duly noted in the cash-book).

That the vouchers for the payments of the year have been cancelled.

That all necessary steps have been taken for the recovery or adjustment of outstanding advances.

That none but duly sanctioned expenditure has been incurred, and that in the case of original works, the register of monthly expenditure shows clearly the amount of sanctioned estimate, the grant for the year, and the expenditure on each work to end of the year.

And generally that the work of the office has been performed with carefulness and regularity, and with a due observance of the rules prescribed by Government.

* (A) In Road Cess Office:—(1) Cash-book; (2) Cash abstract book; (3) Register of monthly receipts and expenditure; (5) Account and advances.

(B) In District Engineer's Office:—I.—Accounts, viz.—(1) Files of contract certificates; (2) Files of bills for purchases or purchase lists; (3) Files of day books; (5) Files of acquittance rolls; (6) Road metal returns. II.—Books, viz.—(1) Imprest cash books; (2) Register of bills passed; (3) Register of works and repairs; (4) Register of tools and plant; (6) Register of road metal.

E. BOVELL,

H. NOON,

Vice-Chairman.

No 143G., dated Bankipore, the 10th March 1885.

From—F. M. HALLIDAY, Esq., Commissioner of the Patna Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to forward herewith, in original, the annual accounts and reports of the several District Road Cess Committees in this division for the cess year 1883-84, and to add the following remarks.

1. The total receipts of the division during the year under review were Rs. 14,61,248, including "advances" and "deposits," and the balance of the previous year. Thus:—

DISTRICTS.	Balance of cess year 1882-83.	Net receipts during 1883-84.	Advances and deposits.	Total.

* Overdrawn from the treasury.

Out of this sum Rs. 13,246 were contributed by Government as grants in aid as follows, viz. Rs. 10,000 for the improvement of the Korlia Ghat road which was undertaken by the District Road Cess Committee, Mozufferpore, to give employment to the distressed people of the flooded tracts in the Sitamarhee sub-division, and Rs. 1,584 and Rs. 1,662 for the improvement of communications in Government estates in the Gya and Shahabad districts respectively. Private contributions amounting to Rs. 8,398 and Rs. 251 respectively were also received from the Maharani of Ticari for the improvement of the Ticari road in the Gya district, and from the Manager of the Sirsia Factory for the repairs of a village road from Berhampore to Sain in the Mozufferpore district.

2. The expenditure of the year amounted to Rs. 12,77,783, leaving a balance of Rs. 1,83,464 at the hands of the several Committees, at the close of the year.

The following is an abstract of the estimated and actual outlay on the original and repair works, and on the establishment of the several Committees, as contracted with the actuals of the previous year.

DISTRICTS.	1883-84.						ACTUALS OF 1882-83.		
	ORIGINAL WORKS.		REPAIR WORKS.		ESTABLISHMENT.		Original.	Repairs.	Establishment.
	Estimate.	Actual.	Estimate.	Actual.	Estimate.	Actual.

6. Mozufferpore and Hajipore	93,827	87,701	85,501	67,552	32,540	32,708	32,623	72,461	36,875
7. Chumpanan	82,408	11,423	51,372	29,129	20,339	20,501	60,227	60,834	19,746
Total	5,63,461	3,80,432	4,18,072	4,29,801	2,05,001	2,07,679	4,23,208	4,45,929	2,39,645

3. The expenditure on original and repair works during the year, as will be seen from the above statements, was Rs. 3,80,432 and 4,29,801, respectively, against the budget allotment of Rs. 5,63,461 and Rs. 5,16,972. The outlay on these items during the previous year was Rs. 4,23,208 and Rs. 4,45,929 respectively. Thus the expenditure under these heads during the year under notice was not only considerably less than that of the previous year, but in the case of the original works it fell short of the budget allotment by 32 per cent. This may to some extent be accounted for as the result of the temporary check put upon some of the districts against the indiscriminate expenditure of money on works for which no properly prepared projects or duly authorized sanction had been previously obtained, and partly also from the non acquisition of land required in sufficiently early time to admit of the projected works being carried out in the time originally contemplated. A much better result is however confidently expected for the current year.

4. There are altogether, as will be seen from the statement given below, 8,098 miles of roads in charge of the several District and Branch Committees in the Division.

DISTRICTS.	1st class.	2nd class.	3rd class.	4th class.	Total.
Patna	108½	211	153	123	595½
Gya	168½	409½	342½	9½	929½
Shahabad	201	139	104	1,066½	1,500½
Saran	297½	443	126½	184½	1,050½
Durbhanga	142½	326½	119	866½	1,484½
Muzafferpore	Nil.	1,000½	120	302½	1,483
Chumparun	Nil.	805	130	111	1046
Total	917½	3,334½	1,124	2,721½	8,098½

Out of this only 917 miles or 11 per cent. are first class or metalled roads; 3,334 miles or 41 per cent. second class or roads raised and bridged or partially bridged, but not metalled; 1,124 miles or 14 per cent. of third class or roads simply raised to a certain extent, but neither bridged nor metalled; and 2,722 miles of fourth class or village roads and tracks.

Thus in the whole division there are 89 per cent. of second, third, and fourth class roads taken together against 11 per cent. of first class; and in the Muzafferpore and Chumparun districts there are at present no first class roads at all. Apart, therefore, from the usual ordinary maintenance of these communications, which on an average cost Rs. 4,32,000 annually, there are ample works to engage the attention of the Committees for several years to come in the way of metalling, bridging, raising, and generally improving the conditions of the already existing roads, leaving alone the question of opening out new lines of communications.

5. The cost of the various establishments under the several Committees amounted to 2,07,579 (exclusive of the establishments of the Divisional Superintendent of Works), or Rs. 25½ per cent. on the total outlay on original and repair works, and 20½ per cent. on the net aggregate income of the several Committees during the year, the limit imposed in section 135 of the Cess Act being 25 per cent. of the net receipts of the year. In comparison with the actuals of the previous year, the expenditure under this head has been reduced

	Rs.
1. Patna	22,124
2. Saran	16,084
3. Durbhanga	5,208
Total	88,465

by Rs. 25,066. This is due to the abolition of the extra establishments entertained in the Patna, Saran and Durbhanga Districts for revaluation works, which were completed during the cess year 1882-83, resulting in an increase of the available income of the division by Rs 88,465,* already reported when submitting the budget estimates of the

current year.

6. The Cess Act continued to work smoothly, but complaints have been made in regard to the difficulty and delay in the recovery of arrears under the Certificate Act, and this matter has been reported to the Board in the Cess Administration Report of the past cess year.

7. All the District Committees in the division have generally ~~worked well~~ during the year, although in the case of the Gya and Durbhanga districts the attendance of the part of some of the non-official members has been reported to be irregular.

The working of the Branch Committees named in the margin was, however, not so satisfactory. They do not appear to have taken much interest in their work, as may be gathered from the fact that during the whole of the year only one meeting was held by each of the Committees at Barh, Nowadah, and Tajpore, and two meetings by the Committees of Aurungabad and Madhubani, whilst the Bettiah Committee held no meetings at all.

7. Chumparun	1,046	0 0
8. Hajipur Branch Committee	893	8 11
Total	16,516	8 11

8. The expenditure incurred under the head "Establishment" of the Divisional Superintendent of Works during the year under report amounted to Rs. 15,576-8-11 against Rs. 16,529 of the previous year, and was realized from the several Committees in the proportion of their income, as shown in the margin.

9. I have again to put on record my acknowledgments to Mr. Joll, the Divisional Superintendent, for the able manner in which he has so thoroughly performed the duties of his office in the constant and efficient supervision of the Road Cess works in the several districts of this large division.

LAND SALE NOTICES.

NOTICE is hereby given, under section 6, Act XI of 1859, that the undermentioned estates, in the district of Nadia, will be put up to public and unreserved sale at the Collector's office of that district, on the 28th day of June 1885, for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue due on the 28th day of March 1885.

H. HUTTON, Presy. Postmaster.

General Post Office, the 10th June 1885.

Overland Parcels for and from the United Kingdom.

1. From and after the 1st July 1885, parcels not exceeding 7lb in weight, which may be posted at any Post Office in India for transmission to the United Kingdom, will be forwarded under special arrangements with the British Post Office as mails, and delivered free of charge (except Customs dues, if any) at the addressee's residence, through the medium of the British Post Office.

NOTE.—Parcels containing tobacco, sent from India to the United Kingdom, will be charged on delivery with a fine of 6d. per lb in addition to duty.

2. Parcels exceeding this weight will be forwarded under the same conditions as at present through the P. & O. Company.

3. Hitherto the dimensions of all foreign parcels have been 2 feet x 1 foot x 1 foot. In future the dimensions of parcels sent to the United Kingdom only, whether sent through the British Post Office or through the P. & O. Company, will be the same as in England, viz. not exceeding 6 feet

in girth and length combined, or 3½ feet in length. The minimum size of a parcel will continue to be 3 x 2 x 2 inches.

NOTE.—The previous dimension of 2 feet x 1 foot x 1 foot gives a total of girth and length combined of 6 feet.

Route.

4. For the present both classes of parcels will still be forwarded by sea to London.

5. The rates on all classes of foreign parcels remain unchanged, viz. 8 annas per lb or fraction of a lb in India, and 1 shilling per lb in England. Parcels posted in India must be prepaid in cash. Light parcels posted in England must be prepaid, but heavy parcels from that country can be sent unpaid.

6. Similarly, from the 1st July 1885, parcels not exceeding 7lb in weight will be received at any Post Office in the United Kingdom for transmission to India, if presented with a declaration in the prescribed form, copies of which can be obtained at any Post Office.

7. Parcels exceeding 7lb must, as before, be sent to the Indian Parcel Post Office, 122, Leadenhall Street, or 25, Cockspur Street, London, with a letter of advice giving name and address of the parcels and value and contents.

8. All parcels posted in India for the United Kingdom, whether light or heavy, must, in future, be presented at the window, accompanied by a Custom House declaration, filled in upon one of the prescribed forms which will be supplied gratis at every Post Office. The special attention of the public is invited to this provision.

COMMITTEE OF MANAGEMENT.

Lieutenant-Colonel E. G. Wace, Financial Commissioner, Punjab, *President*.

Members:

The Secretary to Government, Punjab.
D. C. J. Ibbetson, Esq., C.S., B.A., Director of Public Instruction, Punjab.
E. W. Parker, Esq., District Judge, Lahore.
S. E. Wheeler, Esq., F.R.S., Editor, *Civil and Military Gazette*.
Pandit Rām Narāin, Pleader, Chief Court, Punjab.
J. Lockwood Kipling, Esq., Principal of the School of Art.
C. B. Brind, Esq., C.S., Assistant Commissioner, Lahore, *Secretary*.

THE LIBRARY.

This institution has been established, at the desire and with the assistance of the Punjab Government, in order to provide a Public Library for the use of all classes in the province.

Admission to the Reading-Room is free; and books will be lent out subject to rules and subscriptions, which can be ascertained on application to the Librarian.

A large contribution of books and pecuniary support have been promised by Government; but the Committee earnestly appeal to the public for further contributions of books, both European and Oriental.

Privileges will be given to donors of twenty volumes and upwards.

Until the library is formally opened, a private donation of standard works, accepted by the Committee and valued by them as worth not less than Rs. 50, will entitle the donor to the privileges of life member. A second donation of the same value will entitle the donor to nominate a life member.

Life members will be exempt from payment of deposits, subscriptions and fees otherwise required by the rules.

Assistance is especially desired towards securing a complete collection of books relating to India and the East.

Societies, Institutions, and Departments of Government are invited to contribute.

Donors of books may make it a condition of the donation that any of the books they give shall not be lent out, except to the Donor.

Communications should be addressed to—The Secretary, Punjab Public Library, Lahore.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

PART III.

Act of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[Third Publication.]

THE following Act passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 6th April 1885, and having received the assent of His Excellency the Governor-General on the 15th May 1885, is hereby published for general information:—

ACT No. I OF 1885.

An Act to regulate Ferries in Bengal.

WHEREAS it is expedient to regulate Ferries within the territories subject to the Lieutenant-Governor of Bengal: It is enacted as follows:—

Preliminary.

1. This Act may be called the "Bengal Ferries Act, 1885."

2. It shall extend to all the territories subject to the Lieutenant-Governor of Bengal:

And it shall come into force on such date as the Lieutenant-Governor may, by notification in the *Calcutta Gazette*, appoint in this behalf.

3. Regulation VI of 1819 and Bengal Act I of 1866 are hereby repealed; but all determinations, declarations, orders, and rules made, engagements entered into, and securities taken, under such Regulation and Act shall be deemed to be respectively made, entered into and taken under this Act.

4. Nothing in this Act contained shall apply to any ferry deemed or declared to be a municipal ferry under the provisions of the Bengal Municipal Act, 1884.

5. In this Act, unless there be something repugnant in the subject or context,—

"Commissioner." means the Commissioner of a Division.

"Ferry" includes a bridge of boats, pontoons or rafts, a swing-bridge, a flying-bridge, a temporary bridge, and a landing stage.

"Notification" means a notification published in the *Calcutta Gazette*.

"Private Ferries" includes all ferries other than those declared to be public ferries, or established as such, under section six of this Act.

PART I.

PUBLIC FERRIES.

6. It shall be lawful for the Lieutenant-Governor from time to time to—

(a) declare what ferries shall be deemed public ferries, and the respective districts in which, for the purposes of this Act, they shall be deemed to be situate;

(b) take possession of a private ferry and declare it to be a public ferry;

(c) establish new public ferries where, in his opinion, they are needed;

(d) define the limits of any public ferry;

(e) change the course of any public ferry, and

(f) discontinue any public ferry which he deems unnecessary.

Every such declaration, establishment, definition, change or discontinuance, shall be made by notification:

Provided that, when any alteration in the course or in the limits of a public ferry is rendered necessary by changes in the river on which such ferry is established, such alteration may be made, by an order in writing, by the Magistrate of the District.

7. The control of all public ferries shall be vested in the Magistrate of the District, subject to the direction of the Commissioner.

8. The immediate superintendence of every public ferry shall be vested in the Magistrate of the District in which such ferry is situated, or in such other officer as the Lieutenant-Governor may, from time to time, either by name or by official designation appoint. And such Magistrate or officer shall, except when the tolls at such ferry are leased, make all necessary arrangements for the supply of boats for such ferry, and for the collection of the authorized tolls leviable thereat.

9. The tolls of any public ferry may, from time to time, be leased by public auction for such term as the Magistrate of the District in which such ferry is situated may, with the approval of the Commissioner, direct.

The Magistrate of the District or the officer authorized by him to conduct such auction may, for sufficient reason to be recorded in writing, refuse to accept the offer of the highest bidder, and may accept any other bid, or may withdraw the tolls from auction.

The lessee of the tolls of every ferry which have been leased under this section shall execute a contract setting forth the conditions on which the tolls of such ferry are to be held, and shall give security for its due fulfilment.

10. When the tolls of a public ferry have been duly leased, the lessee and every servant of the lessee shall be deemed to be legally bound to conform to the rules made under this Act for the management and control of such ferry.

11. On the requisition of the Magistrate of the District the person in charge of a public ferry situate in such district shall maintain at one or more places, in addition to the place at which the said public ferry is established, and within two miles therefrom, such number of subsidiary ferries as may seem to the Magistrate to be necessary for the public convenience: and all the provisions contained in this Act in regard to the management and control of public ferries shall be deemed applicable to any subsidiary ferry maintained under the requisition of the Magistrate.

12. All arrears due by the lessee of the tolls of a public ferry on account of his lease;

any pecuniary forfeiture for breach of contract inserted in the deed of contract or conditions of sale by public auction; and

all sums due from the lessee on the surrender of his lease under section fourteen,

may be recovered from the lessee or his surety (if any) as a demand under Bengal Act VII of 1880, or any other Act at the time

being in force for the recovery of public demands.

13. The lease of the tolls of any public ferry shall be liable to be cancelled at once by the Magistrate of the District in which such ferry is situated if it shall appear to such Magistrate that the lessee has failed to make due provision for the convenience or safety of the public within fifteen days after being required to do so by a notice in writing from such Magistrate.

14. The lessee of the tolls of a public ferry may surrender his lease on the expiration of one month's notice in writing to the Magistrate of the District in which such ferry is situated of his intention to surrender such lease, and on payment of such reasonable compensation as the Magistrate may, with the approval of the Commissioner, in each case direct.

15. The Magistrate of the District, with the approval of the Commissioner, may, from time to time, make rules consistent with this Act—

(a) for the management of all public ferries within such district, and for regulating the traffic at such ferries;

(b) for regulating the time and manner at and in which, the terms on which, and the person by whom, the tolls of such ferries may be leased by auction;

(c) for compensating persons who have compounded for tolls payable for the use of any such ferry when such ferry has been discontinued before the expiration of the period compounded for, and

(d) generally to carry out the purposes of this Act;

And when the tolls of a ferry have been leased under section nine, such Magistrate may, from time to time with such approval as aforesaid, make additional rules consistent with this Act—

(e) for collecting the rents payable for the tolls of such ferries;

(f) for regulating the returns of traffic to be, from time to time, submitted by the lessee of such ferries;

(g) in cases in which the communication is to be established by means of a bridge of boats, pontoons or rafts, or a swing-bridge, flying-bridge or temporary bridge, for regulating the time and manner at and in which such bridge shall be constructed and maintained, and opened for the passage of vessels and rafts through the same, and

(h) in cases in which the traffic is conveyed in boats, for regulating

the number and kinds of such boats and their dimensions and equipment;

the number of the crew to be kept by the lessee for each boat;

the maintenance of such boats in good condition;

the hours during which, and the intervals within which, the lessee shall be bound to ply, and

the number of passengers, animals and vehicles, and the bulk and weight of other things that may be carried in each kind of boat at one trip.

And may, from time to time, with such approval as aforesaid, repeal or alter such rules.

Rules made under this section shall be subject to the control of the Lieutenant-Governor, and shall be published in the *Calcutta Gazette* in such manner as the Lieutenant-Governor directs, and shall thereupon have the force of law.

16. No person shall, except with the sanction of the Magistrate of the District, maintain a ferry to or from any point within a distance of two miles from the limits of a public ferry:

Provided that in the case of any specified public ferry, the Lieutenant-Governor may, by notification, reduce or increase the said distance of two miles to such extent as he thinks fit:

Provided also that nothing hereinbefore contained shall prevent persons keeping boats to ply between two places, one of which is without, and one within, the said limits, when the distance between such two places is not less than three miles, or shall apply to boats which the Magistrate of the District, expressly exempts from the operation of this section.

17. Claims for compensation for any loss sustained by any person in consequence of a private ferry being taken possession of or a new public ferry, or subsidiary ferry, being established under section six or section eleven, shall be enquired into by the Magistrate of the District in which such ferry is situated, who shall, with the approval of the Commissioner, award compensation to any person who may appear justly entitled thereto. Such compensation shall be calculated upon an estimate of the annual net profit actually realized by such person from such ferry on an average of the five years next preceding such declaration, and shall in no case exceed the amount of fifteen times such net annual profit.

18. Tolls, according to such rates as may, from time to time, be fixed by the Magistrate of the District with the approval of the Commissioner, shall be levied on all persons, animals, vehicles, and other things crossing any river by a public ferry and not employed or transmitted on the public service:

Provided that the Lieutenant-Governor may, from time to time, declare that any persons, animals, vehicles or other things shall be exempt from payment of such tolls.

Where the tolls of a ferry have been leased under section nine, any such declaration, if made after the date of the auction, shall entitle the lessee to such abatement of the rent payable in respect of the tolls as may be fixed by the Magistrate of the District under this section.

19. The lessee or other person authorized to collect the tolls of any public ferry shall affix a table of such tolls, legibly written or printed in the vernacular language, and also, if the Commissioner so directs, in English, in some conspicuous place near the ferry:

and shall be bound to produce, on demand, a list of the tolls signed by the Magistrate of the District or such other officer as he appoints in this behalf.

20. Except as provided by section thirty-five

Tolls, rents, compensation, and fines how to be appropriated.

all tolls, rents, and compensation received by, or on behalf of, the Government, and all fines levied under this Act, shall be appropriated in the first instance towards the payment of all charges incurred in carrying out the provisions of this Act, and the surplus, if any, shall be credited to such fund as the Lieutenant-Governor may from time to time direct.

21. It shall be lawful for the Magistrate of the District in which a public ferry is situated, with the approval of the Commissioner, from time to time to fix rates at which any person may compound for the tolls payable for the use of such ferry.

PART II.

PRIVATE FERRIES.

22. The Commissioner may from time to time make rules, consistent with this Act, for the maintenance of order, and for the safety of passengers and property at private ferries situated in his division.

Rules made under this section shall be subject to the control of the Lieutenant-Governor, and shall be published in the *Calcutta Gazette* in such manner as the Lieutenant-Governor directs, and shall thereupon have the force of law.

PART III.

PENALTIES AND CRIMINAL PROCEDURE.

23. Every lessee or other person authorized to collect the tolls of a public ferry, who neglects to affix and keep in good order and repair the table of tolls mentioned in section nineteen, or who wilfully removes, alters or defaces such table, or allows it to become illegible, or who fails to produce on demand the list of the tolls mentioned in section nineteen, and every lessee who neglects to furnish any return required under section fifteen, shall be punished with fine which may extend to fifty rupees.

24. Every such lessee or other person as aforesaid asking or taking more than the lawful toll, or without due cause delaying any person, animal, vehicle or other thing, shall be punished with fine which may extend to one hundred rupees.

25. Every person breaking any rule made under section fifteen or section twenty-two shall be punished with imprisonment for a term which may extend to three months, or with fine which may extend to two hundred rupees, or with both.

26. When any lessee of the tolls of a public ferry makes default in the payment of the rent payable in respect of such tolls, or has been convicted of an

offence under section twenty-five, or, having been convicted of an offence under section twenty-three or section twenty-four, is again convicted of an offence under either of those sections. the Magistrate of the District may, with the approval of the Commissioner, cancel the lease of the tolls of such ferry, and make other arrangements for its management during the whole or any part of the term for which the tolls were leased.

27. Every person crossing by any public ferry who refuses to pay the proper toll; and every person—
Penalties on passengers offending.

who, with intent to avoid payment of such toll, fraudulently or forcibly crosses by any such ferry without paying the toll, or

who obstructs any toll-collector or lessee of the tolls of a public ferry, or any of his assistants, in any way in the execution of their duty under this Act, or

who, after being warned by any such toll-collector, lessee or assistant not to do so, goes, or takes any animals, vehicles or other things, into any ferry-boat, or upon any bridge at such a ferry, which is in such a state or so loaded as to endanger human life or property, or

who refuses or neglects to leave, or remove any animals, vehicles or goods from any such ferry-boat or bridge on being requested by such toll-collector, lessee or assistant to do so, or

who moors any boat, raft, or other substance to, or in any way obstructs, any part of a public ferry,

shall be punished with fine which may extend to fifty rupees.

28. Whoever conveys for hire any passenger, animal, vehicle or other thing in contravention of the provisions of section sixteen shall be punished with fine which may extend to fifty rupees.
Penalty for plying within public ferry-course without licence.

29. Where the tolls of any public ferry have been leased under the provisions hereinbefore contained, the whole or any portion of any fine realized under section twenty-seven or section twenty-eight may, notwithstanding anything contained in section twenty, be, at the discretion of the convicting Magistrate or Bench of Magistrates, paid to the lessee.
Fines payable to lessee.

30. Whoever navigates, anchors, moors or fastens any vessel or raft, or stacks any timber, in a manner so rash or negligent as to damage a public ferry, shall be punished with imprisonment for a term which may extend to three months, or with fine which may extend to five hundred rupees, or with both; and the toll-collector or lessee of the tolls of such ferry, or any of his assistants, may seize and detain such vessel, raft or timber pending the enquiry and assessment hereinafter mentioned.
Penalty for rash navigation and stacking of timber.

31. The Police may arrest without warrant any person committing an offence against section twenty-seven or section thirty.
Power to arrest without warrant.

32. Every Magistrate or Bench of Magistrates trying any offence under this Act may enquire into and assess the value of the damage (if any) done or caused by the offender to the ferry concerned, and shall order the amount of such value to be paid by him in addition to any fine imposed upon him under this Act; and the amount so ordered to be paid shall be leviable as if it were a fine, or when the offence is one under section thirty by the sale of the vessel, raft or timber causing the damage, and of anything found in or upon such vessel or raft.
Magistrate may assess damage done by offender.

The Commissioner may, on the appeal of any person deeming himself aggrieved by an order under this section, reduce or remit the amount payable under such order.

PART IV.

MISCELLANEOUS.

33. On the cancellation or surrender of a lease, the Magistrate of the District may take possession of all boats and other appliances which have been used by the lessee in the working of the ferry; and may either retain the same permanently on payment of a fair price to the proprietor, or may retain them for such time as may be necessary, not exceeding three months, until he can make arrangements for such other boats and appliances as may be necessary, in which case the Magistrate of the District shall pay a fair sum to the owners for the use of the said boats and appliances:
Power to take possession of boats and other appliances on surrender or cancellation of lease.

Provided that within a week of taking such possession, the Magistrate of the District shall be bound to give notice to the said lessee of his intention to retain the said boats and appliances permanently, or for a period to be specified in the notice.

34. When any boats or their equipment, or any materials or appliances suitable for setting up a ferry, are emergently required for facilitating the transport of officers or troops of Her Majesty on duty, or of any other persons on the business of Her Majesty, or of any animals, vehicles or baggage belonging to such officers, troops or persons, or of any property of Her Majesty, the Magistrate of the District may take possession of and use the same (paying such compensation for the use thereof as the Lieutenant-Governor may in each case direct) until such transport is completed.
Similar power in cases of emergency.

35. It shall be lawful for the Lieutenant-Governor to order that any public ferry situated in any district in which a District Board has been established under the provisions of the Bengal Local Self-Government Act of 1885 shall be managed by such District Board; and such District Board shall have all the powers vested in the Magistrate of the District under this Act except the powers specified in sections seven, seventeen, and thirty-two, and the Lieutenant-Governor may further order that all or any part of the proceeds of such ferry and all or any

part of the fines levied, and compensation received, under this Act in respect thereof, be paid into the District Fund.

And thereupon such ferry shall be managed, and such proceeds, fines and compensations shall be paid accordingly.

The Lieutenant-Governor may from time to time vary or annul any order made under this section.

36. The Lieutenant-Governor may, from time to time, delegate, under such restrictions as he thinks fit, any of the powers conferred on him by this Act to any Commissioner or Magistrate of a District, or to such other officer or authority as he thinks fit, by name or by official designation.

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT.

(First publication.)

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 20th May, 1885, and is hereby promulgated for general information:—

ACT NO. IX OF 1885.

An Act to repeal part of section 6 of the Indian Tariff Act, 1882, and to amend the Excise Act, 1881, the Bengal Excise Act, 1878, and the Sea Customs Act, 1878.

WHEREAS it is expedient to repeal part of section 6 of the Indian Tariff Act, 1882, and to amend section 7 of the Excise Act, 1881, section 18 of the Bengal Excise Act, 1878, and sections 145, 149 and 207 of the Sea Customs Act, 1878, in manner hereinafter appearing; It is hereby enacted as follows:—

XI of 1882. 1. The part of section 6 of the Indian Tariff Act, 1882, beginning with the words "And whereas," down to and including the words "been paid," is repealed.

XXII of 1881. 2. For clause (a) of section 7 of the Excise Act, 1881, the following clause shall be substituted:—

"(a) such duty as the Local Government may from time to time fix in respect of such spirit has been paid, or."

3. In section 18 of the Bengal Excise Act, 1878, for the words "at the rate leviable under any Tariff Act for the time being in force" the words "at such rate as the Local Government may from time to time fix in respect of such spirituous liquor" shall be substituted; but nothing in this section shall affect any Act passed after this Act comes into force by the Lieutenant-Governor of Bengal in Council.

4. The duty now fixed by the Local Government under section 6 of the Indian Tariff Act, 1882, as leviable on spirit manufactured in all or any of the distilleries situate in the territories under its administration, or in any part of such territories, shall, in places in which the Excise Act, 1881, or the Bengal Excise Act, 1878, is in force, be deemed to be the duty fixed by the Local Government under sections 7 and 18 of those Acts, as amended by this Act, respectively.

5. (1) In section 115 of the Sea Customs Act, 1878, after the word "shall" the words "except when provision is made by any enactment for the time being in force for its being immediately deposited in a licensed warehouse" shall be inserted.

(2) In section 149 of the same Act, after the words "custom-house" the words "or to a warehouse licensed under any enactment for the time being in force" shall be inserted.

6. In section 207 of the same Act, for the word "respectively" the words "or any like body hereafter created for any other port" shall be substituted.

PART VI.

Bills introduced into the Council of the Governor General for making
Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 14th May, 1885, and was referred to a Select Committee:—

No. 7 OF 1885.

A Bill to amend the Local Authorities Loan Act, 1879.

11 of 1879.

WHEREAS it is expedient to amend the Local Authorities Loan Act, 1879; It is hereby enacted as follows:—

Addition to section 8,
Act XI of 1879.

1. After clause (b) of the proviso to section 8 of the said Act the following shall be added:—

"or

"(c) to affect the power conferred on any local authority by any such enactment to charge its funds by guaranteeing the payment of interest on money to be raised for any purpose to which the funds of the local authority may be applied."

STATEMENT OF OBJECTS AND REASONS.

It is proposed that a light railway be constructed in the Tanjore District of the Madras Presidency by a Company, and that the interest on the capital to be raised by the Company for the undertaking be guaranteed by the Local Fund Board of Tanjore.

But section 8 of the Local Authorities Loan Act, 1879, prohibits any local authority from charging its funds except as provided by that Act and the rules made thereunder; and the Act provides, and the rules that may be made under it can provide, for no other means of charging funds than borrowing on their security.

It is considered desirable, therefore, that the Act should be so amended as to enable the local legislature to pass any enactment that may be necessary for authorising a local authority to guarantee the interest on money raised for any purpose to which the funds of the local authority may be applied.

QUARANTINE REGULATIONS FOR INDIAN PILGRIMS TO THE HEDJAZ.

No. 8—164, dated Simla, the 20th May 1885.

From—A. MACKENZIE, Esq., Secretary to the Govt. of India, Home Dept.,
To—The Secretary to the Govt. of Bengal, Political Dept.

I AM directed to state that intimation has been received through Her Majesty's Secretary of State for India that the Quarantine Regulations to be applied to Indian pilgrims at Camaran during the season of 1885 are, with the exception of certain alterations which have been made by the Constantinople Board of Health, similar to those* in force last year.

Vide Home Department Notification No. 194 (Sanitary), dated 4th July 1884.

2. The alterations are as follow: Article 8 of the Regulations has been modified so as to enforce ten days' quarantine at Camaran instead of five days', and Article 12 has been made to include pilgrim vessels arriving from Bushire, Muscat, and Zanzibar in addition to those from Bussorah.

3. With reference to the modification made in Article 8, the British Delegate attached to the Constantinople Board of Health has represented to Her Majesty's Government the great hardship which will result from the detention of the pilgrims at Camaran for ten days, owing to the small supply of fresh water on that island, and the fact that the pilgrimage of this year is likely to be very numerously attended. Her Majesty's Embassy at Constantinople has consequently been instructed by the Secretary of State for Foreign Affairs to bring the matter to the notice of the Ottoman Government with a view to obtain a reduction of the period of quarantine in the case of pilgrim vessels arriving from India. Any such reduction, if obtained, will be duly notified hereafter.

4. In the meantime I am to request that, with the permission of His Honor the Lieutenant-Governor, Notices may be widely issued to the effect that the

Quarantine Regulations applicable to the pilgrimage of 1885 will be similar to those in force last year, with the exceptions specified in paragraph 2 of this letter, which should be clearly set forth. Intending pilgrims should at the same time be informed that the supply of fresh water at Camaran is very limited, and that their detention on that island for ten days is likely to cause much hardship and suffering as well as additional expense.

NOTIFICATION.

(SANITARY.)

No. 194.—*The 4th July 1884.*—The following translation of the Regulations of the Ottoman Board of Health for the Pilgrim Traffic of 1884, received by the Political Resident at Aden from Her Britannic Majesty's Consul at Jeddah, are published for general information:—

TURKISH PILGRIM TRAFFIC REGULATIONS FOR 1884.

Article 1.

From the beginning of the month of Redjeb until the end of the month of Zilhidge Camaran opens only on the 6th June up to which (April 27th to October 20th) the Lazaretto of date pilgrim ships can land at Abow-Saad. Camaran is ready to receive arrivals by sea subject to quarantine.

(L.S.) (Sd) T. S. JAGO,
Her Majesty's Consul.

Article 2.

During the period of six months above mentioned (Redjeb, Shaban, Ramzan, Shawal, Zilcadé, Zilhidge) pilgrim ships bound from outside the Straits of Bab-el-Mandeb, no matter what be the tenor of their bill-of-health, must go directly to the Island of Camaran without touching at any other port of the Red Sea coasts.

Article 3.

Pilgrim ships are those expressly chartered for the conveyance of pilgrims going to Mecca.

Article 4.

Vessels bound to the Red Sea having on board only 1 pilgrim for every 100 tons register are not included in the class of pilgrim ships, nor are mail boats or vessels passing through the Red Sea bound to the Mediterranean and carrying such a number of pilgrims as does not exceed 5 pilgrims for every 100 tons register.

Article 5.

Vessels of the two categories mentioned in the preceding article are not obliged to go to Camaran. They must go to Abow-Saad, where they will discharge their pilgrims as well as merchandise, subject to quarantine destined for the Hedjaz or for the Yemen.

Article 6.

For this purpose a Lazaretto is established at Abow-Saad as a branch of the Camaran Lazaretto, and which for arrivals specified in Articles 4 and 5 of the present Regulation will work throughout the year.

Article 7.

Arrivals from Egyptian ports, sambouks and other coasters, navigating from one port to another of the Red Sea coast, will also perform quarantine at Abow-Saad in case of necessity arising.

Article 8.

On the arrival of a pilgrim ship in Camaran Harbour, as also at Abow-Saad, according to circumstances all pilgrims shall be disembarked and undergo the usual medical examination. If the health of the ship is good and without anything suspicious having occurred on the voyage, the ship and the pilgrims shall undergo five full days' quarantine, baggage and effects will be disinfected, the ship shall be washed and purified, but the cargo shall not be landed nor purified nor taxed.

Article 9.

Ships arriving from infected ports, but which have had no cholera case during the voyage or after arrival, shall undergo, ship and pilgrims, a quarantine of ten days. Merchandise coming from places contaminated by cholera shall remain on board the ship, if there has been no cholera cases during the voyage or after arrival, and is exempt from disinfection and from sanitary fees. Exception, however, is made for old personal effects and stuffs already used—unwashed wool, old cottons, hair and feathers, raw skins and hides, and other raw animal remains, as also rags.

Article 10.

Ships having had cholera cases during the voyage or after arrival, or suspected of such, shall be subjected, ships and pilgrims, to a quarantine of at least 15 days. This quarantine shall be renewed each time a cholera case again occurs among crew or passengers after their arrival in Lazaretto, and shall date from the day of the last case of sickness. In this case the clauses in the Regulations of 1867 for cholera shall be strictly applied.

Article 11.

No pilgrim ship shall leave Camaran for good without having re-shipped, at the expiration of the quarantine, all the pilgrims brought by her. Still vessels which have completed their quarantine without cholera cases or suspected cases among the crew, shall have a right to free pratique.

Article 12.

Sambouks coming from outside Cape Bab-el-Mandeb with pilgrims are in every way assimilated to vessels specially chartered for pilgrims: they must go directly to Camaran, and shall be repulsed from all other Arabian ports or the Red Sea.

By exception, vessels coming from Bussorah with pilgrims on board bound for the Hedjaz must also go to Camaran, where they will be treated according to the tenor of their bill-of-health and the general regulations.

Means for six days.
Means for five days.
Key-notation.—Semi-circles.—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same.
The density of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky
by 100. The normal means are the numerical means or averages of the values in that district determined from the returns sent in by the sub-divi-
sions from the district (i.e.), the total rainfall at the sub-divisional stations in the district during a return divided by the number of stations. A rainy

period for the past ten years. The variations are negative when the mean for the week is less than the corresponding normal mean, and positive when greater. by 10. The number denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head "District" observe the stations for the period in question during the past 12 years. The means of the "district" are the numerical averages of the rainfall returns received day is one on which at least one hundredth of an inch fell.

CALCUTTA, the 8th June 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 5TH OF JUNE 1885.

At the close of the previous week the wind systems over the Province showed that the dry westerly hot-weather winds were being steadily driven back by southerly and easterly winds, and on the last day of the week the westerly current was confined to a few stations in the extreme west of South Behar and Chutia Nagpur. The southerly and easterly currents were, however, comparatively feeble ones, and they were bringing up only small quantities of moisture into the Province. These conditions continued to hold good throughout the first four days of the week, but on Wednesday, the 3rd, winds became somewhat irregular in direction, and the southerly and easterly currents were not so strongly pronounced. These winds have of course brought up the largest amounts of moisture into East and North Bengal, and into the eastern districts of South-West Bengal, and during the first four or five days of the week rain showers were fairly general over considerable portions of these districts, and in some cases the amounts of rain received were rather large.

One of the most prominent features in the meteorology of the week has been the establishment of moderately strong monsoon winds over the south and centre of the Bay. On Friday, the 5th instant, decidedly strong monsoon winds were blowing at the Ceylon stations, and this advance of the Bay of Bengal monsoon current was accompanied by the setting in of the Bombay branch of the monsoon current on the south-western coast of the Peninsula. The western branch of the monsoon was ushered in by a small but rather feeble storm which reached the south-west coast at the close of the week, and which brought with it the first heavy rain to that coast. So far as the present indications go, the Bay of Bengal current is setting in rather more feebly than usual.

The pressure changes during the week have not been of a very marked character. For the previous week pressure had been uniformly above the normal, and the average excess pressure over the whole Province equalled about 0.11". On the Saturday pressure decreased rather decidedly, and the excess pressure was reduced to 0.05", but on the Sunday pressure again commenced to increase, and the excess rose to 0.1"; on the following day a further increase took place, and the excess became 0.12". On the following three days pressure changes were small, but still with an upward tendency, and the excess pressure became thirteen, fourteen and sixteen hundredths of an inch respectively. On Friday, however, the increasing tendency ceased, and a fall set in, and excess pressure was reduced to 0.13". The average excess for the week over the whole Province has therefore been 0.12", and so long as the pressure continues so largely in excess, it does not appear probable that a strong monsoon can set in over the Province.

Temperature has continued decidedly high in most districts throughout the week, but with the occurrence of rainfall the tendency in certain districts has been for it to decrease. In Orissa, East Bengal and South Behar temperatures have not been far removed from the normal, but in South-West Bengal temperature has been 3.6° in excess, in Chutia Nagpur it has been 4.3° in excess, and in North Behar 4.9° in excess.

Rainfall, as has before been explained, has been to a great extent confined to East and North Bengal, and to the eastern districts of South-West Bengal. Showers, however, have also fallen in the western districts of South-West Bengal, in Orissa and in the Sonthal Pergunnahs. In East Bengal almost all stations received rain on two, three, and in some cases on four days in the week, and the average amount recorded was 0.96 inch as against a normal fall of 3.64 inches. In North Bengal the Maldah, Rajshahye and Dinagepur districts have received little or no rain, whilst the Julpigoree, Cooch Behar and Darjeeling districts received comparatively large amounts. The whole area of North Bengal received an average fall of 1.64 inches against the normal fall of 3.23 inches. In South-West Bengal the Nuddea, Khoolna, Jessore, and Moorshedabad districts received rain on three and at some stations on four days in the week, and in many cases the rainfall has been heavy. The stations in these districts received an average fall of 1.29 inches. Of the western districts of South-West Bengal, Midnapore and Bankoora received practically no rain, and the stations in the western districts generally only averaged 0.24 inch of rain for the week. The normal fall in South-West Bengal for the week is 1.96 inches. In other districts the falls have been of little practical importance. Orissa reports 0.27 inch against an average of 1.8 inches, South Behar reports 0.02 inch against the normal 0.64 inch, Chutia Nagpur reports 0.03 inch against 0.86 inch, while North Behar has received no rain at all.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 5th of June 1885:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 85 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of former years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore .003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0.5 higher; and, finally, the thermometer, which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards, is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

MEMORANDA.

THE main features in connection with the vital statistics of the principal Municipalities in Bengal for the week ending 23rd May 1885, as gathered from the table appended to this memoranda, are the following :—

1. That births were registered in these Municipalities at the rate of 20·8 per 1,000 of population as opposed to very nearly the same ratio, viz 21·0 per 1,000 in the preceding week ending 16th May, and deaths at 28·4 against 30·6 per 1,000, indicating a retrogression in death registration.

2. That the highest proportions of births and deaths were returned from the under-mentioned Municipalities :—

Births.				Deaths.			
			Ratio per mille.				Ratio per mille.
Bhagulpore	41·6	Chittagong	34·0
Narainganj	37·2	Burdwan	47·8
Gya	32·1	Durbhanga	36·9
				Suburbs of Calcutta	36·4
				Gya	33·5
				Patna	32·5
				Hughli	32·3
				Purneah	31·1
				Mozufferpore	30·4
				Bhagulpore	29·9

3. That the mortality from the chief death-causes stood as follows :—

				Ratio per mille during weeks ending—	
				23rd May 1885.	16th May 1885.
Cholera	4·9	6·1
Small-pox	·6	·7
Fever	11·6	12·2
Bowel-complaints	4·1	4·5
Injury	·6	·4
Other causes	6·6	6·7

indicating that, in comparison with the preceding week, there was a noticeable decrease of mortality from cholera, and only fractional differences in that from the other diseases.

4. That of the diseases named above, while small-pox and bowel-complaints were noticeably fatal in only the Dacca and Durbhanga towns at the rates of 2·6 and 14·9 per 1,000 of their population, respectively, and injury proved nowhere very severe, the rest of the diseases caused the highest mortality in the following Municipalities :—

Cholera.		Fever.		Other Causes.	
	Ratio per mille.		Ratio per mille.		Ratio per mille.
Chittagong	40·3	Chittagong	12·2	Poori	18·9
Burdwan	29·0	Purneah	21·2	Gya	14·3
Suburbs of Calcutta	10·5	Hughli	22·8	Dacca	12·3
Bhagulpore	5·4				
Durbhanga	4·7				
Patna	2·9				

showing that, in comparison with the results of the preceding week, the severity of cholera had abated considerably in Burdwan and in the Suburbs of Calcutta, and fever in Purneah ; but that in Chittagong the prevalences of both diseases was very severe.

5. That the mortality referable to Sex, Class and Age stands as indicated below :—

According to Sex.		According to Class.		According to Age.	
	Ratio per mille.		Ratio per mille.		Ratio per mille.
Males	20·4	Christians	43·5	Under 1 year	102·1

GOVERNMENT OF BENGAL, MUNICIPAL DEPARTMENT.—MARINE.

NOTICE TO MARINERS—(No. 33.)

CEYLON—WEST COAST.

Sunken Rocks between Pantura and Caltura.

THE British Admiralty notifies that the following information, of the existence of certain sunken rocks lying one and half to three miles off shore between Pantura and Caltura, West coast of Ceylon, has been received from the Naval Commander-in-Chief on the East India Station:—

A rock (*Nilkete rock*) with a depth of two fathoms, and on which the wreck of the steam-ship *Justitia* was lying, is situated in latitude $6^{\circ} 41' 00''$ N., longitude $79^{\circ} 52' 50''$ E., about $1\frac{1}{2}$ miles from the nearest shore.

A rock, with four fathoms over it, lies W. N. W. from Nilkete rock, distant half a mile. Two small rocks, with depths of three fathoms, lie S. by W. from Nilkete rock, at the distance of about three cables.

A rock (*Kaluwattegala rock*), with a depth of $3\frac{1}{2}$ fathoms, lies about $2\frac{1}{2}$ miles off shore, in latitude $6^{\circ} 34' 00''$ N., longitude $79^{\circ} 53' 15''$ E.

A rock (*Veyangala rock*), with $5\frac{1}{2}$ fathoms on it, lies W. N. W. from Kaluwattegala rock, distant about six cables.

NOTE.—Vessels navigating in this locality should use caution and keep outside the 10-fathoms line.

The outer rock off Pantura, shown as one of the Pantura rocks, is named *Gonagala rock*; the rocks in shore of that, are the Pantura rocks.

The bearings are Magnetic.

PERIM ISLAND:

Occulting light on Obstruction point.

THE Bombay Government has given notice that a subsidiary light is now exhibited from a small tower recently erected on Obstruction point to prevent vessels running on the shoal ground which extends on the Eastern side of Perim island.

The light is an occulting white light, and will show through an arc of 165° or between the bearings of N. W. by N. $\frac{1}{2}$ N., through West and South, to S. S. E., and will be visible in clear weather from a distance of 14 sea miles.

The occultation lasts for one second, and the light is visible for seven seconds.

The light, which is on an octagonal masonry tower, 30 feet high and of a grey colour, is elevated 110 feet above high water.

The illuminating apparatus is dioptric or by lenses of the fourth order.

Note.—The light, when seen on a S. S. E. or N. W. by N. $\frac{1}{2}$ N. bearing, is dim.

Position as given:—Latitude $12^{\circ} 39' 14''$ N., longitude $43^{\circ} 25' 25''$ E.

The bearings are Magnetic and from seaward.

Port Officer of Calcutta.

PORT OFFICE, Calcutta, the 10th June 1885.

NOTIFICATION.

The 9th June 1885.—It is notified for general information that the Lieutenant-Governor intends, if no valid objections be raised within one month from this date, to approve of the following draft rules.

Draft Rules for regulating grazing in the reserved forests of Darjeeling.

1. Grazing in the reserved forests of the Darjeeling Forest Division, other than those north of the little Rangit river, is prohibited, except under the following rules and conditions.

2. Permits for grazing will be issued by the Forest Officers in charge of ranges, hereinafter referred to as range officers, for the calendar month, on payment of such fees as may from time to time be fixed by the Conservator of Forests with the sanction of Government. The permits will fix the block or locality in which privilege of grazing may be exercised: such blocks or localities shall be selected by the Divisional Forest Officer with regard to the protection of the forest, the convenience of the permit-holder, and the existing orders of Government on the subject, or orders which may in future be issued by Government.

3. He shall not be obliged to allow grazing in any given block to more than one head of cattle to every 10 acres of area, but on the other hand may locate any number of cattle in a block, provided the area available for grazing in that block be five acres per head.

4. Grazing will be reserved for milk cattle required for the supply of milk and butter to the public in Darjeeling, Jellapahar and Jore Bungalow, and for a number of draught cattle not exceeding 150 head.

The Divisional Forest Officer will not be bound to provide grazing for any cattle other than the above, but may, with the sanction of the Conservator, allow temporarily a larger number if he considers it can be done with due regard to the interest of the forest.

5. The construction of grazing camps, enclosures, or bathans is prohibited, except on the sites pointed out by the Divisional Forest Officer. Sites for two bathans shall be allowed to each grazier whose permit allows him to graze more than five head of cattle. Should more be required, or a change of site applied for, the question to be decided in case of dispute by the Divisional Forest Officer and Deputy Commissioner.

6. In the cases in which the two bathans allotted to a permit-holder be in two different blocks, he shall not leave one for the other without previous notice to the range officer, and without having the permission of this officer endorsed on the permit.

7. For the construction of, and repairs to, these bathans, permit-holders may utilize such dry fallen wood as may be found in the vicinity, and, with the permission of the range officer, canes and bamboos. Should sufficient dry wood not be available, the Divisional Forest Officer, or his subordinate under his orders, may mark and allow to be cut for this purpose trees of the less valuable kinds of smaller girth than 18 inches on pre-payment of annas 4 per tree. No charge will be made for canes, bamboos, or dry wood.

8. The Divisional Forest Officer may prohibit the construction of bathans for draught cattle.

9. The cutting and lopping of trees is prohibited. This rule does not apply to bamboos or creepers.

10. Every grazier occupying a bathan or grazing camp shall be bound to report to the range officer within three days of the occurrence any lopping or damage to trees by cutting instruments which has taken place within 300 yards of his bathan or camp. The first time he fails to report such damage he shall be warned. Should he fail to report such damage a second time, the Divisional Forest Officer may refuse to issue a grazing permit to him, but appeal may be made to the Conservator.

This rule does not apply to trees marked for felling by the range officer with the recognized departmental stamp.

11. Payment for permits for grazing will be made in advance on the first day of the month, and in case of payment not being made by the 10th, double fees may be charged; if not made by the 20th, the cattle may be driven out of the forest, or the defaulters prosecuted under section 25 (d) of the Indian Forest Act, and the issue of a permit refused, subject to appeal to the Conservator. Should the Conservator consider it desirable, payments may be made quarterly, but subject to the above provisions as to payment.

12. Buffaloes, goats, and sheep will not be allowed grazing in the forests forming the circles to be worked for the supply of fuel and timber to Darjeeling, Jellapahar, and tea plantations.

13. All permits will be kept at the bathans, and will be produced for inspection whenever called for by any Forest or Police Officer. On the expiry of the term for which a permit is issued, it shall be returned to the office of issue, and a fresh permit may be refused, unless the applicant produces his expiring or expired permit.

14. The range officer shall, after issue of a notice to any holder of a grazing permit, copy of which shall be sent for record to the Divisional Officer, require that on a day fixed, not less than seven days from the date of the notice, he shall have all his cattle within his bathan to allow of their number being checked with his permit. Such inspections shall not be made oftener than four times in the year: they shall ordinarily be held between the hours of 7 and 10 A.M., so as not to cause unnecessary inconvenience to the permit-holder.

who may, however, by giving at least two days' notice to the range officer, fix any other hour between 8 A.M. and 6 P.M. of the day appointed by the notice that may be more convenient to himself. Should the permit-holder refuse or neglect to comply with the terms of the notice referred to above, or otherwise hinder the thorough inspection of his cattle, the issue to him of a fresh permit may be refused until he has complied with the requirements of this rule.

The Conservator may exempt by name, class, or locality any person or persons from the requirements of the preceding clause.

Nothing in this rule shall be held to debar any Forest or Police Officer from visiting and inspecting a bathan or cattle shed or pen within the reserved forests, or the cattle grazing in the forest.

15. Any Forest Officer attached to the Darjeeling Forest Division, to whom the range officer is subordinate, may exercise any of the powers conferred on a range officer by these rules.

NOTIFICATION.

The 5th June 1885.—The Lieutenant-Governor directs the extension to the Angul estate, in the Tributary Mehals of Orissa, of the following rules under section 75 (d) of the Indian Forest Act (Act VII of 1878) for the prevention of fires in Forest Reserves which, under the notifications of the 11th December 1880 and of the 3rd December 1881, were applied to the districts of Darjeeling and Julpigoree in the Rajshahye Division, and to the districts of Lohardugga and Hazaribagh in the Chota Nagpore Division, respectively. The season during which these rules will hold good will be from the 1st January to the 1st June in each year.

1. Any person living in the vicinity of a Government Forest Reserve, or occupying or using land in such vicinity, and desirous of clearing by fire any standing forest or grass land near that reserve in a locality from which such fire would be likely to endanger the reserve, shall observe the following rules:—

- (1)—He shall give notice of at least one week to the nearest Forest Officer, Ranger, or Forester of his intention.
- (2)—He shall clear a belt of land, at least 20 feet broad, on the side of the land he proposes to burn nearest to the forest reserve.
- (3)—He shall choose for such burning a day or time when a high wind is not blowing.
- (4)—He shall light the fire in a direction contrary to the prevailing wind.

2. Any such person desirous of burning, on land adjoining a forest reserve, wood, grass, or weeds or other cut material, shall collect that material into heaps, and burn it separately in such a way that the fire may not endanger the forest reserve.

3. Any person collecting inflammable forest produce, such as grass and bamboos, on land adjoining a forest reserve, and any holder of a permit to collect such materials from the forest reserve, shall stack the materials so collected in an open space as far removed as possible from the forest.

4. All persons travelling on roads passing through or along the boundary of a forest reserve shall camp only at such places as may be cleared and set apart for the purpose of camping-grounds by the Forest Officer, who shall yearly publish a list of such grounds in the vicinity of the reserve. Camping at other localities than those so set apart is forbidden; and all persons so camping shall light any fires they may make for cooking or other purposes in such a way as not to endanger the forest reserve or the buildings or property on the camping-ground, and they shall, besides, extinguish all such fires before leaving the camping-grounds.

5. The carriage of burning wood, firebrands, or torches, through or along the boundary of any reserved forest is prohibited.

These rules will hold good during the season in which fires may be expected to occur, viz. from the 1st January to the 1st June in each year.

AFRICA—EAST COAST.

RED SEA—COAST OF NUBIA.

Shoals in Northern approaches to Trinkitat Harbour.

WITH reference to Notice to Mariners No. 18 of 28th March 1885, issued by this Department, on the existence of certain shoals lying in the approach to Trinkitat (*Taring-hatah*) harbour from the Northward, Western shore of the Red Sea.

The following information, the result of an examination of the locality, has been received from Commander the Hon'ble F. C. Vereker, H.M.S. *Rambler*, through the British Admiralty, London:—

Sha'b-ul Shubuk—A reef extending 6 cables in a North and South direction, and $3\frac{1}{2}$ cables wide, having a small sand cay near the centre, forms the S. E. extreme of Sha'b-ul Shubuk; this reef is separated from the main reef by a passage two cables in width; it may be passed on the eastern side at a distance of about 3 cables.

Position of the small sand cay.—Latitude $18^{\circ} 44' 40''$ N., longitude $37^{\circ} 44' 45''$ E.

A shoal (*Rambler shoal*) extending 4 cables in a N. N. W. and S. S. E. direction, and 2 cables wide, with a least depth of 3 fathoms over coral, and $4\frac{1}{2}$ fathoms around, lies with the sand cay on the S. E. extreme of Sha'b-ul Shubuk, bearing N. 17° E., distant $1\frac{1}{4}$ miles.

A circular coral patch (*Fairway patch*) two cables in diameter, and a least depth of 4 fathoms, lies with the sand cay on the S. E. extreme of Sha'b-ul Shubuk, bearing N. 8° W., distant $2\frac{1}{4}$ miles.

Rās Makdah is marked by the most conspicuous of the low sand hills in the vicinity, a ridge 37 feet high. The point is low, with three small islets lying northward of it; shoal ground extends $\frac{3}{4}$ to $1\frac{1}{4}$ miles of shore. Mersa Makdah is the bight enclosed between the S. E. part of Sha'b-ul Shubuk and Rās Makdah. Anchorage in 8 to 9 fathoms, sand and mud can be found, under the lee of the reef, over the northern portion of the bight, but the southern part is blocked by the shoals extending $1\frac{1}{2}$ miles northward of Rās Makdah.

Trinkitat (Taring-hatah) harbour off the entrance is an extensive coral reef, named Kat' at Kennashah, which is steep-to and always visible. Between this reef and the harbour entrance is a shoal extending, within the 5 fathoms line, 2 cables in a North and South direction and $\frac{1}{4}$ of a cable in width with a least depth of 3 fathoms. The harbour lies 2 miles S. E. of Rās Makdah. The entrance is not easily distinguished from seaward, the coast being low and sandy. Shoal ground extends $1\frac{1}{2}$ cables S. E. of the north entrance point of the harbour and $3\frac{1}{2}$ cables northward of the south entrance point, narrowing the entrance within the 3 fathoms line to about half a cable. Two temporary beacons have been erected on the western shore of the harbour, which, kept in line bearing S. 55° W., lead in between the shoals with $2\frac{1}{2}$ feet least water. Should the beacons be down, a stranger should buoy the entrance before attempting to enter.

Outside the harbour there is good anchorage in 6 to 7 fathoms under shelter of Kat' at Kennashah.

In the vicinity of the harbour the coast is low and barren, consisting of sand hillocks with scattered scrub. A sandy plain, flooded at times, extends for a considerable distance inland.

The bearings are Magnetic.

NORTH KONKAN.

Shoal off Kumbharu Point.

THE British Admiralty, London, has notified that information has been received from the Superintendent, Marine Survey of India, of the existence of a shoal lying in the fairway of vessels navigating the coast of Kumbharu Point.

This danger (*Shah Jehan Shoal*) consists of two patches, having respectively $2\frac{1}{2}$ and $3\frac{1}{2}$ fathoms at low water spring tides, with a depth of $4\frac{1}{2}$ fathoms between them.

The shoalest patch extends half a mile in a N. W. by N. and S. E. by S. direction, with a breadth of 2 cables, and lies with the following bearings and distance:—

Rájpuri point	...	N. by E. $\frac{1}{2}$ E.
Kumbáru point	...	N. E. by E $\frac{1}{2}$ E., distance one mile.

The other portion of the shoal is a ridge lying about a third of a mile seaward, and is about a mile in length in a direction parallel to the shore.

Position.—Latitude $18^{\circ} 12' 35''$ N.; longitude $72^{\circ} 54' 0''$ E.

NOTE.—Vessels navigating in the vicinity should keep outside the 5 fathoms line.

The bearings are Magnetic.

CHARLES H. TAWNEY, *Offg. Director of Public Instruction.*

THE Calcutta Medical College Session 1884-85 will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

2. Ten (10) free presentations will then be awarded. These are given to students according to their relative position in the University B.A., B.L., and F.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as matriculated students of the College who has not previously passed the First Arts Examination of the Calcutta University, or some one of the preliminary Arts Examination of the United Kingdom recognized by the British General Medical Council.

4. All matriculated students of the College are required to pay Rs. 15 on entrance, Rs. 80 for the summer session on the 23rd June, and Rs. 80 for the winter session on 1st November of each year.

5. Students who have failed to pass their final examination and who, under the regulations of the University, are required to attend a further course of lectures and of hospital practice before being allowed to present themselves again for examination, will pay for such further course an annual fee of Rs. 45 in two instalments of Rs. 30 and Rs. 15, payable at the beginning of the summer and winter sessions respectively.

6. Any matriculated student of the College may, with the permission of the Principal and the Professors of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and he shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he has really studied the subject. The fees payable in advance for such additional courses are the following:—

Ra.

For a single course of lectures on each subject ... 40

For six months' attendance in each department of hospital practice ... 60

7. Any matriculated student who leaves the College before completing his University course with the object of continuing his studies at a Medical School in Europe may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

8. Any person not being a matriculated student of the College who may be desirous of attending any course of lectures or any department of hospital practice may do so with the permission of the Principal and Professor of the subject; on payment, in advance, of fees at the rates fixed in rule 6.

If such student has passed the Entrance Examination of the University, he may receive certificates of attendance at lectures, provided the Professors are satisfied that he has attended the full course of lectures, and has mastered the subjects taught.

A student who has not passed the Entrance Examination will be entitled to no certificates of any kind.

9. College scholarships, prizes, and certificates of Honour are open for competition only to matriculated students of the College Hospital apprentice class and Female Certificate class.

10. No fees are payable by the holders of the Calcutta Medical College scholarships.

The holders of the Doorga Charan Laha and all other scholarships will be required to pay fees as a matriculated student. These scholars may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

11. Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognised Medical School in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligent prosecution of his studies.

12. The offices of class assistant, clinical clerk, dressers, &c., can be held only by students whose names are on the rolls of the College.

DISTRICT ROAD FUND.

NOTIFICATION No. 241.

The 13th June 1885.

The following Annual Accounts and Reports of the Road Cess Committees of the districts of Hazaribagh, Lohardugga, Maubhoom and Singhbhum, for the cess year 1883-84, together with the remarks thereon of the Commissioner of Chota Nagpore, are published for general information.

G. F. E. S. NAILL, Major, M.S.C.,
Under-Secy. to the Govt. of Bengal, P. W. Dept.

No. 34D—R., dated Hazaribagh, the 2nd January 1885.

From—MAJOR E. G. LILLINGSTON, Chairman, District Road Cess Committee,
Hazaribagh,
To—The Commissioner of Chota Nagpore.

I HAVE the honour to submit the following report on the operations of the District Road Fund during the year ending 30th September 1884.

2. The number of meetings held by the Committee during the past cess year was three. There was a sufficient attendance at two of them to form a quorum. One meeting was adjourned as a sufficient number of members to form a quorum did not attend. The attendance of members during the year was irregular and cannot be said to have been satisfactory. Eight of the gentlemen have ceased to be members, they having failed without the permission of

the Committee, to attend six consecutive meetings. A revised list of members will shortly be submitted. The particulars regarding the meetings are furnished in the statement given on the margin.

3. A summary of the

District.	NUMBER OF MEMBERS FORMING THE COMMITTEE.		Number required to form a quorum.	Number of meetings held.	Meetings at which there was no quorum.	Average attendance of meetings.	Number of members who did not attend any meetings.	NUMBER OF MEMBERS WHO ATTENDED—								Percentage of average attendance to whole Committee.
	Non-official.	Official.						One meeting.		Two meetings.		Three meetings.		More than three meetings.		
								Non-official.	Official.	Non-official.	Official.	Non-official.	Official.	Non-official.	Official.	
Hazarebagh.	17	7	8	3	1	5.6	13	3	4	1	1	1	1	25.25

business transacted at the meetings is given below—

- (1.)—Preparation of the Budget-Estimate and determination of the rate of cess for 1884-85.
- (2.)—Audit of Annual Accounts and consideration of the Annual Report for 1883-84.
- (3.)—Passing of estimates of different works for 1884-85.
- (4.)—Distribution of village-road grants.

4. No change occurred in the offices of the Chairman and Vice-Chairman during the year under review.

5. *Branch Committee.*—There is only one Branch Committee in the District, namely at Giridi.

There were six meetings held during the year, and the attendance of the members is reported to have been good.

6. The Road Cess in the district was collected at the maximum rate.

The demand on account of cess on lands and mines during the year was Rs. 45,389 against Rs. 44,170 in the previous year. The increase is mainly due to new valuation of mines during the year, under section 79 of the Act.

7. The total amount recoverable during the year including the arrears of last year, was Rs. 46,663. Out of this amount Rs. 44,905 was collected, leaving an outstanding balance of Rs. 1,758 at close of the year. Besides the collections stated above Rs. 30 was collected as advance for the next year.

8. The out-standing balance at close of the year was much larger than that at the end of the previous year. This is principally due to high prices of food-grains throughout the year, in consequence of insufficient crop during the previous year. The general result of collections during the year was, however, fairly satisfactory, as the percentage of collections was above 96 per cent.

9. *Original works.*—The culverts sanctioned for the Hazaribagh and Chuttra road were all completed during the year. The metalling of the 3rd mile of this road has also been completed and a pucca well constructed on the 23rd mile at Lepo. The earth-work on the Burhee and Gawan road between Burhee and Domchauch, a distance of 25 miles was taken up in the middle of the year as a *quasi* relief work, and about one-fourth of the sanctioned quantity of work completed.

10. *Repairs.*—The existing metalled roads aggregating to about 37 miles are well fitted for wheeled traffic, and the fair-weather roads aggregating to about 260 miles have been maintained and are reported mostly to be open to wheeled traffic. Some of the roads in the Chuttra Division were lately inspected by me, but their present state did not seem to be very satisfactory.

11. It is desirable that the surfaces of the important fair-weather roads should be gravelled gradually as funds are available for the purpose, as gravelled surfaces stand wear and tear much better than kutchra ones, and their maintenance would, it is reported by the District Engineer, cost much less than the maintenance of ungravelled surfaces. The repairs of the Ittkori and Padma and the portion of the Gya and Deoghur Pilgrim road from the boundary of the District to Munjhueh and the village road from Jainungur to Murkutcho were taken up as relief works. The Government sanctioned a grant of Rs. 3,000 for these works; this sum was supplemented by transfer of Rs. 2,000 from the village road grants of the Giridi Sub-division.

12. *Village roads.*—Rupees 9,000 was provided in the budget for village roads during the year viz. Rs. 1,000 for original works and Rs. 8,000 for repairs, out of this amount Rs. 6,391 was expended, namely, Rs. 3,405 in the head-quarters sub-division, and Rs. 2,986 in the Giridi Sub-division; the works in the head quarters Sub-division were executed under the supervision of the District Engineer, and those in the Giridi Sub-division under the supervision of the Branch Committee. Rupees 2,000 out of the amount allotted for village roads in the sub-division was transferred by the Branch Committee for repairs of the portion of the pilgrim road alluded to in the preceding paragraph.

13. *Trees.*—No new trees were planted during the year; those planted on different roads during the previous years were maintained.

14. *Nursery gardens.*—A small nursery garden is kept up in the office compound only. It contains now only about a 100 mahogany seedlings.

15. *Staging Bungalows.*—The only staging bungalow under the Road-Cess Committee, viz. the Ramghur Dāk Bungalow, yielded a receipt of Rs. 182-8, the cost of its maintenance and repairs aggregated to Rs. 125-5.

16. The works were executed during the year through contractors. The District Engineer reports that want of good and active contractors in this district is much felt. The scarcity of labour is daily increasing. The able bodied men among the labourers are being removed to Assam and other places by the Emigration Agents. The few unskilled cultivators chiefly *Kameahs* left in the district, have to be depended on to do road works when they can conveniently spare time to do so, after finishing their cultivation. I propose to submit a special report on this, as it appears to me that a different arrangement as to the road cess year would be advantageous.

17. *Establishment.*—As before the duties of the Accountant are performed by the head clerk in the Collection Department, with the assistance of the Committee clerk.

18. Mr. A. H. Gantzer, District Engineer, has continued to give satisfaction to the Committee.

19. The establishments under the District Engineer are all reported to have worked well except the late sub-overseer at Giridi.

3. During the year under report, there were six meetings of the District Committee, of which five special and one ordinary, and one ordinary meeting was adjourned for want of quorum. The average attendance was seven against four of the previous years. It will be observed that the attendance of the official and non-official members of the District Committee during the year under report is satisfactory. Out of five official and thirteen non-official, two official and one non-official did not attend any meeting. All who attended showed great interest in the proceedings. Two of the members of the Committee at head-quarters undertook and supervised the repairs of some village roads. Regarding Palamow Branch Road Cess Committee, the Assistant Commissioner says nothing, but the figures show that the attendance of members was unsatisfactory.

4. The accounts of the year were duly examined and audited by a Sub-Committee, but occasionally it happened that the senior assistant was the only member present. The audit reports show that everything was found correct and that the cash-book balance agreed with that of the Treasury.

5. The increase in the amount of collection under the head of cess on lands is principally due to the realisation of arrears outstanding at the close of the preceding year and to interest on the same. The increase under the head fees, fines and forfeitures is due to the collection of penalties under section 18 of the Act to processes under certificate cases.

6. The cess was levied at the maximum rate. There was no difficulty in collecting it at head-quarters from the Chota Nagpur Estate, but some difficulty was felt in the realisation of cesses from the Tea planters. The rate which is levied under section 33 of the Act is in my opinion too high for this District where tea is not a flourishing industry and gardens are mostly worked at a loss. In the Palamow Sub-division the Assistant Commissioner says nothing on this point, but from what he told me himself, I have reason to believe that the payment is more punctually made than it used to be. This is due to the facilities afforded by the certificate procedure. The tenure-holders are beginning to see that the recovery by that means is so speedy and certain that it is better to pay up punctually.

7. The Road Cess is by no means unpopular in this district, as the people now understand well that the money is spent for their benefit.

8. *Original works.*—One permanent masonry bridge of one span of 30 feet, and one of one span of 25 feet, were completed during the year under report, and six brick masonry culverts were commenced and completed during the year; a portion of the Himi Diversion line has been finished with earthwork, turfing and temporary bridges, and materials were collected on the Baraspore, Karak and Pakaria bridges. In addition to the above, some expenditure was incurred in making surveys on the Rauchee and Lohardugga, Lohardugga and Chattras, boundary of head-quarters Sub-division to Daltongunge, Daltongunge and Mohanpurgunge, and Rauchee and Palkote roads.

9. *Plantation.*—The work of tree planting has been extended over five miles of roads. The total length planted out up to end of the year is 70 miles. The trees planted in previous years are thriving.

10. *Repairs.*—Five hundred and two miles of Roads have been thoroughly repaired, the works consisted of filling, cutting, levelling, dressing, sloping bank of streams, turfing slope, repairing and renewing temporary bridges from 3 to 50 feet span, and the fencing over 65 miles of roads has also been repaired.

11. *General remarks.*—Now that the Bengal and Nagpur Railway works have commenced, the question of feeder roads to the Railway will receive my consideration. This matter will form the subject of a separate report. During the year under report I have simply carried on the works which were projected by my predecessor, for both the District Engineer and myself were new to the district and unacquainted with its requirements. Having now inspected nearly all the works in hand, I hope in the course of the present year to be able with the assistance of the District Engineer to do some useful work in the matter of extending and improving the lines of communication throughout the District. Our funds are however quite inadequate to carry out many of the projects I have in view, and for the more important roads such as the road leading from Rauchee to the Railway station of Chaudil. I hope we may be able to secure some assistance from Provincial Funds.

One matter to which my attention was drawn during the past year was the insufficient check which we had over the contractors and sub-overseers. I have accordingly laid down rules for a more effectual check which had the approval of Superintending Engineer on his recent visit to this district.

12. *Village roads.*—The greater portion of the amount expended under this head was used for making hill roads passable, renewing gravells about eight village roads were maintained and three newly opened.

13. *Accounts.*—The monthly accounts of the Road Fund and of the District Engineer's office were examined by the Vice-Chairman alone, as it was invariably found difficult in procuring the attendance of two other members to examine the monthly accounts.

14. The local auditor inspected this and the District Engineer's office on the 15th September 1884.

15. The establishment required under the Road Cess Act are—

- (a) Establishment for collection of cess.
- (b) Committee's office establishment.
- (c) Engineering establishment.

16. The establishment for collection of revenue at head-quarters consists of one head clerk and accountant, one assistant clerk, one mohurir, and one peon. These officers also do the work connected with the Committee's office, for which in this District there is no separate establishment. The establishment under the Palamow Assistant Commissioner consists of one clerk, one mohurir.

The establishments have on the whole worked satisfactorily during the year. I would particularly mention Babu Nund Lal Chat'arjee, Accountant, who from his intimate knowledge of Public Works accounts and business habits has afforded me great assistance.

17. Mr. W. V. Naidu, continued to serve as District Engineer up to 8th April 1884. The Sub-overseer, Baboo Sarbeswar Singh was put in charge of the District Engineer's office, with an allowance of Rs. 93-5-4 per month, in addition to his permanent pay, and since then Baboo Jogindro Nath Ghose has been appointed as District Engineer, vide Bengal Government Public Works Department's letter No. 1750E., dated 21st May 1884, received with Commissioner's memorandum No. 57D.R., dated 31st May 1884; he took charge of his office from Sub-overseer Baboo Sarbeswar Singh on the 31st May 1884.

18. Shortly after I took charge of the district, Mr. Naidu was transferred, and therefore I had no personal knowledge of him on his work, but my predecessor held the highest opinion of him.

Baboo Jogindro Nath Ghose, our present District Engineer, has given me every satisfaction in the performance of his duties. He has a good knowledge of his work and works hard and conscientiously to get good work done, and to see that those under him work properly.

Three sub-overseers.
One clerk.
One peon.

19. The establishment noted in the margin, was employed under the District Engineer, and that of the Branch Committee.

Baboo Sarbeshwar Singh, Sub-overseer, joined the district on the 7th April 1884, and was confirmed in the appointment on the 15th July 1884. His conduct has been far from satisfactory, and I have grave doubts as to his honesty and sobriety. I am keeping a close supervision over him, and if he continues to give trouble, his conduct will be brought to the notice of the Committee.

Sarafat Ali, Sub-overseer, has not given me any cause for complaint. I have not seen much of him, but the Chairman of the Branch Committee speaks well of him. Baboo Aroon Chandra Dutt, Sub-overseer, has been employed under the Branch Committee. The District Engineer, and Chairman of the Branch Committee, both state that he has worked well and intelligently.

20. The roads and bridges and culverts mentioned in the budget estimate for 1884-85 (sanctioned by Government), are the works proposed to be taken in hands during the ensuing year 1884-85.

21. The works have all been executed by contract during the year under report, and the small sums advanced to the contractors have been adjusted within the year, except in a few disputed cases.

Annual Report of the District Road Cess Committee of Manbhoon for the cess year 1883-84.

1. *Working of the Act.*—The total demand on account of the year 1883-84 for road cess was Rs. 81,359, the amount of arrears outstanding from the previous year was Rs. 1,774; the gross total demand being thus Rs. 83,133. The whole of this amount with the exception of Rs. 2,295 was realized within the year, together with Rs. 37 on account of future quarters, and Rs. 37 remitted by order of the Board of Revenue. The demand on account of interest for the year was Rs. 283-8-0, the arrears outstanding under this head from last year, amounted to Rs. 5, the whole of these amounts, with the exception of Rs. 16, were realized, and Rs. 3-8 remitted during the year.

The revision of the last revaluation is still in progress.

2. *The Working of the Committee.*—A meeting was convened regularly every month, and there was no meeting without a quorum. The usual abstract giving details of the attendance of members is furnished in appendix A.

The following is a summary of the work done by the Committee:—

- (1).—Revising the budget estimate of receipts and expenditure for the cess year 1883-84, owing to inaccurate revaluation rates having been made and collected in 1882-83. The same being submitted to the Commissioner of the Division for sanction, after providing for the revision of the revaluation, and for reduction of expenditure.
- (2).—Recommending the reappointment of Dr. H. W. Hill, Civil Surgeon of Manbhoon, as Vice-Chairman, under section 129 of the Bengal Cess Act (IX of 1880).
- (3).—Passing on estimate of cost amounting to Rs. 700 already provided for in the budget, for cost of looking after the existing trees on the station roads, and completing and maintaining during the current year the nursery at Purulia.
- (4).—Passing of the Annual Accounts and Report for cess year 1882-83, and nominating members to fill up existing vacancies in the Committee.
- (5).—Discussion over District Engineer's letter No. 17, dated 12th February 1884, on the subject of the proposed increase to his salary, already being provided for in the budget, but disallowed by Government on account of percentage cost of establishment, and authorizing Chairman to take necessary steps in the matter.
- (6).—Passing a supplementary estimate amounting to Rs. 134 for repairing one of the Inspection Bungalows damaged by a late heavy gale.
- (7).—Discussion over Commissioner's letter No. 54 R.O., dated 26th May last, covering Board's No. 243A. of the 16th idem, on the subject of the services of the Deputy Collector in charge of the cess valuation operations of the Manbhoon district, not being placed at the entire disposal of the District Road Committee, to which Circular order No. 4 of August 1883 applies, his salary is consequently debitable to Government.
- (8).—Passing of the budget estimate of receipts and expenditure for cess year 1884-85, and discussion over the Examiner of Local Account's note, dated 24th June 1884, on the examination of the Committee's accounts made by the Local Auditors, &c.

3. *Branch Committees.*—None in this district; maintenance of village and other roads in the Govindpore Sub-division being under the management of the Sub-divisional Officer, who draws cheques against allotments made in the budget annually.

4. *Working establishment.*—No changes.

5. *Works done during the year.*—In appendix B will be found abstract of all works done during the year under report and their respective cost.

- (a).—*Sudder Sub-division.*—There was no provision made for original works; the works were chiefly restricted to the maintenance of the unfinished roads in the district. Portions of the Purulia-Bancoora, Purulia-Chyebassa, Raghunathpore-Baniganj, Raghunathpore-Bancoora, Jhapra-Govindpore and the Charrah branch roads, were improved by gravelling in muddy places. The roads from Purulia towards Koilapal via Burrabazar, from Raghunathpore towards Hazaribagh, from Purulia to Chhisa, and from Manbazar towards Bancoora were also taken up and generally repaired to make them fit for wheeled traffic. Some cheap stone culverts were constructed on most of them.
- (b).—*Village roads.*—Several of these were repaired and improved by constructing rough stone and wooden culverts, and a portion of the new line from Jargo to Tonang was constructed.
- (c).—The cart-serais constructed in previous years were kept in repair, and a new one was constructed at Doobra during the year under review.

- (d).—The Nursery started for young plants at Purulia during 1882-83, was maintained in good order. A large number of trees will be fit for transplanting during next rains. It was provided to sink a well within the nursery, but as in the course of excavation a thick stratum of hard rock was found, and as this was difficult to be removed before the late rains the completion of the well has been postponed. The amount provided in last year's Budget for this was thus saved. The work will be taken up during the current year.
- (e).—In the Govindpore Sub-division.—The existing roads were maintained in fair order, and the village roads from Govindpore to Nagarkiaree, and Rajgunj to Nowagarh *via* Katras were extended as far as funds permitted. These two lines will be completed this year.
- (f).—A very fair improvement was made in the road from Govindpore to Tundi, by completing the portion which runs across a very rugged country. For all practical purposes the line is now fit for cart-traffic, the whole length from Govindpore to Tundi.
- (g).—The serais in the Sub-division were maintained in decent order, and some of them were improved by regravelling compounds, &c.

Vice-Chairman

Explanatory Note.

The excess expenditure in repair works and in petty construction and repairs is simply nominal. The budget allotments are only for the year under report, whereas the expenditure includes payments made during the year on account of works done in the previous year.

2. There is only one instance, however, "Maintenance of the third and fourth sections of the Jhapra and Govindpore road," in which the difference is owing to the inclusion of sum of Rs. 950 which was paid within the year, being the amount subscribed by the District Road Cess Committee for the completion of the Govindpore "lake." There being no separate head under which the amount could be entered, and the embankment of the lake forming part of the road, the amount was entered along with the road maintenance.

3. The excess of Rs. 2-12-10 under head "Tools and plant" was on account of some petty local manufacture of kodalies in the Govindpore sub-division. This trifling excess, however, has been covered by savings in other heads.

4. The expenditure in excess under head of Stationery and Printing is owing to cost of printed forms for revision of late revaluation, which has been covered by saving from the pay of the Deputy Collector, which was provided for in the budget estimate.

H. W. HILL, Vice-Chairman,
District Road Cess Committee.

Form of Audit Certificate.

We hereby certify that the books and accounts specified below,* prescribed for the Road Cess Office and for the office of the District Engineer, are duly kept up, and that they have been posted for the year 1883-84, and they have been duly scrutinized by the Sub-Committee.

Also that the Treasury Officer's abstract of the account of the Committee for the year has been duly received and checked with the cash and pass books, and found to agree therewith.

That the vouchers for the payments of the year have been cancelled. That all necessary steps have been taken for the recovery or adjustment of outstanding advances, that none but duly sanctioned expenditure has been incurred, and that in the case of original works the register of monthly expenditure shows clearly the amount of sanctioned estimates, the grant for the year, and the expenditure on each work to end of the year, and generally that the work of the office has been performed with carefulness and regularity and with a due observance of the rules prescribed by Government.

Dated Chyebassa, the 28th December 1884.

From—N. E. L. GODARD, Esq., District Engineer, Singbhoom,
To—The Deputy Commissioner, Singbhoom.

With advertence to order of Government in the Public Works Department, I have the honour to report on work executed on the district roads during the cess year ended the 30th September 1884, with a brief sketch of what is proposed to be done during the cess year 1884-85, ending 30th September 1885.

No. 1, Midnapore road, 71 miles.—Substantial repairs have been executed to 10 miles of this line, and surface repairs to the remaining length. One timber platform culvert between mile 36-37 has been replaced by an arched masonry one, and four have been repaired; the one mile of kunkur metalling near the station has been removed and repaired according to requirements. During the cess year 1884-85 it is proposed to repair the line according to requirements, and the two timber platform bridges at Govindpur and Khakro, which could not be undertaken during 1883-84 for want of funds.

No. 2, Bairagora road, 21 miles.—Thorough repairs have been executed to three miles of this road, and the remaining length has been repaired according to requirements, together with three wooden culverts. During the cess year 1884-85 it is proposed to repair the line and culverts as required, and executed thorough repairs to four miles.

No. 3, Burakur road, 29 miles.—Substantial repairs have been executed to 14 miles of this line, and surface repairs to the remaining length: the two miles of kunkur metalling near the station have been renewed and repaired wherever necessary. During the cess year 1884-85 it is proposed to repair the line according to requirements, to arch the timber platform bridge at Tangrani, and metal two miles of road in sandy soil near the Baro river.

No. 4, Khursona road, 16 miles.—Thorough repairs have been executed to seven miles of this line, and petty repairs have been executed to the remaining length. One timber platform culvert has also been repaired. During the cess year 1884-85 it is proposed to repair the line according to requirements, together with the wooden culverts thereon.

No. 5, Bandgaon road, 44 miles.—Thorough repairs have been executed to six miles of this road, and surface repairs to the rest: the passes of Milepee and Noada have been repaired and improved: five wooden culverts have been renewed, and seven timber platforms repaired. During the cess year 1884-85 it is proposed to repair the line and staging bungalow at Bandgaon according to requirements.

No. 22, Chakulia road, 20 miles.—Thorough repairs have been executed to two miles of this line, and surface repairs to the remaining length. During the cess year 1884-85 it is proposed to execute repairs according to requirements and thoroughly repair two miles of road.

No. 23 Goodri road.—Thorough repairs have been executed to seven miles, and the remainder according to requirements. During the cess year 1884-85 it is proposed to execute surface repairs according to requirements, to renew two miles of road, and repair the wooden culverts wherever required.

Petty repairs have been executed to the roads noted below, and it is proposed to do the same during the cess year 1884-85.

No. 6, Gurjun road.—Eleven wooden culverts repaired.

No. 7, Jyutgurih road.—Five wooden culverts repaired.

No. 8, Bamanghatta.—Eleven cutcha rubble masonry culverts constructed.

Nos. 10 to 21, Villages roads.—Five wooden culverts repaired and two rubble ones constructed.

* Road Cess Office (1) Cash book, (2) cash abstract, (3) register of monthly receipts and expenditure, (4) account of deposits, (5) account of advances.

District Engineer's Office:—(1) Accounts, viz. (1) files of contract certificates; (2) files of bills for purchases or purchases list; (3) files of day books; (4) files of establishment bills; (5) files of acquittance rolls; (11) books, viz. (1) imprest cash book; (2) register of bills passed; (3) register of works and repairs; (4) Register of tools and plant.

The following roads were not repaired, as not urgent. During the cess year 1884-85 it is proposed to repair them according to requirements.

No. 9.—Seraikela-Chukerdhorpore road.

No. 24.—Kalkapore police station road.

No. 25.—Roboghat Road.

No. 26.—Obiru and Ghagri road.

Arboriculture.—1,432 mango and jack fruit seedlings were put down and fenced in, and 2,241 fences enclosing young plants were repaired on the Burrakur, Bandgaon, Midnapore and Jyutgurh roads. During the cess year 1884-85 it is proposed to extend operations on the Burrakur road, and replace those killed by heat and drought on the roads named.

Establishment.—The establishment consists of one permanent sub-overseer and a chaprasi; a temporary sub-overseer was engaged for one month during the year under review. During the cess year 1884-85 no temporary sub-overseer will be employed, unless for some particular purpose.

Dated Chyebassa, the 7th January 1885.

C. H. GARRETT, Major,
Deputy Commissioner of Singhbhum.

No. 13D.R., dated Ranchi, the 17th April 1885.

From—C. O. STEVENS, Esq., Offg. Commissioner of Chota Nagpore,
To—The Secretary to the Govt. of Bengal, Public Works Dept.

I HAVE the honour to forward, in original, the accounts and reports of the several District Road Committees in this division for the cess year 1883-84.

2. The dates on which the several reports and accounts reached my office are as follows:—

Hazaribagh ...	5th January 1885.	Manbhum ...	25th December 1884.
Lohardugga ...	8th March 1885.	Singbhum ..	20th January 1885.

3. It was necessary to return the accounts of the Singhbhum district for revision, and they were received back only on the 11th instant.

4. The Cess Act IX (B.C.) of 1880 was completely in force in three districts of this division, viz. Hazaribagh, Lohardugga, and Manbhum. It was introduced into pergunnah Dhalbhum, a portion of the district of Singhbhum, from the commencement of the past cess year.

5. The valuation operations in pergunnah Dhalbhum, in the Singhbhum district, have been reported as concluded, but the completion report has not yet been received in this office. A sum of Rs. 10,000 was assigned to this district under Government order No. 871T.—W., dated 15th May 1884, as grant-in-aid for the maintenance of the district roads.

6. In the other three districts the road cess was levied at the maximum rate during the year under report.

7. The subjoined statement shows the number of members constituting the Road Cess Committees in each district, and their attendance at the meetings of the Committees during the year under review.

District.	NUMBER OF MEMBERS FORMING COMMITTEE.		Number required to form a quorum.	Number of meetings held.	Number at which there was no quorum.	Average attendance at meetings.	Number of members who did not attend any meeting.	NUMBER OF MEMBERS WHO ATTENDED ONLY--												Percentage of average attendance to whole Committee.
	Official.	Non-official.						ONE MEETING.		TWO MEETINGS.		THREE MEETINGS.		FOUR MEETINGS.		FIVE MEETINGS.		SIX MEETINGS.		
								Official.	Non-official.	Official.	Non-official.	Official.	Non-official.	Official.	Non-official.	Official.	Non-official.	Official.	Non-official.	
Hazaribagh	2	17	3	3	1	3.0	13	3	4	1	1	1	1	1	1	1	1	1	33.33	
Lohardugga	3	15	3	3	1	3.4	8	1	2	1	1	1	1	1	1	1	1	1	33.33	
Palamow	3	12	3	3	1	3.4	8	1	2	1	1	1	1	1	1	1	1	1	33.33	
Manbhoom	3	11	3	3	1	3.4	8	1	2	1	1	1	1	1	1	1	1	1	33.33	
Singbhoom	3	11	3	3	1	3.4	8	1	2	1	1	1	1	1	1	1	1	1	33.33	
Not given in the district report.																				

8. In Hazaribagh the number of meetings was three. There was a sufficient attendance at only two of them to form a quorum, as the majority of the members attended no meeting at all. These facts appear to indicate that the committees generally do not take sufficient interest in their work. There is a branch committee in the district at Giridih. It held six meetings during the year under report. The attendance of its members is reported to have been good.

9. In Lohardugga there were six meetings during the year, and the average attendance of members was satisfactory, being seven against four of the previous year. All the members who attended the meetings are said to have shown great interest in the proceedings. Two members of the head-quarter's committee supervised village road works. Regarding the Palamow Branch Committee, the Assistant Commissioner says nothing, but the figures in the above statement show that the attendance of members was by no means all that could be desired.

10. In Manbhoom a meeting was convened regularly every month, and on every occasion there was a quorum. There is no branch committee in the Govindpora sub-division. The roads in that sub-division are supervised by the sub-divisional officer, and the payments to contractors are made by cheques drawn by him on the sub-treasury. This practice was objected to by the Examiner of Local Fund Accounts in his last inspection. A separate communication has been addressed to Government in the Financial Department containing proposals for the formation of a branch committee in the sub-division, but no orders have yet been received on the subject. In Singbhoom the committee held only two meetings. The average attendance at each was 8.5.

11. The statement below shows the arrear and current demands, as well as the percentage of collections on the current demand of the three cess-paying districts of this division during the year under review :—

DISTRICTS.	DEMANDS.		COLLECTIONS.		Total demands.	Total collections.	Percentage of collection on current demand.
	Arrear.	Current.	Arrear.	Current.			
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Hazaribagh	1,374	45,389	1,353	43,610	45,453	44,802	98.56
Lohardugga	1,321	51,449	1,321	50,908	52,470	52,124	99.32
Manbhoom	1,774	29,150	1,755	22,703	31,004	2,459	7.93
Total	4,469	1,25,988	4,429	1,17,221	1,29,337	1,21,404	94.0

It will be seen from the above statement that the total collections amounted to Rs. 1,21,404, or 94.0 per cent. on total demand (Rs. 1,29,337) against 98.6 per cent. of the previous year. The decrease is due to the short collections of current demand in Manbhoom, in which district the total percentage fell from 93.4 in the previous year to 81.7 in the year under report. In Hazaribagh and Lohardugga the collections exceeded 95 per cent. on the total demand.

12. The subjoined statement shows the percentage of the total cost of all establishments, including contingencies, on the total of the actual receipts of the District Road Fund in the cess districts of this division :—

DISTRICTS.	ACTUAL RECEIPTS OF THE YEAR.				Total cost of establishments, including contingencies.	Percentage cost of establishment on total demand.
	Cess on lands.	Cess on houses.	Miscellaneous receipts.	Total.		
	Rs.	Rs.	Rs.	Rs.	Rs.	
Hazaribagh	41,860	2,422	5,591	50,143	31,312	62.44
Lohardugga	52,018	2	3,545	55,565	15,217	27.37
Manbhoom	28,151	1,337	4,995	34,483	9,250	26.84

The above statement shows the percentage cost of all sorts of establishments on the total receipts. It was highest in Manbhoom. This is mainly attributed to the entertainment of a special establishment for revising revaluation assessments. In Hazaribagh and Lohardugga it was below the fixed percentage (25) allowed by law.

13. The following table shows the total funds at the disposal of the several District Road Committees, including the balance of the previous year, with the percentage cost of different establishments:—

DISTRICT.	Total income of the year.	Total cost of establishment.	Percentage of cost on income.	Total revenue under the Cess Act.	Cost of establishment and contingencies of office of collection.	Percentage.	Expenditure on work.	Cost of establishment on work.	Percentage cost of establishment on expenditure on work.
	Rs.	Rs.		Rs.	Rs.		Rs.	Rs.	
Hazaribagh ...	55,710	11,312	20.14	45,880	1,847	4.0	36,043	7,308	20.29
Lohardugga ...	78,440	12,297	15.72	51,190	3,611	7.1	40,618	7,631	18.81
Manbhoom ...	30,000	0,398	1.33	31,339	2,638	8.4	18,147	4,475	24.66
Singbhoom ...	18,500	1,810	9.7	12,332	1,516	12.29

The percentage of cost of all establishments on total income ranged from 25.11 in Manbhoom to 9.7 in Singbhoom, and that of cost of establishment of office of collections from 8.9 in Manbhoom to Hazaribagh. The percentage of establishment on works to expenditure thereon was from 24.66 in Manbhoom to 12.29 in Singbhoom. In all cases the highest rate of charges was in Manbhoom.

14. *Original works.*—In Hazaribagh the original works consisted of the completion of certain culverts and metalling of the third mile of the Hazaribagh and Chattra road, the construction of a pucca well at Lepo and of earthwork (partly finished) on the Burli and Gawan road, which was taken in hand as a quasi-relief work. The total allotment under the head of Original works in the budget estimate of this district was Rs. 9,200, but the total expenditure amounted to Rs. 10,925. The excess is due to the expenditure on the Hazaribagh-Chattra road having exceeded the original estimate.

15. In Lohardugga two permanent masonry bridges of 30 and 25 feet span respectively, and six brick masonry culverts were completed during the year under review. A portion of the Ilina diversion line has been finished with earthwork, turfling and temporary bridges, and materials were collected on the Bharatpore, Karak and Pokoria bridges. In addition to the above, some expenditure was incurred in making a survey of five roads. A sum of Rs. 14,419 was provided under this head in the budget estimate of this district, but only Rs. 8,686 was spent, the residue Rs. 5,733 having been transferred to the head of Repairs.

16. In Manbhoom no provision was made for original works during the year under report, but Rs. 381 was expended in constructing a well at the Kohu cart serai.

17. In Singbhoom a sum of Rs. 798 was spent in constructing one culvert of two feet span on the Midnapore road, and in metalling two miles of the Burrakur road.

18. *Repairs.*—In Hazaribagh the repairs of the Itkhori and Pudwa road, and the portion of the Gya-Deoghur pilgrim road from the boundary of the district to Manjhuah, and the village road from Jainuggur to Murkucha, were taken up as relief works, Government having sanctioned a grant of Rs. 3,000, which was supplemented by a transfer of Rs. 2,000 from the grant for village roads in the Giridih sub-division. Roads Nos. 1, 2, 4 to 11, 13, 20, 21, 23 to 27 were also maintained. The total budget allotment under this head, inclusive of tree-planting, inspection bungalows, and village roads was Rs. 25,573, of which Rs. 25,117 was expended. The Deputy Commissioner considers it desirable that the important fair-weather roads, which undergo considerable wear and tear, should be gravelled gradually as funds permitted, as this would eventually greatly diminish the cost of their maintenance.

19. In Lohardugga under this head about 502 miles of different roads have been thoroughly repaired. The work, as stated in the Deputy Commissioner's report, consisted of filling, cutting, levelling, dressing, sloping bank of streams, turfling slopes, repairing and renewing temporary bridges from 3 to 50 feet span, and repairing the fencing of over 65 miles of roads. A sum of Rs. 36,228 was originally provided under this head; but Rs. 5,733 was subsequently received by transfer from original work, and Rs. 600 from collection establishments. Of the total, Rs. 42,561, nearly the whole amount was spent.

20. In Manbhoom the works were chiefly restricted to the maintenance of unfinished roads in the district. A sum of Rs. 17,220 was allotted in the budget, but Rs. 17,764 was actually expended. The excess in the expenditure is said to be due to payments made during the past year on account of work done in the previous one.

21. In Singbhoom substantial and thorough repairs of 49 miles of different roads have been executed. Surface repairs have also been done according to requirements. One timber platform culvert has been replaced by one with an arch of masonry, and a number of wooden culverts have been renewed and repaired as found necessary. Under this head a sum of Rs. 6,980 was provided in the budget estimate, but Rs. 11,833 has been spent during the year under report. The Deputy Commissioner has been asked to report the

authority under which the actual expenditure in his district has been allowed to exceed the provision made in the sanctioned budget.

22. *Village roads*—The statement below shows the amount estimated and spent on village roads in the districts of this division during the year under review, together with the percentage of actual expenditure on total estimates, as well as on the total expenditure on all works.

DISTRICT		Estimated amount of expenditure on village roads.	Actual expenditure on village roads.	Total amount spent on all works.	Percentage of actual expenditure on total estimates.	Percentage of expenditure on village roads on total amount spent on all works.
		Rs.	Rs.	Rs.		
Hazaribagh	...	9,000	6,391	36,043	71.0	17.7
Lohardugga	...	2,980	3,809	50,618	127.8	7.3
Manbhoom	...	2,300	1,693	18,147	73.6	9.3
Singbhoom	...	510	150	12,332	21.4	1.2

23. Out of Rs. 9,000 provided in the budget estimate of the Hazaribagh district (for original works Rs. 1,000 and repairs Rs. 8,000), Rs. 6,391 was spent, viz. Rs. 3,405 in the head quarter's sub-division and Rs. 2,986 in the Giridih sub-division. The work in the former was supervised by the District Engineer, and in the latter by the Branch Committee. A sum of Rs. 2,000 was transferred from this head for the repair of a portion of the pilgrim road referred to in the concluding portion of paragraph 18.

24. A sum of Rs. 2,980 was provided in the Lohardugga budget under this head. Rs. 3,809 was spent in making hill roads passable, renewing gravel, and maintaining eight village roads. Three new village roads were also started.

25. In Manbhoom Rs. 2,300 was provided under this head, of which Rs. 1,693 was spent in repairing and improving village roads by constructing rough stone and wooden culverts. A portion of the new line from Jago to Torang was also constructed.

26. In Singbhoom, out of Rs. 510 provided in the budget, a sum of Rs. 150 was spent in the construction of two rubble stone culverts and in repairing five wooden culverts.

27. No trees were planted during the year in the Hazaribagh district: those planted on different lines during the previous years were maintained.

28. In the district of Lohardugga trees have been planted along five miles of road. The total length planted out up to the end of the year under report was 70 miles. The trees planted in previous years are all reported to be thriving.

29. In Manbhoom the nursery for young plants, established at Purulia in 1882-83, was maintained in good order. It is expected that a large number of trees will be fit for transplanting during the rains. The sinking of a well in the nursery was commenced in the last year, but the work had to be postponed on account of the rains. It will be again taken up during the current year.

30. In Singbhoom about 1,432 mango and jack fruit seedlings were planted and fenced in, and 2,241 fences, enclosing young plants, were repaired on the roadsides during the year under report.

31. All the establishments entertained in the districts of this division against the several heads, with a few exceptions, are reported to have worked well on the whole during the past year. The Chairman of the Lohardugga Committee notices with special commendation the work done by the present District Engineer, Baboo Jogendra Nath Ghosh, and Accountant, Baboo Nund Lal Chatterjee.

LAND SALE NOTICES.

NOTICE is hereby given, under section 6, Act XI of 1859, that the undermentioned estates, in the district of Naddea, will be put up to public and unreserved sale at the Collector's office of that district, on the 26th day of June 1885, for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue due on the 28th day of March 1885.

F. H. BARROW, Offg. Collector.

NOTICE is hereby given that the proprietary rights of Government, as specified in the conditions of sale below, to the undermentioned estate, situated in the district of Bhagulpore, will be put up to sale at the Sub-divisional Officer's office on Monday, the 29th June 1885, corresponding with 2nd Ashar 1292 Fual. The purchaser will be subject to the following conditions of sale—

Conditions of Sale.

- 1st. The estate to be sold revenue-free to the highest bidder above the upset price. The purchaser of this estate will be considered as a proprietor of this estate, and the entire proprietary rights of Government in such estate will be transferred to him.
- 2nd. The sale to be subject of existing tenures and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd. If the settlement of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If balance be not paid by the noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

RESOLUTION ON THE REPORT OF THE CHEMICAL EXAMINER FOR THE YEAR 1884.

MUNICIPAL DEPARTMENT.—MEDICAL.

Darjeeling, the 30th May 1885.

RESOLUTION.

READ—

A letter from the Surgeon-General, Bengal, No. 1979, dated 17th March 1885, forwarding the Report of the Chemical Examiner for the year 1884.

Read again—

The Report for 1883 and the Resolution recorded upon it.

This is the first annual report submitted in accordance with the recent orders of the Government of India for a complete calendar year. The report for last year embraced a period of nine months only, from 1st April to the 31st December.

2. The office of Chemical Examiner was held by Dr. C. J. H. Warden from 1st January to 6th May, and by Dr. L. A. Waddell from the 7th May to the close of the year. The report has been submitted by the last-named officer.

3. The number of analyses performed in the laboratory during the year is the largest on record, namely, 2,749 against 1,211 for the nine months of 1883, and 1,514, the average for the previous seven years. The following table shows the general nature of the work done during the year compared with that of the two years immediately preceding:—

In addition to the above, 25 special opinions were furnished to Government during the year on various technical matters.

4. In the foregoing table, the figures for 1883 do not admit of direct comparison with those for the other years, as the report for that year included the statistics for nine months only; a comparison may, however, fairly be made if the results be increased by one-third. The increase during the year 1884 under medico-legal analyses is chiefly noticeable under "substances suspected to be, or to contain, poison" and "articles tested for seminal stains." Among other analyses the examinations of opium, of spirit for deleterious adulterations, of salt, lime-juice, and of miscellaneous articles for the Dum-Dum Ammunition Factory, show the greatest increase.

5. During the year under report 217 specimens of human viscera were sent for examination, against 127 in 1883 and 210 during 1882-83. Of these, poison was detected in 83 cases, giving a percentage of 38.25 against 46.8 during the previous nine months of 1883, and 42.8 the average of the previous nine years. It is satisfactory to notice that only 15 autopsies were conducted by Civil Hospital Assistants (including two by compounders), giving a percentage of 6.9 of the whole number, against percentages of 14.9 during 1883 and 49 in 1882-83. Officers of this class do not possess the qualifications for conducting such important medico-legal examinations, which should never be trusted to them except in cases of absolute necessity. Of the 30 cases, which were sent for examination during the year, in which death was said to be due to natural causes, poison was detected in no less than 6. This illustrates the necessity which exists for referring to the Chemical Examiner in every case in which there is even the faintest doubt as to the cause of death.

6. Opium, arsenic, and aconite as usual occupy the highest places in the list of poisons employed in the destruction of human life. The following table shows the percentages of cases of poisoning by these drugs during the years 1875 to 1883:—

	1875-76.	1876-77.	1877-78.	1878-79.	1879-80.	1880-81.	1881-82.	1882-83.
Opium	55.8	61.4	64.9	61.8	46.9	59.8	57.9	57.1
Arsenic	25	20.1	25.8	29.0	32.6	18.4	21.5	20.0
Aconite	1.28	...	1.99	1.02	5.59	2.90	7.98	8.1
Other poison	12.92	6.5	16.01	12.08	15.91	8.01	13.08	11.4

7. Seven hundred and eighty-seven articles suspected to be, or to contain, poison were submitted for examination during the year. Out of these, 376 were found to contain poison, showing a percentage of 47·7 against 33·4 and 42 in the two preceding years. 137 animal viscera were sent for examination against 76 in the previous nine months, and 104 in 1882-83. Poison was detected in 93 cases, and in all these death was due to arsenic poisoning. The remarks made by Dr. Waddell, that the experience of several years conclusively show that the practice of *sui* poisoning is confined to districts in the Patna and Bhagulpore Divisions, will be communicated to the Inspector-General of Police and the Commissioners of Patna and Bhagulpore.

8. The Chemical Examiner again complains of the meagre nature of the reports which accompany viscera or suspected articles sent to him for examination. In four instances no information whatsoever was furnished as to the *post-mortem* appearances. In other respects, too, the rules prescribed for the transmission of viscera were disregarded. The attention of all Civil Surgeons should be invited to the matter.

9. The following remarks made by Dr. Waddell on poisoning by *nux vomica* (paragraph 27) are deserving of attention :—

There seems to be little doubt but that a considerable number of deaths are annually caused in Bengal through the carelessness of herbalists and others in substituting *nux vomica* bark for the bark of a non-poisonous medicinal tree. In the annual report of the Chemical Examiner's Department for 1882, reference was made to the death of a child through poisoning by strychnine in this way, a decoction of "*kuchela*" (*Strychnos nux vomica*) bark having been supplied and administered instead of a decoction of "*kurchi*" (*Wrightia anti-dysenterica*) bark, which had been ordered as a tonic and astringent.

One of the most remarkable features in the mortality returns of Calcutta is the enormously high death-rate from tetanus. During 1884, 1,204 deaths were registered under the heading of tetanus, and the mortality for 1884 in this respect was not unusually high. The large bulk of the cases which figure in the returns under this heading occur in children and infants; and such enormously high prevalence of tetanus has never been satisfactorily explained. As the symptoms of strychnia poisoning very closely simulate those of tetanus, it is worth considering whether or not many of these cases of alleged tetanus may not really be cases of strychnia poisoning, when it is remembered that the deadly *nux vomica* bark has been proved on several occasions to have been substituted for, or mixed with, the relatively harmless *kurchi* bark, and that this latter bark is extensively used by the people for infantile ailments.

This matter, which is of much importance in itself, is closely connected with the question of the restrictions to be imposed on the sale of poisonous drugs. This question has been more than once under the consideration of Government. It is beset with many difficulties. Poisonous substances exist in every hedge and garden throughout the country, and in the present state of society in Bengal it seems quite impossible that the sale of poisons generally can be effectually controlled. What is more important is to check the ignorant compounding of English drugs and medicines. With this object provision has been made in the Bengal Municipal Act, 1884, for the registration of shops for the sale of European drugs, and for the employment in them of dispensers duly certified as fit persons to be entrusted with such duties.

10. The enquiry that was commenced by Drs. Warden and Waddell as to the nature of the *abrus* poison was completed during the year. The results of the enquiry have been embodied in the form of a pamphlet entitled the "*non-bacillar theory of the abrus poison*," in which the essential *post-mortem* appearances have been recorded in detail with the object of facilitating the detection of death when caused by this poison. The proposal made by the Chemical Examiner that the medico-legal returns which were formerly submitted by medical officers, but have been discontinued since 1872, should be reintroduced, should receive the consideration of the Inspector-General of Civil Hospitals. Dr. Waddell very reasonably complains of the additional work thrown on his office in connection with spirit determinations (paragraph 57). His remarks on this point, and regarding the quality of the "*patent non-alcoholic lime-juice*" (paragraph 72, clause 2), will be communicated to the Financial and Marine Departments of Government for consideration. Sixty-seven samples of petroleum were examined during the year, and all of these, without a single exception, satisfied the standard laid down by the law. This

fact is instructive, as tending to indicate that the legal standard of 73° flashing point is not inconveniently high.

11. The acknowledgments of Government are due to Dr. Waddell for the full and interesting report he has submitted. The Lieutenant-Governor notices with satisfaction the high terms in which the Officiating Chemical Examiner speaks of the services of Baboo Tara Prossanna Roy, the Additional Chemical Examiner, and of Baboo Ram Chunder Dutta, the First Assistant to the Chemical Examiner.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Offg. Secretary to the Govt. of Bengal.

No. 1979, dated Calcutta, the 17th March 1885.

From—B. SIMPSON, Esq., M.D., Surgeon-General for Bengal,

To—The Secretary to the Government of Bengal, Municipal Dept.

I HAVE the honour to forward herewith the report of the Chemical Examiner for the calendar year 1884, written by Dr. L. A. Waddell, who officiated for Dr. Warden from 7th May to the close of the year. It is very full and exhaustive, and contains much matter of considerable interest.

2. The total number of analyses performed was 2,749, the largest on record. For nine months of 1883 the number was 1,211, the average for the previous seven years being 1,514. For the purposes of his report, Dr. Waddell divides the analytical work into four sections, viz.—

1. Medico-legal cases.
2. Potable waters.
3. Government Departmental stores.
4. Miscellaneous.

Of the first, 1,328 analyses were performed against 689 in nine months of 1883 and 1,192 in the previous year. Viscera were forwarded for examination in 217 cases of suspected human poisoning, and the decline in the number of these since 1880-81 seems to be sustained. Of this number the larger proportion were females in accordance with the experience of previous years. The Presidency, Dacca, Burdwan, and Patna Divisions contributed the largest number of cases in the order noted. It is worthy of remark that in none of the cases forwarded from the districts comprising the Bhagulpore Division was any poison found. Out of the total number (217) of viscera examined, 83, or a percentage of 38.25, were found to contain poison; 42.8 per cent. being the average of the preceding nine years. Only 6.9 per cent. of the *post-mortem* examinations were conducted by Hospital Assistants and compounders against 14.9 per cent. in 1883 and 4.9 per cent. in 1882-83. This result is considered by the Chemical Examiner to be highly satisfactory. He calls attention, however, to the increased number of instances in which no information whatever either as regards the result of the *post-mortem* examination or the name of the officer who performed it was given; four such cases occurred during the year against one in 1883. I have called for further information on this point, and will report the result in due course.

3. In the Government resolution on the report for 1883, paragraph 4, it is considered as somewhat curious that notwithstanding that a far larger proportion of the *post-mortem* examinations after which human viscera were sent to the Chemical Examiner for analysis were conducted by officers of high qualifications, there was no appreciable increase in the percentage of cases in which poison was found. Dr. Waddell has now attempted an explanation of this in paragraph 11 of his present report, which appears to me to be a probable one. In 1883, out of the cases forwarded for examination, death was attributed to natural causes in only one instance, and arsenic was detected. In 1884, out of 30 such cases, six were found to contain poison. The fact of its detection in so many of these shows the necessity for the medical officers forwarding the viscera to the Chemical Examiner in every case in which the faintest doubt or suspicion exists as to the real cause of death.

4. Dr. Waddell's remarks in paragraph 22 deserve consideration, and I agree with him in thinking it a matter for regret that the medico-legal returns formerly furnished by medical officers have been discontinued since 1872. His notes on the various poisons used to destroy human life, gathered from the records forwarded to his office, are all of considerable interest; but the attention of Government is more especially called to those under the head of *Nux vomica* towards the end of paragraph 27 of the report. The facts recorded by him fully justify the suggestion that many supposed deaths from tetanus amongst children may be really due to strychnia poisoning. Due enquiry on the part of medical attendants at the time of death would probably throw some light on this subject, and all supposed cases of idiopathic tetanus, in which kurchi bark had been administered, should under existing circumstances be considered as suspicious. In the case which occurred in May last, it seems at first sight inconceivable why a large quantity of a poisonous drug which was being sold under another name should have been returned to the vendor who appears to have escaped unpunished. If such procedure was in conformity with law, it is I think quite clear that the law should be amended.

5. The remarks in paragraph 41 under the heading Detection of criminal poisoning are important, and Dr. Waddell's suggestion should command the attention of all officers forwarding viscera for examination. At the same time, whilst pointing out the necessity for keeping in view the possible formation of "ptomanies" or cadaveric alkaloids generated during decomposition, which are said to give reaction identical with those of some vegetable alkaloids, it is satisfactory to observe that there has never hitherto been any suspicion that the chemical results which yielded the active principles of such poisons as aconite and datura, the ones in common use in Bengal, did not indicate the actual presence of these poisons; the physiological tests and the recognition of the microscopical and physical character of their tissues have left no room for doubt.

6. In paragraph 43 the unsatisfactory nature of the majority of the reports which accompany viscera or suspected substances is referred to, and the attention of Civil Surgeons will be again called to the subject; but in all such cases it would be well for the Chemical Examiner to bring the shortcomings of individual officers to the notice of this office as they occur, and not confine himself to a general condemnation in his annual report.

7. The remarks regarding restrictions on the sale of poisons, especially arsenic, deserve attention. Forty-six samples of potable water were examined against 44 in the nine months of 1883 and 77 in the previous year.

8. Section III, relating to Government stores and customs articles, contains matter of much interest. Dr. Waddell's remarks regarding the work thrown upon his office for spirit determinations deserve, I think, special attention, and his suggestions that such work should ordinarily be conducted by the Customs Department seem both practicable and reasonable.

9. The systematic investigation of indigenous vegetable poisons was continued during the year under review. Indian hemp was taken in hand, but the Department failed to isolate the active principle. The operations on the madar plant were, however, successful, and Dr. Waddell promises to submit separately a report on this substance.

ANNUAL REPORT ON THE POLICE ADMINISTRATION OF THE TOWN
OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1884.

RESOLUTION.

POLICE.

Dated Darjeeling, the 8th June 1885.

The Annual Report on the Police Administration of the Town of Calcutta and its Suburbs for the year 1884.

Read also—

The Annual Reports of the Chief Presidency Magistrate and the Presidency Magistrate of the Northern Division on the criminal administration of their Courts for the year 1884.

The Reports for the year 1883, and the orders of Government recorded thereon.

THE total number of cases, cognizable and non-cognizable, reported to have occurred in the Town and Suburbs of Calcutta during the year 1884 and four preceding years is shown in the following statement:—

		1880.	1881.	1882.	1883.	1884.
Cognizable ...	Penal Code ...	4,644	4,476	5,118	4,546	4,846
	Miscellaneous ...	14,330	16,602	12,962	22,090	16,010
Non-cognizable ...	Penal Code ...	7,698	8,880	9,344	11,523	12,498
	Miscellaneous ...	15,409	14,308	12,214	15,114	18,002
Total		42,161	47,272	39,638	53,173	51,356

The total increase in cognizable cases was 3,103; in non-cognizable cases 4,303. Of the former, only 94 cases represent the increase in the Suburbs. The increase in non-cognizable crime was entirely confined to the Town, there being a large decrease in the Suburbs in prosecutions under the Conservancy Act.

2. The number of persons arrested and summoned increased from 47,987 to 54,888. There were 47,391 persons convicted, being 6·34 per cent. of those arrested, against 40,363 persons, or 84·11 per cent. of those arrested in 1883. The general result was therefore better than in 1883; but the ratio of convictions for offences non-cognizable under the Indian Penal Code decreased from 79·88 to 75·96. There were convicted of cognizable offences in the Town 1,049 Hindus, 703 Musulmans, 148 Christians, seven Buddhists and Jains, and three Jews; and in the Suburbs 333 Hindus, 444 Musulmans, and two Christians. The percentage of convictions in proportion to population varied but slightly compared with previous years.

3. The decrease in the number of false cases compared with 1883 was 124, and the percentage decreased from 1·35 to ·91. As compared with the average of the past five years, the decrease amounts to 253 cases. Proceedings were taken in the town against 138 persons for bringing false charges. In five instances sentences of imprisonment were inflicted; in 106 fines were inflicted, compensation in 99 cases being awarded to the aggrieved persons. There were 121 false complaints, in which no charge was laid against any particular person. In the Suburbs 21 prosecutions for false charges were instituted, and in five cases the complainants were sentenced to imprisonment. The Lieutenant-Governor gathers from the Report that 159 prosecutions were instituted against persons laying 473 false charges in both town and suburbs. The satisfactory decrease in the percentage of false cases is attributed by the Commissioner of Police to the regular prosecution of all persons who have brought charges which they knew to be false. The adoption of this course has been for years past steadily insisted upon by Government, and the results of the past year show that it has been attended with a very considerable amount of success. The efforts to suppress this form of crime by prosecuting all persons who bring palpably false charges must on no account be relaxed. No charge under the Indian Penal Code of giving false evidence, or of making a false complaint or claim, appears to have been taken up by a Magistrate of

his own motion, all 58 of such charges being shown in the returns as instituted by complaint.

4. The value of the property stolen and recovered during the past three years is shown in the following comparative table:—

		CASES—		VALUE OF PROPERTY—		Percentage.
		In which property was stolen.	In which property was recovered.	Stolen.	Recovered.	
				Rs.	Rs.	
1882	Town	1,060	1,848	97,000	55,307	57.25
	Suburbs	425	815	15,500	6,682	43.17
	Total	1,485	2,663	1,12,500	61,989	54.21
1883	Town	1,700	1,148	1,34,710	70,714	52.20
	Suburbs	400	355	23,730	7,351	30.90
	Total	2,100	1,503	1,58,440	78,065	49.27
1884	Town	1,878	1,208	1,30,864	92,420	70.62
	Suburbs	514	171	21,320	12,602	58.75
	Total	2,392	1,379	1,52,184	1,05,022	69.00

The result here is creditable to the police. The percentage of property recovered, which was in 1882 only 49.81 per cent. of the property stolen, has of late years shown, on the whole, a steady tendency to improve; and the improvement is especially noticeable in the year under review. The Report does not show what part of the value recovered during the year was of property stolen in preceding years. This should be noticed in future reports.

5. *Cognizable crime in the Town.*—Offences against the State and public tranquillity reported true during 1884 decreased as compared with the figures of 1883 from 40 to 32; serious offences against the person from 269 to 223; serious offences against the person and against property or against property only increased from 131 to 162, the increase being chiefly in house breakings; minor offences against the person from 47 to 69; minor offences against property from 2,225 to 2,509; other and miscellaneous offences from 11,379 to 14,109. The fluctuations in offences against person and property were very slight. There were, as in the preceding year, six murders. In four of these cases the murdered persons were prostitutes. In a fifth case a labourer murdered his wife out of jealousy, and in a sixth there was a doubt whether the deceased had not committed suicide. There was one case of attempt at murder and four of culpable homicide. Cases of kidnapping decreased from 18 in 1882 and 15 in 1883 to nine, four of which were for the purpose of stealing ornaments from children. Cases of burglary and lurking house-trespass have shown a considerable increase in the last five years. In 1880 the number of true cases was 114, and property valued at Rs. 8,521 was stolen in their commission. In 1881 the number of burglaries rose to 160, and the value of the property stolen to Rs. 15,907. Although the number of cases detected, of convictions, and the percentage of property recovered seem to show that the police have been energetic in dealing with this class of offence, the increase in the offences plainly indicates that their efforts have not been effectual towards its repression. The attention of the Commissioner of Police should be specially directed to this object. The number of true cases of theft was 1,790; property valued at Rs. 1,14,771 was stolen, and property valued at Rs. 82,420 recovered. In 1883 there were 1,712 thefts: the value of the property stolen was Rs. 1,21,411 and of that recovered Rs. 65,928. There were 1,120 thefts from buildings, 325 thefts by servants, and 333 thefts from the person. The amount of property stolen by servants decreased from Rs. 58,152 to Rs. 35,399. The decrease is satisfactory, but so long as persons engage servants without enquiry as to their antecedents, or without even knowing where they come from, great difficulty will continue to be experienced by the police in the detection of thefts committed by them. Frauds, amounting to about Rs. 40,000 on the funds of the District Charitable Society, and amounting to nearly

Rs. 80,000 on the Boiler Commission Funds, were committed by the accountant of the two offices, Tulshee Das Nundee. The latter case is separately under the Lieutenant-Governor's consideration. The Accountant, who absconded as soon as detection became inevitable, has not up to the present time been arrested. The efforts to secure his apprehension should not be relaxed. If necessary, the Lieutenant-Governor would be prepared to sanction an increase to the reward offered for his capture and conviction. Owing to increased activity of the police reported cases of miscellaneous offences in the streets increased from 4,791 to 6,552. Reported offences under the Port Acts increased from 1,616 to 2,117. The increase was chiefly due to increase of prosecutions for carrying excess of passengers. There were 5,540 convictions for cruelty to animals, against 4,131 in 1883. Only 42 of the persons prosecuted were discharged. The good offices of the Society for Prevention of Cruelty to Animals are prominent in all these cases.

6. *Cognizable crime in the Suburbs.*—In true cognizable crime in the Suburbs, there were seven cases of offences against the State and public tranquillity, 98 serious offences against the person, 95 serious offences against person and property or against property only, 23 minor offences against the person, 706 minor offences against property, and 3,042 other and miscellaneous offences. The total number of cognizable offences was 2,971 against 2,857 in 1883. The fluctuations in the different classes of crime were but slightly marked. There were six murders reported. In one case the accused, a seaman, was acquitted as he had acted in self-defence. In a second case there was a doubt whether the injury inflicted was not accidental. Two of the murders were of women by their paramours; one of a boy for the ornaments on his person; one of a servant, probably committed by a fellow-servant. There were also three attempts at murder, and one case of culpable homicide.

The burglaries increased from 84 to 101; but the value of the property stolen decreased from Rs. 11,463 to Rs. 6,958, and the value recovered increased from Rs. 1,458 to Rs. 2,478. Thefts increased from 450 to 492, the value of the property stolen from Rs. 12,273 to Rs. 15,185, and of that recovered from Rs. 5,893 to Rs. 10,397. Of the thefts, 116 were committed by servants.

7. *Non-cognizable crime in the Town.*—Non-cognizable crime in the town increased from 20,871 to 27,755 cases. In 1882 the number was only 18,716. The increase was chiefly due to an increase of 5,752 cases of prosecutions under the Conservancy Act. Cases of affray increased from 111 to 317. Offences of public and local nuisances are shown as numbering 6,469. The Commissioner of Police states that arrests under the heads of Affray, Public nuisances, and Assaults committed in view of the police were, in fact, made by the police *suo motu*. The question of extending the powers of the Police of Calcutta, so as to enable them to arrest drunken and riotous persons, and persons who offend decency by committing nuisance in the public streets is now before Government. Until a decision is arrived at the Commissioner of Police should be careful that his subordinates do not exceed their legal powers, or their action may render them liable for damages in the Civil Courts. Several trials of public interest occurred during the year. In 1876 a series of frauds was committed by fraudulent personation of holders of Government promissory notes. During the year under review one of the chief agents in these frauds was convicted and sentenced to five years' rigorous imprisonment. It is not satisfactory to find that these frauds were practicable only because Government servants connived at their commission. A native of Dacca, who in 1883 had obtained Rs. 8,000 from the Banking Corporation, Calcutta, on two forged bills-of-lading of the Eastern Bengal Railway, was convicted and sentenced to eight years' rigorous imprisonment. A native endeavoured to pass off as Government currency notes the impressions of bank-notes on cotton-print handkerchiefs of European manufacture. No offence, however, was proved, and the accused was discharged. In paragraph 10 of the Resolution on the Report for 1883 it was directed that proceedings under Chapters VIII, X, XI, XII, XXXV and XXXVI, Criminal Procedure Code, should be shown in class VI, heading 29. Only offences under Chapters VIII and XXXVI, Criminal Procedure Code, have however been shown. The orders indicated should be carried out in future reports.

8. *Non-cognizable crime in the Suburbs.*—Non-cognizable offences in the Suburbs decreased from 5,766 to 3,185. Minor offences against the person fell from 1,295 to 1,197; offences under the Conservancy Act from 3,117 to 844, and there were small decreases under minor heads. No explanation has been given of the very large decrease in conservancy cases. Minor offences against property increased from 69 to 86. Extensive frauds were discovered in the Land Acquisition Department at Alipore. Two clerks, who were implicated in these frauds, have since the close of the year been convicted and sentenced to six years' rigorous imprisonment.

9. The number of suicides reported was 51 against 60 in 1883. In 22 cases death was caused by hanging; in 21 by means of opium. The Coroner held 196 inquests. These are held only when doubt exists as to the cause or manner of death. Accidental deaths numbered 171 against 188 in 1883. Thirty-six were caused by street vehicles. Prosecutions for negligence were instituted in six cases. Four of the prosecutions were against drivers of tramcars, but there was no conviction. Eighteen servants of the Tramway Company were prosecuted for rash driving, but there were only five convictions. In street accidents 30 persons received fatal and 339 persons minor injuries. On the river 93 accidental deaths occurred, 58 of which were by drowning.

10. The following statement shows the quantity of arms and ammunition imported through the Port of Calcutta during the past five years:—

YEAR.	Rifles.	Guns.	Pistols and revolvers.	Gunpowder.	Percussion caps.
	No.	No.	No.	lb.	No.
1880	116	115	376	41,200	11,881,000
1881	99	100	252	81,024	10,320,800
1882	21	100	279	84,090	29,065,250
1883	218	224	177	64,676	16,017,000
1884	205	420	352	87,820	21,211,500

The increase in this business is ascribed to the opening of new shops during the Exhibition, and as the inland transport of arms and ammunition varied but slightly in comparison with the preceding year, the explanation given is probably correct. The retail sales of guns in Calcutta increased from 164 to 845. It is stated that the greater portion of the trade was carried on, not in imported guns, but in guns of native manufacture from Monghyr. In the year under review, 1,088 guns were supplied from Monghyr, the wholesale price being Rs. 8 for a single and Rs. 16 for a double-barrelled gun. They do not carry bullets, but are used by *shikaries* for shooting birds and by cultivators for protecting crops.

11. Thirty-one persons were admitted into the work-house under the Vagrancy Act, and there were 14 in the work-house at the beginning of the year. Of these, 26 were declared vagrants by the Presidency Magistrate, and five were sent from the mofussil. Twenty-five of the vagrants were discharged on obtaining employment, and 11 were released, and two deported. The total cost incurred in working the Act was Rs. 3,376. Mr. McGuire, who has been the Governor of the work-house from its establishment, is reported to have managed it with great tact and success. It is mainly due to his exertions that so large a proportion of the declared vagrants obtained employment.

12. Nine fires occurred in the Town and on the river, 18 in the Suburbs, and 13 in Howrah. Property was destroyed to the value of Rs. 5,60,348. In February 1884 the *Aurora*, an American ship of 1,800 tons, moored near the bank of the river at Matiabrooj, and containing some 27,000 cases of kerosine oil, was totally destroyed by fire. There was a full enquiry into the case, but the origin of the fire was not discovered. The shipping in the port was for some time in great danger owing to the burning fragments of the wreck and to ignited oil floating on the surface of the water. In the town a large fire broke out in December at Posta Bazar, and property valued at 1½ lakhs was destroyed. In Howrah five large brick godowns filled with jute, valued at about Rs. 1,15,000, were consumed. There was no loss of human life at any of the fires. The Fire-Brigade rendered assistance at 40 fires, three of which occurred in jute warehouses. Telephonic communications

are now established between the central office of the Fire-Brigade and different parts of the town. The Commissioner of Police notices that the cost of the Fire-Brigade is met entirely from fees raised under the Jute Warehouse Act, supplemented by trifling miscellaneous receipts, and states that it is a question for Government to consider whether the present arrangement is fair to the owners of jute warehouses. A separate communication should be made to Government on this subject.

13. The total cost of the police in the town increased from Rs. 4,16,665 to Rs. 4,28,783, of which Rs. 2,77,341 were paid by the Municipality, Rs. 92,446 by Government, and Rs. 58,996 resulted from fees and fines. The appointment of four additional European constables was sanctioned at the close of the year for the purpose of keeping order in the neighbourhood of certain hotels, and one European Sergeant and eight European constables were appointed in November for duty during the cold season. The appointment of an Assistant to the Deputy Commissioner of Police has been sanctioned from August 1884 up to 31st December 1885 at the entire cost of Government. The cost of the police in the Suburbs increased from Rs. 1,48,558 to Rs. 1,52,340. As no alteration was made in the strength of the Suburban Police, the increased cost, in the absence of explanation, is not understood. The reason of the larger expenditure should be stated. The cost of the River Police was Rs. 30,394, of the Government Guards Rs. 47,777, and of additional constables Rs. 29,389. Fuller explanation should be given by the Commissioner of Police of increase or decrease of cost of these bodies. The reorganization of the Calcutta Police Force is at present under the consideration of the Lieutenant-Governor.

14. Of the police, 228 were Bengalis and 1,898 were up countrymen. The number of Bengali officers was, as in the preceding year, 82, but the number of Bengalis serving as constables decreased from 148 to 141. The unwillingness of Bengalis to serve in the police, on account of their dislike of its duties and discipline, has been repeatedly noticed in reviewing police administration. The total casualties in a police force of 100 Europeans and East Indians and 2,935 natives amounted to 525, or 17.29 per cent. Of these 103 were pensioned or discharged on gratuity, 201 resigned, 114 were dismissed, 57 were discharged, 24 deserted, and 26 died. The mortality decreased from 9.10 to 8.56 per mille. This did not, however, represent the true mortality of the force, as only the deaths in hospital are given. The number of judicial punishments of police decreased from 38 to 25. Of these 25 men, one was executed for murder and six were convicted of theft or receiving stolen property with guilty knowledge. The Commissioner notices that no European officer was convicted of any offence during the year. The difficulty in obtaining efficient recruits locally appears to increase every year.

15. The Lieutenant-Governor is glad to observe that the very important subject of the proper registration and surveillance of habitual criminals has received the special attention of the Commissioner of Police. At the close of 1883 the names of 2,237 convicted offenders were borne on the thana registers. At the close of 1884 the registers were examined and revised, and the names of persons requiring strict surveillance were reduced to 566. It is obvious that supervision can be more thoroughly exercised, and with better result in checking crime, if those persons only are kept under police surveillance who are believed to live by crime. To burden the register with the names of a number of persons, merely because they have once been convicted, is not only useless, but mischievous, in that it imposes considerable unnecessary labour upon an overtasked police force. Photographs were taken of 173 notorious offenders, and previous convictions were proved against 256 convicted persons. In 1883 photographs were taken of 62 criminals, and previous convictions were proved against 231 convicts.

16. With regard to adjournments of police cases in the Presidency Courts, the Commissioner of Police remarks:—"During the past year the number of Penal Code cases which were not disposed of at the first hearing was 501. Of these cases, 293 were adjourned once; twice, 100 cases; three times, 48 cases; four times, 29 cases; five times, 17 cases; more than five times, 14 cases. Adjournments are often unavoidable for various causes; but in a large number of adjourned cases witnesses produced by the prosecution at the first hearing of the case were required to appear several times before their depositions were recorded, and ordinarily such cases, even though ready at the time of adjournment for further hearing, were not heard at the

next sitting of the Court, but after an interval of several days. If adjournments were less frequent, and the intervals between the hearings were shorter, the business of the Presidency Courts would be conducted with far less inconvenience to the public and the police." The annoyance and expense entailed upon witnesses by being kept hanging about the courts for days before they can obtain their discharge is to them a very serious matter, and the Lieutenant-Governor does not feel sure that the long list of adjournments above given can have been necessary. The Chief Presidency Magistrate will be requested to give his attention to the subject. A closer supervision over the Presidency Courts should tend to reduce the inconvenience noticed.

17. In the Court of the Chief Presidency Magistrate the total number of cases instituted increased from 12,124 to 13,635; of persons concerned from 15,814 to 18,193. Of persons concerned 1,712 were acquitted or discharged, 16,415 convicted, 32 committed to the High Court for trial, 30 under trial at the close of the year, and four were transferred. Sentences of flogging were carried out against 33 persons, 20 stripes being the largest number inflicted in any case. The total amount of fines imposed was Rs. 33,195, of which Rs. 30,107 were realized. In 1883 the corresponding figures were Rs. 33,312 and Rs. 29,713 respectively.

18. Benches of Honorary Magistrates sat regularly three times a week for the trial of criminal cases, and special benches also sat as occasion required. A Court presided over by a Justice of the Peace was held three times a week for the disposal of municipal cases. The Chief Presidency Magistrate states that the working of the Benches has, on the whole, been satisfactory, and that he has always found the Honorary Magistrates most willing to assist in lightening the files. He complains, however, of the irregularity and lateness of attendance of some Honorary Magistrates. The Lieutenant-Governor had to notice this subject last year, and regrets that, after what was then said, he should be compelled again to advert to it. Sir Rivers Thompson believes that the only remedy, where Honorary Magistrates are so little interested in their duties as not to attend a single Bench sitting throughout the year, is to ask them to resign. This may be done in the case of the nineteen Honorary Magistrates who during 1884 were never once present. It is satisfactory to find that a considerable number of the Honorary Magistrates are reported to have given their services frequently at much inconvenience to themselves, and the Lieutenant-Governor hopes that the good example they set will in future be more generally followed by their colleagues. The Chief Presidency Magistrate notices the increase of municipal prosecutions under license and conservancy heads from 10,841 in 1883 to 16,534. He attributes this increase to delay and want of care in instituting prosecutions and to the inadequateness of the fines inflicted. He also points out that in a large proportion of the cases an *ex parte* conviction is given, and on distress warrants issuing the police frequently report that no trace of the accused can be found. A copy of his remarks will be sent to the Chairman of the Corporation of the Town of Calcutta for necessary action.

19. In the Northern Division the total number of cases instituted increased from 8,750 to 12,002. Of 16,589 persons who appeared before the Magistrates, 1,067 were acquitted or discharged, 15,477 were convicted, 23 were committed to the sessions for trial, 11 were pending trial at the end of the year, and one was transferred. The increase was chiefly in cases of theft, offences under the Hackney Carriage Act, miscellaneous street offences, offences under the Port Acts, and Cruelty to Animals Act. Sentences of whipping were passed on 39 persons. The amount of fines realized was Rs. 21,942 and of fees Rs. 3,810.

20. Subordinate establishments are reported to have worked well. Baboo Sreenath Pal, the Superintendent of the Police at Chitpore, received a gold watch as a reward for special services. The names of those officers who have been favourably mentioned have been noted. The Lieutenant-Governor has to acknowledge the good services rendered by the Commissioner and Deputy Commissioner of Police, and the Presidency Magistrates.

RESOLUTION ON THE ANNUAL REPORT OF THE HEALTH OFFICER OF THE PORT OF CALCUTTA FOR 1884.

GENERAL DEPARTMENT—MARINE.

Darjeeling, the 8th June 1885.

READ—

A letter, No. 1227R., dated 26th February 1885, from the Sanitary Commissioner, for Bengal, submitting the Report of the Health Officer of the Port of Calcutta for 1884.

THE Report is submitted by Dr. Lidderdale, who has recorded his remarks thereon in compliance with the wish expressed in the Government Resolution on last year's report.

2. Dr. Lynch, who was Health Officer of the Port throughout the year, inspected the ships in Port, while boats were inspected by the Native Sanitary Inspector. Dr. Lynch explains that the Inspector's duties are primarily to inquire into the sanitary condition of the native boats and their crews, and to procure the removal of the sick to the hospitals. More than 12,000 native boats were inspected, and in 289 cases the intervention of the police was required for enforcement of sanitary regulations. From the fact that admissions into hospital during 1884 were 301 as against 212 in the preceding year, Dr. Lynch infers that the boatmen are beginning to understand and value the visits of the Inspector. In addition to these duties, the Inspector is required, besides assisting the Health Officer, to inspect the river banks and latrines, and to report all nuisances. These duties seem to have been satisfactorily performed.

3. The total number of vessels, both in-coming and out-going, inspected during the year by Dr. Lynch fell from 1,464 in 1883 to 1,197 in 1884. The decrease, which has been chiefly in sailing ships, is ascribed to the smaller number of vessels which came to the Port owing to the depression in trade. More in-coming than out-going vessels were inspected, Dr. Lynch explaining that inspection is deemed more necessary, and is more rigorously observed in the case of the former than the latter.

4. The sanitary history of the year would have been favourable had not cholera been unusually prevalent, both in the town and in the Port, during the months of March, April, and May. Bowel-complaints were fewer than in 1883, while fevers were more numerous. Small-pox was prevalent, but occasioned no deaths. Cases of sunstroke were numerous, but only one case was fatal. No increase in venereal disease is stated to have followed the cessation of action under the Contagious Diseases Act. Twenty-four cases of scurvy were admitted into hospital, seventeen cases having occurred in vessels from New York. Dr. Lynch remarks that vessels from that port frequently bring scurvy, and that he has drawn the attention of the Shipping Master to the matter. Sir Rivers Thompson would be glad to know whether any action has been taken on the Health Officer's representations.

6. The principal diseases among European seamen, and the mortality from each during the past four years, is shown in the following statement:—

	1884.		1883.		1882.		1881.	
	Admissions.	Deaths.	Admissions.	Deaths.	Admissions.	Deaths.	Admissions.	Deaths.
Cholera	62	36	65	37	64	41	51	34
Dysentery	125	3	101	...	143	3	116	3
Dysentery	89	...	90	...	149	8	107	...
Fever, malarial	7	8	...	7	...
Do, infectious	134	...	127	...	251	3	180	...
Do, simple	207	...	115	...	199	...	197	...
Scurvy	24	1	15	...	28	...	20	1
Small-pox	7
Sunstroke	13	1
Other diseases	1,245	29	1,190	83	1,130	39	1,112	10
Total	2,168	76	1,948	81	2,557	94	1,799	65

The average daily population of European seamen in the port during the year is said to have been 1,684, and the deaths in hospital 76; the mortality therefore being 45.1 per thousand. The figures for the previous years were—1881, 48 per thousand; 1882, 51.8; and 1883, 43.5. The statistics seem

to be reliable for the hospital returns only, and conclusions based on them are only approximately correct for the mortality among European seamen of the Port. As regards native seamen, the statements appended to the Report show 197 deaths—62 in hospital and 135 afloat. The floating population being taken at 25,630, such figures import a death rate of 7.68 per thousand per annum, or six times less than the mortality among European seamen. It is true that the mortality among European seamen is, owing to frequent exposure and the irregular life they lead in port, higher than the mortality among the European troops quartered in Fort William, and also probably higher than the mortality among the native floating population: still, having regard to the fact that native boatmen do not usually use filtered water, the acceptance of such a death-rate among them as that mentioned above would indicate one of two conclusions—either the statistics are unreliable, or unfiltered Hooghly water is far less injurious to health than is commonly believed. Of the fatal diseases, cholera was the principal, and occasioned 138 deaths, of which 100 were on boardship. It is satisfactory to learn that the condition of the native boats appears to have improved. Among 12,622 boats inspected, only 289 were found in a filthy condition, while in 1883 the number was 542 out of 12,830 inspected. Out of four steamers which arrived during the year with pilgrims from Jeddah, three had small pox on board. New rules were issued during 1884 for the Red Sea pilgrim traffic, and in the case of one vessel, where the native doctor had been provided with and had acted up to them, the health was good; while in another, in which the rules were not observed, small-pox had broken out and had attacked the European crew.

9. The question of vaccination was brought into special notice in consequence of a representation made by the British India Steam Navigation Company, and an attempt was made to extend vaccination operations among lascar crews. There are difficulties, however, in the case, and it is stated that the Vaccination Act gives no assistance here in consequence of the terms of the notice; and as many vessels quitted the Port before the expiration of the 15 days' period allowed by the Act before vaccination could be compulsorily enforced, and as in other cases the crews went on leave, no great success was achieved. Apparently, too, the commanders of vessels do not readily co-operate with the medical authorities in the extension of vaccination among their crews. The Sanitary Commissioner should consider this matter in conjunction with the Health Officer, and should submit his recommendations for the Lieutenant Governor's consideration.

10. The number of native seamen leaving the Port, omitting those in small native craft, was 9,172. Complaints were few, and all related to diet. A compulsory daily scale of provisions was prescribed during the year under section 28 of Act V of 1883 by a notification, dated 8th August 1884 (amended since by a notification dated the 6th June 1885), and henceforward it may be hoped that complaints of this sort will cease.

11. The sanitary condition of the river banks has not been wholly satisfactory, and the attention of the Calcutta Municipality was drawn with regrettable frequency last year to the necessity of providing more latrine accommodation. The Sanitary Commissioner says:—"The Health Officer was obliged to call the attention of the Calcutta Sanitary authorities to the condition of the foreshore on no less than eight occasions, and once on the Howrah shore." During the year new sites for latrines are reported to have been selected by the Health Officer of the Town in communication with Dr. Lynch, but up to the end of the year no progress has been made in constructing latrines. The Lieutenant-Governor will direct the attention of the Chairman of the Municipal Commissioners to this point. The existing latrines appear to have been regularly inspected and kept in a clean state.

12. Dr. Lynch has continued to discharge the duties of Health Officer during the year with efficiency.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Government of Bengal.

**RESOLUTION ON THE ADMINISTRATION REPORTS OF THE
REFORMATORY SCHOOLS AT ALIPORE AND HAZARIBAGH FOR THE YEAR 1884.**

JAILS.

RESOLUTION.

Darjeeling, the 12th June 1885.

READ—

Letter No. 4077, dated the 30th April 1885, from the Inspector-General of Jails, forwarding the Reports of the Committee and Superintendent of the Reformatory School at Alipore for the year 1884.

Read also—

Letter dated the 23rd May 1885, from the Inspector-General of Jails, forwarding the Report of the Superintendent of the Reformatory School at Hazaribagh for the year 1884.

The Reports for the year 1883, and the orders of Government recorded thereon.

At the Alipore Reformatory School, the number of boys at the commencement of the year 1881 was 79. Fifty-three boys were admitted during the course of that year, of whom 28 were admitted direct from the Police Courts of Alipore, Calcutta, Sealdah, and Howrah, and 25 from mofussil districts, giving a total of 132. Of these, 20 were released on expiry of sentence, one on reaching the age of 18 years, three died, one escaped, and two were transferred to the school at Hazaribagh. At the close of the year there were 105 boys in confinement, of whom 58 were Hindus and 47 Mussulmans. It appears that there is accommodation in the school for 108 boys, but the Inspector-General of Jails rightly considers it advisable that there should be two or three unoccupied cells in case of outbreaks of sickness.

2. The discipline and general behaviour of the boys is reported to have been satisfactory. Although there was a considerable increase in the average number of inmates, the punishments decreased from 3.4 in 1883 to 3.3 per boy in the year under review. Seventy-five of the punishments inflicted were of canings and 131 of penal diet. The punishment of penal diet should be as sparingly used as may be possible consistently with discipline; as it is not one which is suitable for growing boys who do a good deal of work of one kind or another. The money earned by marks and extra work amounted to Rs. 142-15. One of the boys effected his escape from the outside garden, and was not recaptured. Two warders were on this account prosecuted and convicted.

3. The admissions into hospital increased from 126 to 193. In May 1884 there was an outbreak of cholera in the school, which lasted nine days. During this period there were in all seven cases, of which two ended fatally. All necessary arrangements were made to meet the outbreak, and the fact that only two deaths occurred is due to the unremitting care and attention devoted to the patients by the Native Doctor attached to the school, and the Assistant Surgeon who was sent to assist him. In September a third boy, admitted from Rungpore in a precarious state of health, died. The year otherwise was healthy.

4. The average cost of maintenance decreased from Rs. 163-12-1 to Rs. 140-9, chiefly owing to the average number of boys under confinement being larger. The total cost of maintenance increased from Rs. 12,282-14-3 to Rs. 13,213-9-3. The expenditure on clothing decreased from Rs. 495-14 to Rs. 200-2, and on construction and repairs from Rs. 505-5-3 to Rs. 483-4-3. On the other hand, the expenditure on contingencies increased from Rs. 641-6-0 to Rs. 775-9-3, on diet from Rs. 2,187-13-9 to Rs. 2,873-7-9, on hospital charges from Rs. 94-3-9 to Rs. 134-4, and on fixed establishment from Rs. 8,358-2-9 to Rs. 8,746-14. The increase in diet charges was due to the increase in the number of boys and to high prices of provisions; that in fixed establishment was due to the annual increase of the Superintendent's salary and to larger payments to trade instructors for more regular attendance.

5. The expenditure on the educational staff amounted, as in the previous year, to Rs. 1,951-4-6, of which Rs. 1,140 represent the salary of teachers and Rs. 811-4-6 that of trade instructors. Attendance at school was compulsory for one hour in the morning and optional for three evening hours. The school comprised two departments, Bengali and Hindi, and there was an advanced class of 18 boys who made good progress in English, Bengali, Hindi, and

Arithmetic. Of two deaf and dumb boys, one was able to write well, and express himself in Bengali by signs from the deaf and dumb alphabet. The trades carried on were the same as in the preceding year, viz, those of a gardener, blacksmith, book-binder, carpenter, tinsmith, and cane-worker. The value of the work turned out was Rs. 18,362-14-2. The net profit of the Manufactory Department increased from Rs. 10,896-8-5 in 1883 to Rs. 15,321-6-2.

6. Reports were received during the year regarding 64 released boys. Four were reported to have been reconvicted and sent to jail, one was sent back to the Reformatory School, 11 were reported as not bearing a good character, and 48 were said to be doing well and conducting themselves respectably.

7. The general result of the school management has been most satisfactory. The Lieutenant-Governor has had frequent occasion in previous Resolutions to notice with commendation the highly creditable manner in which the Superintendent, Mr Kirschner, performs his duties.

8. The report on the Hazaribagh Reformatory School has been written by the Superintendent. No remarks of the Committee of Visitors have been recorded. In future, the Superintendent should, before submitting his report to the Inspector-General of Jails, ascertain from the Committee whether they have any remarks to make upon it, and, if so, forward a copy of whatever they may record with his report.

9. At the beginning of the year 1884, there were 58 boys in the school. During the year there were 91 new admissions and 10 releases. The number at the close of the year was 139, of whom 17 were Mussulmans and 122 Hindus. There were only 118 cells in the school, but temporary accommodation for 48 boys were provided through division by canvas screens of the hospital rooms into cubicles. The general approval of Government has been given for the construction of 114 additional cells, but their immediate construction is delayed pending the provision of funds. The Inspector-General of Jails remarks: "I hope that, before the commencement of the rains, there will be 232 separate cubicles besides 48 temporary ones in the hospital. This will not, however, by any means admit of a full development of the reformatory system. The number of male convicts under the age of 16 admitted to jails in 1883 was 289, and in 1884, 362; and supposing that half of these ought to have been released with a whipping, there are grounds for expecting that not less than 160 boys ought to be sent to reformatory schools each year." On this subject the Inspector-General should submit a report containing information in some detail of the offences of which the boys imprisoned during the above two years were convicted. The reformatory schools are not intended for the confinement of all juvenile offenders, but for those who, there is reason to believe, would, if confined in jails, and released without any means of support, grow up to be criminals. It is unnecessary, therefore, to send to the reformatories boys convicted of offences not indicating depravity, or having relatives who are able and willing to attend to their proper training. Magistrates trying juvenile offenders should exercise their discretion in sending such offenders to the reformatories.

10. The number of boys punished or warned was 232; whippings were inflicted in 42, canings on the hand in 73 cases. Under the mark system a boy can earn one anna a week. Though allowed to spend half their earnings in sweets and other unprohibited luxuries, the boys, as a rule, deposit their money in the bank with a view of having the benefit of it on release. The earnings during the year amounted to Rs. 192-4.

11. The daily average of sick decreased from 1·47 to ·88. There were no deaths. The water-supply and sanitation were carefully attended to, and the boys are said much to improve in health after admission.

12. In the Resolution on the Report for 1883, the Lieutenant-Governor remarked that a system of five hours' school work and five hours' industrial labour each day would possibly admit of more relaxation. The Inspector-General accordingly has reduced the night school from three hours to two. In the Alipore School, however, the system, as already noticed, is that one hour's instruction should be compulsory and three optional. The systems of education in both schools should be assimilated as far as possible. More details should

for the future be given of the progress in education of the boys at the Hazaribagh Reformatory. The trades taught were those of a gardener, blacksmith, carpenter, cane-worker, tinsmith, and shoe-maker.

13. The expenditure increased from Rs. 8,797-5-3 to Rs. 11,930-2-3. The increase was consequent on the large number of new admissions, the cost per head, compared with 1883, having decreased from Rs. 181-1-8 to Rs. 146-5-10. The net profit from the manufacturing operations is estimated by the Inspector-General at Rs. 1,251.

14. The Superintendent observes: "On behalf of very young boys sent to the institution, I beg to suggest that convicting officers should be asked to sentence them to the full period of seven years' detention in the school, more especially when it is known that they have no parents or friends to look after them. Children of eight or nine years sent to the school learn very little during the first two or three years, and, if sentenced to three or four years only, they are released at the age of 12 or 13, before they can be even grounded in the rudiments of a trade. Boys cast on the world at this early age, probably without friends or any one to care for them, would, in many instances, have no alternative but to revert to their old evil habits." The attention of district officers will be drawn to this point. In the case of orphan children at least, the Reformatory offers the best prospect of a safe home.

15. Reports of Magistrates were received regarding six of the 11 boys released from Hazaribagh. Three were said to be leading honest lives, two could not be found, and one had relapsed into crime. The Inspector-General of Jails expresses an opinion that released youths are unnecessarily worried by injudicious action on the part of the police, who send for them to the police stations or make public inquiry about them in such a way as to impress on the neighbourhood the knowledge that the lads are objects of suspicion and have lost their characters. The objections to such enquiries made publicly are obvious. It will be sufficient that, for the future, a youth discharged from a reformatory be required by the Superintendent to report himself once every six months for three years after release to the officer in charge of the police station within the jurisdiction of which he lives. It will be understood that only on his failing to do so, or on suspicion arising as to his means of livelihood, will any local inquiry be made regarding him. The Superintendent should also, in making inquiries from Magistrates, request that care be taken to prosecute them without undue publicity or annoyance. There can be nothing more likely, in the Lieutenant-Governor's opinion, to drive a boy back to criminal ways than the fact that his neighbours are constantly reminded that he is a suspected character. All inquiry should cease after the expiration of three years from the date of release. The Lieutenant-Governor notices with satisfaction that the management of Mr. Hill, the Deputy Superintendent, is again favourably reported. The Inspector-General of Jails states that the Superintendent, Dr. Cobb, and the Committee of Visitors interested themselves for the well-being of the school.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 13th June 1885.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
<i>Western Districts.</i>			
SCANDY DIV.	1. Burdwan, June 13 '85	3.05	Weather—very hot. Rain has improved prospects of crops in the Sudder and Cutwa sub-divisions. Rice is selling at from 12 to 15½ seers per rupee. Fever and cholera in the Sudder sub-division.
	2. Bankura, " 13 "	1.15	Weather—exceedingly hot and cloudy. The rain that fell during the week has done incalculable good to the standing crops. Fresh sowings of <i>amra</i> paddy are going on briskly where the seedlings have been destroyed by the drought. Public health good. Prices of rice stationary.
	3. Beerbhoom, " 13 "	2.98	Weather—warm and cloudy. Seasonable rain has fallen towards the close of the week, and sowing of the rice crop will now be practicable. No material change in prices. Cholera unusually prevalent.
	4. Midnapore, " 13 "	0.75	Weather—cloudy. More or less rain throughout the district. Ploughing has been resumed. Public health generally good.
	5. Hooghly, " 13 "	0.05	Weather—hot and cloudy. More rain is badly wanted throughout the district. There are signs of the approach of the monsoon, but rain holds off. Public health good.
PRESIDENCY DIV.	6. 24-Pergha, June 15 '85	0.16*	Weather—very hot, though cloudy almost every evening. The late rain has done good to the <i>amra</i> crops; rain still very much wanted in every part of the district for the <i>amra</i> crop. Public health generally good.
	7. Nuddea, " 13 "	2.86	Weather—sultry and cloudy. The rainfall has done immense good to paddy and other standing crops.
	8. Khoulia, " 13 "	2.05	Weather—sultry; heavy rain on 12th. Prospects favorable; <i>amra</i> rice is coming in, ploughing and sowing going on well. Public health good.
	9. Jessore, " 13 "	4.67	Weather—hot; heavy showers of rain during the week. Prospects of paddy continue to be good. Deaths from fever are reported from Bongong sub-division.
	10. Moorsheebad, " 13 "	0.91	Weather—moist and hot. There has been rain throughout the district during the week and it has done much good, but more is wanted; if more rain falls the rest of the <i>amra</i> crop can still be sown. Rice selling at from 12 to 13½ seers per rupee. Public health good.
RAJSHAHY DIV.	11. Dinagore, June 12 '85	2.25	Reports of want of rain, and consequent suffering of crops and delay in agricultural operations, have been received from all sides; but since the reports were written there has been general and heavy rain. Average price of rice 14 seers per rupee.
	12. Rajshahy, " 13 "	3.64	Weather—cloudy and cool. The late rain has much improved the prospects of the standing crops; sowing of paddy is now being proceeded with vigorously, but more rain is of course wanted. Prices have slightly fallen since the late rain. Fever generally prevails; cholera is still reported, but it appears to be much on the decrease.
	13. Rangpur, " 13 "	12.41	Weather—cloudy with heavy continuous rain since Monday last, 8th. Prospects of <i>amra</i> and jute very promising; land is being ploughed for transplanting <i>amra</i> . Price of rice stationary. With the exception of a few sporadic cases of cholera in the interior, health of the district continues good.
	14. Bogra, " 13 "	7.19	Weather—the week has been wet and chilly. Prospects of <i>amra</i> good; jute thriving; ploughing going on for <i>amra</i> . Public health fairly good.
	15. Pabna, " 13 "	6.39	Weather—rainy. Everything favourable to the crops since the heavy seasonable rain.
	16. Darjeeling, " 13 "	5.71	Weather—general heavy rain. Prospects of crops very good. Two fatal cases of cholera at Billiguri.
	17. Jalpigore, " 13 "	18.78	Weather—cool; very heavy rain; very little sandhine during week. The rain is everywhere stated to have done good to crops; land is being got ready for <i>aimanti</i> crop. Some cholera reported from Bada and Patgram; cattle-disease prevalent in places.

	Fenny ..	4.90	
	24 Tipperah, " 11	5.63	Weather—cool with south-westerly winds and heavy rain. The rains have now set in, and the country is a sheet of water; much damage will be done to the young paddy should the downpours continue. Prices stationary. Cholera has made its appearance at Comillah, but generally public health has improved.
Chittagong Hill Tracts.	25 Chittagong Hill, " 9	1.39	Weather—very hot during the first part of the week. The falls of rain on the 7th and 9th have lowered the temperature. More rain wanted for sowing <i>ij</i> <i>joona</i> and also for sugarcane and <i>aus</i> paddy. Fever prevalent.
	26 Hill Tipperah, " 10	1.08	Weather—hot; more rain wanted. Prospects of <i>satya</i> paddy fair. Lands are being prepared for <i>amra</i> paddy; chillies are being harvested. Some sporadic cases of cholera here and there; public health otherwise good.
BEHAR.			
Patna Divn.	26 Patna, June 13 '85	Nil	Weather—mornings and evenings generally cool with high east wind; days sultry. Preparations for sowing <i>shadoi</i> and paddy crops have commenced; <i>rau</i> urgently needed; <i>chenna</i> is being harvested. A few cases of cholera are reported; public health otherwise good.
	27 Gaya, " 13	0.84	Weather—very hot. Nothing fresh to report as regards the standing crops. Preparation of <i>shadoi</i> lands has commenced; <i>shadoi</i> sowing is also going on on a small scale; no change in prices. Public health fair; a few cases of cholera in Gaya and Jhannabad.
	28 Shahabad, " 13	Nil	Weather—hot with east wind prevailing; occasionally cloudy. Rain wanted for <i>shadoi</i> sowings. Cholera reported from Buxar and Bhubani.
	29 Darbhanga, " 13	Nil	Weather—strong east wind with passing clouds. Some rain is reported to have fallen at Muzhulani, but none has fallen at the Buxar and Tajpur yet; agricultural operations are almost at a stand-still for want of rain; <i>moong</i> is being collected with a poor outturn; prices remain stationary. Sporadic cases of cholera are still reported.
	30 Muzafferpore, " 13	0.12	Weather—strong east wind and cloudy during latter portion of the week. <i>Moong</i> and <i>chenna</i> are being reaped in places, elsewhere they are withering; early sowings of all sorts have suffered badly from want of rain, and where <i>agkani dhon</i> has been sown the young plants are drying up; sowings for <i>far</i> <i>shadoi</i> crops are at a stand-still; indigo has suffered a great deal from the drought; prices rising. Public health generally good.
	31 Saran, " 13	Nil	Weather—very hot and oppressive during the day. Rain urgently wanted for <i>shadoi</i> sowings; sugarcane and indigo are being kept up by irrigation. A few sporadic cases of cholera and small-pox reported; public health otherwise good.
	32 Champaran	Return not received.
	33 Monghyr, June 13 '85	Nil	Weather—temperature has fallen during the week. Sky overcast with signs of rain; east winds. Rain is much needed for sugarcane, mango, <i>shadoi</i> , and <i>agkani</i> crops. Prices stationary. Public health good.
	34 Bhagnipore, " 13	0.44	Weather—stormy, wind variable. Where rain has fallen, it has done much good; but elsewhere, especially in the south of the district, more rain is very much wanted; <i>moong</i> is being harvested in the north. Prices stationary. Public health good.
	Supole ..	0.18	
Rasulpore Divn.	Mudelpursh ..	1.23	
	Banka ..	0.08	
	25 Purneah, " 13	3.35	Weather—rainy. What is not spoiled is improving; sowings possible. Health good.
	Kisoreganj ..	0.19	
	Arrarrah ..	1.80	
	36 Muldah, " 13	1.52	Weather—cooler and cloudy with occasional showers and high east winds. Moderate rain has fallen all over the district. The rainfall has been gentle and therefore penetrating. It has done good to standing crops, and has also facilitated ploughing and sowing of <i>shadoi</i> and winter rice crops. Coarse rice is selling at 15 to 17 seers per <i>mupe</i> . Public health fair.
	37 Sonthal Pergna, " 13	1.70	Weather—during the week was very hot and oppressive with heavy clouds and a falling barometer. The monsoons broke on Thursday (11th), and there have been good showers; a heavy storm with thunder and lightning is now raging; ploughing is going on in all directions, and prospects are good.

38	Cuttack, June 12 '85	0.02	Weather—very hot; cloudy at times. Sowing of paddy in progress; plants are coming out in places, but require rain. Common rice selling at from 15 to 17 seers per ruppee in the town. Public health generally good; sporadic cases of cholera reported from the interior.
39	Puruse, Khoorda " 11 "	*Nil 0.13	Weather—very hot. <i>Sawal</i> paddy is being sown; rain is urgently required for <i>biali</i> ; <i>dalsa</i> is being harvested. Common rice is selling at an average of 20 seers 10 chittacks per ruppee in the Sadler sub-division, and 20 seers 9 chittacks in the Khoorda sub-division. Cholera has appeared in the town.
40	Balasore " 12 "	0.30	Weather—very hot. Agricultural operations are going on, but more rain is wanted. Public health generally good.
CHOTA NAGPORE.			
<i>South-West Frontier Agency.</i>			
41	Huzaribagh, June 12 '85	0.6	Weather—very hot and occasionally cloudy. Sowing and ploughing going on for ensuing crops; sugarcane promising. Cholera and small-pox reported from many places of the district, otherwise general health good.
42	Lohardugga, " 13 "	0.81	Weather—warm. There have been two nor'-westers accompanied with rain during the week. The rain was wanted, and will benefit the ploughing and sowing operations. Prices steady. Small-pox in epidemic form is reported from Bahmanth.
43	Singhbhoon, " 12 "	1.46	Weather—unsettled and partially clouded. Rain reported from all parts of the district, and preliminary agricultural operations are in progress everywhere; paddy seedlings and sugarcane doing well. One or two cases of cholera have occurred in Chybasa town.
44	Manikhoon, " 13 "	1.37 Slight rain.	Weather—stormy and cool. The heavy fall of rain yesterday (12th) will improve agricultural prospects, but it is not yet known how far it extended. There has been great scarcity of drinking water all over the district, especially in pergunnah Boda and parts of the Govindpore sub-division. Coarse rice is selling at 14 seers in the Govindpore sub-division.

METEOROLOGICAL AND RAINFALL SUMMARY OF THE PROVINCE OF BENGAL FOR THE MONTH OF MAY 1885.

The normal meteorological conditions in Bengal during May are to a considerable extent similar to those of April. There is of course the steady and increasing difference of temperature between the land and the sea area, and in this month this difference attains almost its maximum. The area of maximum temperature during May includes the western districts of South Behar, the North-West Provinces, Rajputana, and Central India. With the increasing temperature of the land surface, the southerly winds blowing from the Bay of Bengal strengthen considerably, and owing to the physical obstacles of the hill systems to the east and north of Bengal, they appear as south-easterly winds in East Bengal, and as easterly winds in North Bengal. At the same time, however, the usual hot, dry, westerly winds are blowing over considerable portions of Behar and Chutia Nagpur, and thus during May, as explained in previous monthly reports, conditions are favourable to the production of the local storms called nor'westers. These, it is possible, are produced by the action of the opposing winds in elevating the moist sea breezes, and by this ascensional motion their water vapour is condensed, and sufficient energy is at the same time liberated to produce the well-known effects of these storms.

The southerly breezes which blow during this month at the head of the Bay are of considerable strength, and in fact, at Sangor Island and False Point, the wind velocities measured in May are generally greater than those during the actual rainy season, but there is reason to believe that during May, the current is of comparatively small depth compared to what it is during the actual monsoon period. These winds, however, carry considerable amounts of moisture into East and North Bengal, and in the neighbourhood of the hills ascensional movement takes place, followed frequently by local storms and by heavy rainfall. This action will account for the large rainfall which occurs during this month in the northern and eastern districts of the Province.

During May the distribution of the normal rainfall is simple, and the lines of equal rainfall run nearly north and south through the Province, or rather almost parallel to a line joining the Chittagong Hill Tracts, the Tipperah Hills, the Garo Hills, and the Darjeeling Hills, the largest amounts being received in the eastern and northern districts, and the smallest amounts in the western districts. Thus the average rainfall of the month is less than 2 inches in the southern parts of the Sarun and Mozufferpore districts, the Gya and Shahabad districts, and the western parts of Chutia Nagpur. To the east of these districts, up to a line running nearly north from the mouth of the Hooghly, the rainfall increases from 2 up to 5 inches. To the east of this, up to a line passing through Rungpore, Jamalpore, Mymensing, Brahmanberiah, Comilla, and Cox's Bazar, the average rainfall increases eastwards from 5 to 10 inches. To the east of that line it exceeds 10 inches, and increases rapidly in amount towards the Garo and Khasia Hills and towards the Doars, and at Buxa in the Western Doars the average rainfall in May is no less than 21.58 inches.

The meteorology of May is generally rather important for about the second or third week, the south-west monsoon makes its appearance in the south of the Bay, and gives heavy rain and fairly strong winds at the South Ceylon stations. The monsoon gradually creeps up the east of the Bay, and rain sets in along the Arakan coast towards the close of the month, and it afterwards spreads into East and North Bengal. This year there were indications of monsoon conditions setting in on the Ceylon coast from about the 18th to the 21st, and about ten days later it appeared that a feeble monsoon current was making its way up the Arakan coast, so that it was probable that the rains would set in over Bengal at about the normal period—a supposition which has since proved nearly correct.

Probable character of the south-west monsoon of 1885—It has appeared from previous investigation of the subject that rough indications of the probable nature of the monsoon rains may be obtained from the consideration of the meteorological conditions for the three months preceding the rains. Speaking generally, it has been found, that where pressure has been uniformly in excess of the normal for the three months, March, April, and May, in those districts diminished rainfall may be looked for, and in those districts where pressure is comparatively in defect, the rains will probably be more abundant. It must, however, be remembered that in dealing with the pressure over the land surface of India, only one of the two essential elements is considered, so that an imperfect result must be looked for. A strong monsoon is undoubtedly accompanied by or caused by considerable differences of pressure between the land surface of India and the large extent of open ocean surrounding it, and probably the greater the difference of pressure the stronger the monsoon. As the pressure over the surrounding seas cannot be measured, the variations of the land pressure from the normal pressure can only be taken as a rough indication or guide of the probable nature of the actual differences of pressure, and therefore of the monsoon.

An examination of the figures published daily at 10 A.M. by the Meteorological Reporter to the Government of India has shown that there have been certain characteristic features

of pressure variation during the three months, March, April and May. The actual numbers representing the variations are given in the table below :—

The following are the principal features as shown in this table :—

1. Pressure has been very considerably in excess of the normal over the whole of India for almost the whole of the three months, but that the largest excess occurred in May. The average excess pressure over the whole of India during the three months has been 0.036".
2. That pressure has been abnormally and exceptionally high over the Punjab and Rajputana; it has also been very high over the North-West Provinces and Oudh and in the Central Provinces though not so high as in the two former districts.
3. That Bengal, Bombay, Berars, Central India, and perhaps Madras show an excess pressure which is about equal to the average excess over the whole of India.
4. That Ceylon, Burmah, Assam and Mysore show comparatively low pressures, or, speaking generally, the southern districts of the Peninsula and the eastern districts of India generally have registered comparatively low pressures.

Assuming that the observations and results are correct, the following appear to be the rough inferences of the prospects of the monsoon which can be drawn from the consideration of the land observations alone :—

- (a.) That it is probable both branches of the monsoon current will be rather below their usual strength but that the Bay of Bengal branch will probably be relatively stronger than the Bombay branch.
- (b.) That the Bombay branch of the monsoon current will be later than usual in establishing itself, and that, when established, it will give heavy rain over the southern part of the Peninsula and in Ceylon.
- (c.) That the large excess pressure over the Punjab, Rajputana, and to a rather smaller extent over the North-West Provinces and the Central Provinces, indicates the probability that rainfall will be decidedly deficient over these areas, particularly over the Punjab and Rajputana.
- (d.) That Western and Central Bengal, Bombay, Berars and Central India will receive a rainfall nearly approaching, though probably not equal to, the normal.
- (e.) That the Bay of Bengal current will give heavy rain heavier than the normal to Burmah, Assam, Cachar and the eastern and north-eastern districts of Bengal generally.

It must, however, be stated that these conclusions are more likely to be true for the first half of the monsoon than for the whole monsoon.

The chief features in the meteorology of the past month in Bengal have been—

1. Decided excess pressure throughout the whole month.
2. Temperature considerably below the normal for the first two-thirds of the month, followed by an extremely rapid increase of temperature, and very high temperature over the whole Province for the last week.
3. Frequency of local storms and comparatively heavy rain during the first ten days, and their almost complete absence at the close of the month.
4. Rainfall very decidedly below the normal over almost the whole of the Province.

In the summary for April, it was shown that at the close of that month the meteorological conditions over the Province were favourable to the production of local storms, and these conditions continued to hold good almost throughout the first half of the month. From this date, however, the easterly and southerly moist currents were slowly driven back by an advance of dry westerly winds, and with their advance the formation of storms and the possibility of rainfall ceased. These winds were a prominent feature till the last week of the month, when they in their turn were slowly driven back by the advancing southerly and south-easterly currents. The latter, however, were comparatively feeble, and they only

brought up rather small amounts of moisture into the Province. For the first twelve or fifteen days of the month rainfall was therefore fairly general over the greater part of the Province. This was succeeded by a period of dry weather, and with the advance of the moist southerly winds, showers were again received during the last week, particularly in East Bengal.

Pressure, as above stated, has been above the normal throughout the month, the average excess pressure during the first week being equal to 0.09", the excess being smallest in Chutia Nagpur. During the second week this excess pressure was slightly reduced, and it averaged 0.06". In the third week there was not much change, and it was still 0.054" above the normal, but its distribution had changed, and in Chutia Nagpur the excess was largest and equalled 0.09", while it was smallest in South-West Bengal where it was 0.04". In the last week of the month pressure continued to oscillate in the usual manner, and the upward and downward movements were about equal; but as at this period of the year pressure usually commences to fall rather rapidly, the pressure during this week was no less than 0.11" in excess of the normal, and the seat of the greatest excess had moved to Orissa, where at Cuttack it was 0.14". The excess pressure for the whole month over the Province had therefore been 0.077".

The variations of temperature have been very large during the month. Owing to the heavy rainfall during the earlier part of the month, temperature was below the normal for the first two weeks, but with the cessation of rainfall in the third week, temperature rose rapidly and became almost normal, while in the last week, temperature became abnormally high. In the first week the average temperature over the whole Province was about 2° in defect, in the second week this defect had increased to 4.5°, while in Chutia Nagpur, the defect was no less than 7° and in Orissa it was 6°. The last week was, as has been before stated, noticeable for being particularly hot, and South-West Bengal and North Behar registered temperatures which averaged nearly 5° above the normal. The average temperature in South Behar and Chutia Nagpur was 3° above the normal, and in East Bengal it was 2°. Some exceedingly high maximum temperatures were also reported. Thus Rancegunge registered 111° on the 26th, Gya registered 110.2° also on the 26th, and Patna 110.1° on the 25th. The very high day temperature which prevailed over the Province at this period is clearly shown by the fact that the average maximum temperature of all the days of the last week at all the recording stations was 100.7°, or to put it another way, out of the forty reporting stations in Bengal, twenty-eight registered temperatures averaging above 100°, and only twelve stations below it. For the whole month the average temperature has been slightly in defect of the normal, except in South-West Bengal which shows an excess of 0.5°. All other divisions show defects varying from 1° to 2°.

Rainfall, as has already been stated, was plentiful during the first week of the month, and in fact in all districts it was in excess of the normal. In this week North Behar showed 120 per cent. of excess rainfall, South-West Bengal and North Bengal about 60 per cent. of excess, East Bengal, South Behar and Chutia Nagpur about 50 per cent. of excess, while Orissa only received 10 per cent. in excess, but even during this week Singhbhum, Nya Doomka, Gya, Shahabad, Moorshedabad, Beerbhoom, and Bankoorah were comparatively deficient in rain. In the second week of the month, the area receiving rainfall rapidly diminished, and the amounts received by Chutia Nagpur and South-West Bengal were far below the normal, while East Bengal and Behar received about the normal amount, and North Bengal and Orissa received amounts decidedly larger than the average. In the third and last weeks of the month, rainfall was comparatively scanty, and showers only have been received in East, North and South-West Bengal, and the remainder of the Province has been for practical purposes almost rainless.

The distribution of the rainfall has been decidedly irregular, and consequently a little difficult to describe. Rainfalls below one inch were received by the greater part of the Shahabad, Patna and Gya districts; also by parts of the Southal Pergunnahs and of the Dinagepore district. Rainfall of less than one inch also fell over the greater part of Beerbhoom and Rancegunge districts, and also in parts of Bankoorah, Maubhoom and Singhbhum. The remainder of Chutia Nagpur received generally from 1 to 2 inches, while from the above mentioned districts passing in an easterly direction, the rainfall steadily increased till in East Bengal it averaged from 7 to 10 inches, and in the Duars it was about 20 inches.

The greater part of the Province shows a rainfall decidedly in defect of the normal, but still there are districts where it has been in excess. The greater part of Orissa received an excess fall varying up to 3 inches at Kendrapara; the western part of Chutia Nagpur and of Shahabad and Gya also show a slight excess of less than one inch. A curious area of excess up to 2 inches, and which is surrounded on all sides by areas of defect, lies between the Mozufferpore and Durbhunga districts, and includes the stations of Mozufferpore, Jajpore and Durbhunga. Another area of excess rainfall is found in South and East Bengal and includes such stations as Barrackpore, Serampore, Bussorhat and parts of the Furreedpore, Comilla and Backergunge districts, and lastly, excess rainfall has occurred at some of the stations of the hill districts of North Bengal. The remainder of the Province shows uniform deficiency of rainfall; the largest defects being reported from the eastern stations of East and North Bengal. A very large and important area of defect varying from 2 to 4 inches includes almost the whole of the Rungpore, Dinagepore, Rajshahye, Bogra, Pubna, Malda, Moorshedabad, Southal Pergunnahs, Beerbhoom, Nuddea, Burdwan, and parts of the Hooghly, Midnapore and 24-Pergunnahs districts. There are other areas of defect of from 2 to 4 inches scattered about, but they are not of such importance as that just described. Thus Gopalunge in Sarun shows a large defect; Singhbhum also is largely in defect; Khoolna shows 3.7 inches in defect, and Nattore shows 4 inches in defect.

Mean for six days.
The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same period.
The humidity of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 100.
The normal means of the rainfall are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisions from the district (i.e.), the total rainfall at the sub-divisional stations in the district during the period divided by the number of stations. A rainy day is one on which rain falls at any one of the stations.

period for the past ten years. The variations are negative when the mean for the week is less than the corresponding normal mean, and positive when greater by 10. The number denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head "District" observations for the period in question during the past 12 years. The means of the "district" are the numerical averages of the rainfall returns received day by day on which at least one hundredth of an inch fell.

CALCUTTA, the 15th June 1885.

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS
TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 12TH
OF JUNE 1885.**

In the report for the previous week, it was noticed that moderately strong monsoon winds were established over the centre and south of the Bay, and that at the Ceylon stations in particular very strong winds were blowing, showing that there was a steady advance of the monsoon taking place. These strong winds have continued to blow at the southern stations throughout the week, and they appear to show that the monsoon current which was advancing has been of considerable strength. On the first three days of the week pressure in Bengal steadily and generally rather rapidly fell, till on the Sunday and Monday pressure became almost normal. With the falling barometer the monsoon current continued to advance northwards, and on Sunday and Monday a very moist southerly current commenced to spread over Bengal, giving rise on the Sunday to heavy, but in many instances, rather local showers, while on the Monday rainfall became general over North and East Bengal, and over the eastern districts of South-West Bengal. The area of rainfall slowly extended in a westerly direction, and on Thursday and Friday rainfall became general over South-West Bengal, over the Purneah district of North Behar, over the Sonthal Pergunnahs and over parts of Chutia Nagpur. Thus it may fairly be said that the south-west monsoon has commenced over the greater part of the Province during the past week, and though it had not reached the greater part of Behar, it was evident that in a few days the monsoon current would advance over this district as well. The monsoon has established itself very quietly, and its advance has not been attended by the formation of any severe storm as is frequently the case. The indications of the coming monsoon, as judged by atmospheric pressure, were that it would be comparatively feeble, but the high wind velocities steadily registered in the south of the Bay indicate that it is, at all events at present, fairly strong.

The peculiarity of the monsoon during the past week has been that it has spent a large part, if not the greatest part, of its force in Eastern and Northern Bengal. A reference to the monthly report for May will show that this is precisely what might have been expected from the distribution of pressure during the three months, March, April and May. The rainfall in North Bengal, and to a great extent also in East Bengal, has been excessively heavy, and in many cases in the hill districts of North Bengal, rainfall for the week has reached about 20 inches.

Pressure was during the last week in excess by about 0.11", but during the first three days of the present week a rapid fall of pressure occurred, simultaneous with the advance of the monsoon, which reduced it almost, though not quite, to the normal; for the remainder of the week there was the usual oscillation, and the pressure for the whole week has been 0.05" in excess of the normal.

Temperature has fallen rapidly in those districts which have received rainfall, but it is still in excess of the normal in all districts except East and probably North Bengal. The largest excess is shown in Chutia Nagpur, where it equals 5.6°, but in other districts the excess is generally about 2°.

The rainfall for the week, as has before been stated, has been excessively heavy in the eastern and northern districts. The rainfall in the Cooch Behar, Julpigoree, Rungpore, and Mymensing districts has been so large that, with the exception of one or two stations, the whole of these districts have registered rainfalls varying from ten up to twenty-three inches. As instances of the very heavy falls, Cooch Behar has received 23.67 inches, Kurigram (Rungpore district) 19.86 inches, Dinhatta 19.71 inches, and Julpigoree, Matabhanga and Buxa between 18 and 19 inches. Good and general rain has fallen in every district, and at almost every recording station with the exception of Orissa generally, and of parts of North and South Behar, for in the latter division the Sonthal Pergunnahs and South Bhagulpore districts received fairly general rain, and in North Behar, Purneah and North Bhagulpore also received good showers. The average rainfall in North Bengal (excluding the hill stations) has been 10 inches, against the normal of 8.57 inches. In East Bengal the average fall has been 3.14 inches, against the normal fall of 3.87 inches. In South-West Bengal, the average fall has been 2.04 inches, against 2.15 inches, but while the eastern districts of this division have received an average fall of 2.96 inches, the western districts only averaged 1.37 inches. Chutia Nagpur has received 0.66 inch, against an average fall of 1.23 inches; South Behar averages 0.35 inch, against the normal 0.80 inch, and North Behar 1.39 inches, against the normal fall of 1.41 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 13th of June 1885:-

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 85 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDA.

A BRIEF summary of the principal results in connection with the mortuary statistics of the districts in Bengal, for the month of April 1885, as presented in the statement appended to this memoranda, is subjoined :—

1. The deaths of 118,293 persons were registered in these districts, among their population numbering 66,163,884, being at the rate of 21.86 per 1,000 against 20.88 per 1,000 in the preceding month, and 24.00 per 1,000 in the corresponding month of the preceding year, indicating, in comparison with the result of the corresponding month of the past year, a large decrease in mortality.

2. The undermentioned districts furnished the highest proportions of deaths :—

Districts.	Ratio per mille.	Districts.	Ratio per mille.
Bogra	51.24	Murshedabad	27.48
Rajshahye	48.48	Birbhum	26.04
Nuddea	45.98	Jessore	25.80
Pubna	42.48	Backergunge	25.21
Maldah	38.16	Khulna	24.24
Burdwan	29.88	24-Pergunnahs	24.12

3. The mortality from the specific death-causes mentioned in the appended table is shown below. The figures indicate that cholera prevailed with considerably less fatality during the month under notice as compared with the corresponding month of the preceding year, and that the fatal results from the rest of the diseases exhibited only fractional variations, excepting injury and bowel complaints, which maintained the same death-rates :—

	Ratio per mille during—	
	April 1885	April 1884.
Cholera	3.60	5.52
Small-pox	.24	.60
Fever	13.68	13.80
Bowel-complaints	.84	.84
Injury	.24	.24

4. While bowel-complaints and injury did not prevail with more than normal severity anywhere, and small-pox, which proved noticeably fatal only in Chumparun, viz. at the rate of 2.40 per 1,000 of population, cholera, fever and the maladies classed under the head of "Other causes" caused the highest mortality in the following districts :—

Cholera.	Ratio per mille.	Fever.	Ratio per mille.	Other diseases.	Ratio per mille.
Bogra	24.00	Pubna	33.16	Poori	11.28
Rajshahye	17.76	Rajshahye	29.64	Saran	9.36
Nuddea	15.72	Nuddea	26.40

Mymensing	2.28				

It will be seen from the foregoing table that the prevalence of cholera in severe form was very general during the week under notice, Bogra, Rajshahye, Nuddea, Maldah and Burdwan exhibiting very high death-rates, and that fever caused great loss of life in Pubna and Rajshahye.

5. Distributed under the heads of Sex, Class and Age, the mortality of the month stands as indicated below :—

According to Sex.	Ratio per mille.	According to Class.	Ratio per mille.	According to Age.	Ratio per mille.

R. LIDDERDALE, M.D., Deputy Surgeon-General,
Sanitary Commissioner for Bengal.

The 15th June 1885.

Statement showing the Results of the Registration of Deaths in the Districts in Bengal for the month of April 1885.

[illegible]

MEMORANDA.

The principal Municipalities in Bengal returned, during the week ending 30th May 1885, the birth and death-rates of 22.9 and 31.2 per 1,000 of population, respectively, as opposed to 20.8 and 28.4 per 1,000, respectively, in the preceding week ending 23rd May, indicating much advance in the registration of both events:—

2. In local distribution of these events, the following Municipalities registered the largest number of them:—

<i>Births.</i>				<i>Deaths.</i>			
			Ratio per mille.				Ratio per mille.
Gya	39.7	Burdwan	59.5
Bhagulpore	36.2	Durbhanga	48.8
Monghyr	34.4	Chittagong	46.9
Darjeeling	33.6	Gya	43.7
Durbhanga	30.7	Patna	41.9
				Bhagulpore	36.2
				Purneah	34.6
				Suburbs of Calcutta	31.8
				Mozufferpore	31.6
				Jessore	30.6
				Howrah	29.6

3. The following table indicates that, as compared with the outcome of the preceding week, fever and the maladies grouped under the head of "Other causes" exhibited increase of mortality to some extent, while the fatal results from the other diseases varied only fractionally:—

				Ratio per mille during weeks ending—	
				30th May 1885.	23rd May 1885.
Cholera	4.6	4.9
Small-pox7	.6
Fever	12.8	11.6
Bowel-complaints	4.4	4.1
Injury8	.6
Other causes	7.9	6.6

4. Excluding injury, the mortality from which was nowhere great, and small-pox, which proved noticeably fatal only in the Dacca town, viz. at 3.2 per 1,000 of population, the rest of the diseases exhibited greatest severity in the following Municipalities:—

<i>Cholera.</i>		<i>Fever.</i>		<i>Bowel-complaints.</i>		<i>Other Causes.</i>	
	Ratio per mille.		Ratio per mille.		Ratio per mille.		Ratio per mille.
Chittagong	18.8	Burdwan	38.1	Durbhanga	10.2	Gya	17.7

Burdwan	7.6	Purneah	20.8	Patna	8.4	Kishnaghur	11.3
Mowrah	7.4					Patna	10.1
Suburbs of Calcutta	6.2					Bhagulpore	10.0
Patna	5.6					Suburbs of Calcutta	9.3
Bhagulpore	4.6					Monghyr	9.0
Gya	3.4						
Dacca	2.8						

5. With reference to *Sex*, *Class* and *Age*, the mortality of the week stands as noted below:—

<i>According to Sex.</i>		<i>According to Class.</i>		<i>According to Age.</i>

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the European being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "All," the ratios under which have been calculated, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

GENERAL REMARKS AND EXPLANATIONS

The gross weight lifted during the month under review stands at 14,168'02 tons against 15,500'86 tons for the corresponding month last year.

The decrease is chiefly due to a less quantity of coal carried for the Locomotive Department and a deficit in the despatches of salt.

Under all other staples an increase is recorded.

INCREASES.

Ale ... Tons 70
About this time despatches of Commissariat beer commence to go forward.

Ginger ... Tons 195'51
The season has opened favourably with a good demand and prices.

Gunny-bags ... Tons 90'37
Prices are better, and the demand for foreign export continues.

Jute ... Tons 110'10
During the month the market has revived and closes firm with a good demand at an advance. Imports are, however, very small.

Miscellaneous ... Tons 87'68
The total weight lifted under this head during the month stands at 3,392 or 16'55 per cent. better than the traffic carried last March.

Piece-goods ... Tons 4'8'84
Local markets are now being stocked against the approach of the rains, when cutting into the interior becomes a matter of difficulty.

Sugar ... Tons 67'86
Mofussil traders are taking advantage of the cheap prices ruling and are laying in stock.

Ten ... Tons 15'84
The last sale of the season was held on the 19th instant, which consisted to a great extent of final invoices mostly of inferior quality.

DECREASES.

Food-grain ... Tons 70'33
The market for table sorts is weaker, for gross sorts the market is firm, but imports fall far short of the demand.

Railway material ... Tons 1,762'90
During last March 1,737 tons of coal passed up for the Locomotive Department, against 914 tons this month.

Salt ... Tons 492'94
This decrease is apparently due to the depressed condition of the jute market, upwards despatches of salt being mainly dependent on imports of jute.

Sund ... Tons 4'8'84
This decrease is due to a falling off in the local demand for mustard seed.

Tobacco ... Tons 15'29
Prices continue bad and there is no demand for export. During the first two months of 1884, 50,211 maunds of tobacco were exported against 19,201 maunds for the same two months this year.

Calcutta, the 11th June 1885.

N. ST. L. CARTER,
Traffic Manager.

**General Remarks on the fluctuation of principal staples carried over the East Indian Railway
during the month ended 25th April 1885.**

INCREASES.

Wheat.—The increase in this staple is accounted for by a firm Calcutta market, good demand for export, and low prices in the producing districts.

Seeds.—A better export trade and good prices in the market combined in causing the increase in these staples.

Railway Material, Foreign.—An urgent demand for permanent-way material.

Sugar.—The increase in this commodity is attributable to the crop having been a plentiful one last season, causing low prices, and in consequence an improved demand.

Indigo.—A better crop and more favorable markets may be assigned as the reason for the increase in this commodity.

Cotton.—Consequent upon the pacific nature of the political telegrams, there was an increased traffic in this staple.

Grain.—The increase in this article resulted from the improved traffic in wheat and seeds.

Iron.—Due to a better demand in the mofussil.

Government Stores.—Heavy despatches of Ordnance and Commissariat stores resulted in an increase under this head.

DECREASES.

Rice (shelled and unshelled).—Reduced stocks in the market owing to partial failure of the Bengal crops, and high prices at the cause of the decrease in this commodity.

Piece-goods.—Political uncertainty must be held to account for the falling off in this important article of commerce.

Salt.—A reaction upon the heavy despatches in March resulted in the decrease in this staple.

Brass and Copper.—Ordinary fluctuation of trade accounts for the decrease in these articles.

NOTIFICATION.

The 13th June 1885.—The Lieutenant-Governor is pleased, with the previous sanction of the Governor-General in Council, to publish the following regulations for the admission of locally selected candidates into the Bengal Pilot Service at Calcutta.

REGULATIONS.

1. An examination for admission to the Leadsman's grade of the Bengal Pilot Service may be held in Calcutta, at a time and place to be fixed by the Local Government. The number of vacancies available for local candidates shall also be declared; but no local candidate shall be appointed who does not satisfy the Examiners, or who, in other respects, does not come up to the requirements of the following rules.

2. Candidates must be not less than 15, or more than 20 years of age, and descended from European or Eurasian parents domiciled in India.

3. Every candidate must produce a medical certificate of good health and physical fitness to work as a pilot in a tropical climate, and also satisfactory evidence as to his moral character.

4. He must also have served at sea for two years in a merchant sailing vessel of not less than 300 tons register, employed in the foreign trade, as a seaman or apprentice, and must produce satisfactory certificates from the masters he has sailed under.

5. He will be required to have passed the examination laid down for the sixth standard (middle) of the Code of Regulations for European schools in Bengal, and in addition will be examined in Seamanship and in Navigation up to the standard of a Second Mate.

6. He will, on being appointed to the service, receive Rs. 100 per mensem.

7. He will have to serve for two years as a Leadsman, and then to pass an examination as Second Mate. Then he will be required to serve as Second Mate of a pilot-brig for one year, during which time he will receive Rs. 125 per mensem, and then for another year as a Leadsman, during which time he will receive Rs. 100 per mensem, and 50 per cent. of the lead-money paid by the ships in which he does duty.

8. He will then be required to pass an examination as First Mate, after which he will have to serve another year as First Mate of a brig, during which time he will receive Rs. 150 a month and mess. He will then be allowed to go up for examination as a Mate Pilot.

9. After passing this examination, he will be promoted to the grade of Mate Pilot as vacancies occur.

10. After four years' service as Mate Pilot, he will be permitted to go up for examination for Master Pilot, and on passing that examination he will be promoted to be Master Pilot as vacancies occur in that grade.

11. Vacancies which occur in the grade of Branch Pilot will be filled up by promotion from the Master Pilot's grade.

12. Members of the Pilot Service who enter the service under these rules are not entitled to any salary while on pilotage duty. They receive, as their remuneration, 50 per cent. of the pilotage dues paid by ships piloted by them. They are entitled to allowances while on leave or special duty, and to pensions on retirement from the service.

13. Every member of the Pilot Service is subject to the rules made from time to time by the Government in regard to discipline, leave, leave allowances, number of officers in the service, distribution into grades, tonnage of ships to be allotted to the several grades, &c., and in all respects he is amenable to such orders as may be passed by Government for the regulation of the service.

J. WARE EDGAR,

Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

CEYLON—WEST COAST.

Sunken Rocks between Pantura and Caltura.

THE British Admiralty notifies that the following information, of the existence of certain sunken rocks lying one and half to three miles off shore between Pantura and Caltura, West coast of Ceylon, has been received from the Naval Commander-in-Chief on the East India Station :—

A rock (*Nilkete rock*) with a depth of two fathoms, and on which the wreck of the steam-ship *Justitia* was lying, is situated in latitude 6° 41' 00" N., longitude 79° 52' 50" E., about 1½ miles from the nearest shore.

J. rock, with four fathoms over it, lies W. N. W. from Nilkete rock, distant half a mile. Two small rocks, with depths of three fathoms, lie S. by W. from Nilkete rock, at the distance of about three cables.

A rock (*Kaluwattegala rock*), with a depth of $8\frac{1}{2}$ fathoms, lies about $2\frac{1}{2}$ miles off shore, in latitude $6^{\circ} 38' 00''$ N., longitude $79^{\circ} 53' 15''$ E.

A rock (*Veyangala rock*), with $5\frac{1}{2}$ fathoms off it, lies W. N. W. from Kaluwattegala rock, distant about six cables.

NOTE.—Vessels navigating in this locality should use caution and keep outside the 10-fathoms line.

The outer rock off Pantura, shown as one of the Pantura rocks, is named *Gonagala rock*; the rocks in shore of that, are the Pantura rocks.

The bearings are Magnetic.

CIVIL.

Rule No. 9, dated the 12th May 1885 *

As page 231, Civil Rules and Orders, to Rule (2) of the Rules under Clause I, Section 20 of the Court Fees Act, VII of 1870, add the following:—

In the case of a witness whose attendance is required by the Court of its own motion for any purpose other than that mentioned in paragraph 1 of this Rule, the fee chargeable for serving and executing the process shall, together with the witnesses' expenses, be paid into Court by the party whom the Court may direct to pay the same.

* Published in the Calcutta Gazette of the 20th April 1885, Part I, page 260, and in the Assam Gazette of the 2nd May 1885, Part III, page 182.

CIVIL.

Rule No. 10, dated the 18th May 1885.

After Rule 1, page 1, Civil R. and O., insert the following:—

IA. [Certain rules applicable to contested original suits valued above Rs. 5,000—Rule No. 10 of 18th May 1885.]—The following rules shall be applicable to contested original suits valued above Rs. 5,000:—

I.—Every written statement and every application made in the course of a suit, which the Judge may consider material, shall be accompanied by as many copies thereof as there are parties whose interests are not joint.

II.—Every party filing exhibits shall file therewith as many copies of a memorandum containing a description of the documents filed, in the form* prescribed by this Court under the provisions of sections 59 and 140 of the Code of Civil Procedure, as there are parties whose interests are not joint.

III.—The Ministerial Officer in charge of the record of a suit shall arrange the copies mentioned in the foregoing rules in the same order as the original papers are directed to be arranged by the rules framed by this Court.†

IV.—These papers, after being thus arranged, shall be authenticated with the seal and signature of the Court, and shall be delivered on application to the several parties mentioned above,‡ or their duly constituted pleaders or mukhtars.

V.—The memorandum of evidence required to be made by section 184, Code of Civil Procedure, shall be made in English in all cases in which the judgment of the Court is written in English.

Clause (a). [List of documents produced by the parties—C. O. No. 2 of 20th January 1881.]—The following form has been prescribed for use under section 149 of the Code of Civil Procedure:—

2. For clause (a) of Rule 3, page 2, Civil R. and O., substitute the following:—

3 [Sections 59 and 140 to 142, C. C. P.—List of Documents produced by parties.—Rule No. 10 of 18th May 1885]—With reference to the provisions of sections 59 and 140 of the Code of Civil Procedure, the lists of the documents respectively produced by the parties to a suit shall in every case be prepared in the following form:—

CIVIL.

No. 11, dated the 19th May 1885.

To Rule 43A, page 296, Civil R. and O., add the following clause:—

(b) [District Judges to record opinion as to Subordinate Judicial Officers before delivering over charge of their offices.—C. O. No. 11 of 19th May 1885.] District Judges about to proceed on furlough, or who are under orders for transfer to other districts, shall, before delivering over charge of their offices, leave on record, for the use of their successors, their opinion as to the character and qualifications of all the subordinate judicial officers employed in their districts.

General Letter No. 9, dated Calcutta, the 5th May 1885.

From—C. A. WILKINS, Esq., Registrar,

To—All District Judges.

In continuation of General Letter No. 4, dated 10th February 1885, I am directed to inform you that, in addition to a mileage of 2 annas provided for a third class officer under section 67, read with section 32 of the Travelling Allowance Code (edition 1885), a Civil Court Amin will be entitled to a daily allowance, under section 27, at the rate given in section 31 (c) for the number of days during which he halts at a particular place for the purpose of conducting a local investigation. This halting allowance will vary according to the salary of the Amin, being 12 annas a day if his salary is Rs. 70 per mensem, or 8 annas if it is Rs. 50.

2. I am to add that the mileage and halting allowance above specified are intended to recompense the Amin for travelling expenses actually incurred, and must be paid by the parties, by whom his services are required, in addition to the Rs. 8 per diem which is realized under Chapter IV, Rule 8 (1), Parts I to IV, Article 3, pages 226-230, Civil Rules and Orders, and credited to Government in order to cover the cost of the Amin's salary.

3. The Court do not consider it necessary that any expense should be incurred for the carriage of the Amin's chain, compass, records, &c., as these could always be carried by a couple of men produced by the parties, either servants or tenants. If, however, expenditure for this purpose is unavoidable, it must be paid by the parties.

NOTIFICATION.

The following rules, framed by the High Court of Judicature at Fort William in Bengal under clause I, section 20 of the Court Fees Act, VII of 1870, having been confirmed by the Lieutenant-Governor of Bengal, and sanctioned by the Governor-General in Council, are published for general information.

By order of the High Court,
C. A. WILKINS, Registrar.

FORT WILLIAM, the 16th June 1885.

RULES.

1. At page 232, Civil Rules and Orders, after Rule (3) of the Rules under clause 1, section 20 of the Court Fees Act, VII of 1870, insert the following:—

(b) In cases in which the process is to be served in the jurisdiction of another Court, the proper fee chargeable under Rule (1) read with Rule (6) shall be levied, in the manner above directed, on the application for the transmission of the process to that Court, and a note shall be made on the process stating that this has been done. A Court which receives from another Court, whether in the same province or not, a process bearing a certificate that the proper fee has been levied, shall cause it to be served without further charge.

2. At pages 232, 233, Civil Rules and Orders, for Rules (6) and (7) of the same rules, substitute the following:—

(6) (a). In the case of processes to be served in districts* where, during a portion of the year, travelling except by boat is impracticable, the Court executing the process shall defray all charges on account of boat-hire or ferry toll. But in consideration of this the fees leviable in respect of such processes under Articles 1, 2, and 5, Parts I, II, III, and IV, under Article 4, Part I, and under Articles 4 (c) and 7, Parts II, III, and IV of Rule (1), shall

be increased by 25 per cent.

(b). The extra charge of 25 per cent. prescribed by clause (a) of this rule shall be leviable in the case of processes to be served only in such portions of the abovenamed districts as are set forth in column 2 of the following table, and only during the periods mentioned in column 3:—

List of districts in which extra charges are to be made on account of service of process by boat.

Names of District Judgments.	Within what limits an extra charge is to be made on account of boat-hire.	For what period.
Backergunge	Within the limits of Gola Chupa, Shareepkaty, Perazepore, Mainbaria, Bowphul, Mirzagunge, Melhigunge, and out-post of Rajapur.	Throughout the year.
"	Within the limits of the rest of the district, with the exception of the limits of Bandon, Nalchiti, Jalakati, and 27 villages in the sudder station jurisdiction, where boat-hire is not needed.	From 15th June to 15th November.
Dacca	Within the limits of the district, except as regards the towns Dacca and Narasingunge, and the villages Mirpore, Toonghee, and Joydebpore.	From 15th May to 15th November.
Farreedpore	Within the limits of the whole district	From 1st June to 30th November.
Jessore	Within the limits of the sub-divisions of Khooldna and Bagrhat.	Throughout the year.
"	Within the limits of the sub-divisions of Magurrah, Jhenidah, and Narail.	From 15th June to 15th November.
Mymensingh	Within the limits of the sudder, Sherepore, Netrakona, and Ghosegong Munsifs.	From 15th June to 30th September.
"	Within the limits of the rest of the district	From 15th May to 31st October.
Noakhally	Within the limits of the whole district	From 15th June to 15th November.
Pubna and Bogra	Ditto ditto	From 15th June to 31st October.
"	Within the limits of the Nattore Munsifi	From 1st June to 30th November.
Rajahmugga	Ditto Shibgunge Munsifi	From 1st July to 30th September.
"	Ditto rest of the district	From 1st June to 31st October.
Rangpore	Throughout the Kurigram and Gaibanda Munsifs, and in thana Kaligunj.	From 1st June to 31st October.
Tipperah	Within the limits of the whole district	From 1st June to 31st October.
Sylhet	Ditto ditto	From 1st June to 30th November.

(c). The responsibility of introducing the most economical system of boat-service in each of the abovenamed districts, will rest with the District Judge. A close and effective control must be exercised over any special boat establishment that may be entertained for the purposes of this rule.

(7). In such districts or parts of districts as are not for the time being subject to Rule (6), when, in order to the service of any process, the peon has to cross a ferry, then the amount, if any, legally exigible as toll shall be levied by the Court in cash from the person at whose instance the process is issued before delivery of the process to the peon, except in the case of processes issued by a Court situate in any other Presidency or Province, in which case no fee at all shall be levied in this respect from the party. The Court executing such process shall advance the necessary fee from its permanent advance.

NOTE.—The permanent advance mentioned in this rule is the special permanent advance sanctioned by the Local Government for the purposes of these rules.

3. Circular Orders No. 2 of 6th January 1880 and No. 6 of 21st July 1884, and the Rules circulated therewith, are hereby cancelled.

Sheriff's Office, the 17th June 1885.

Notice is hereby given that the Fourth Criminal Sessions of the year 1885 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court House, in the Town of Calcutta, on Monday, the Twentieth day of July next at 11 o'clock in the forenoon, and so on from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary rights of Government, as specified in the conditions of sale below, to the undermentioned estate, situated in the district of Bhagulpore, will be put up to sale at the Scopole Sub-divisional Officer's office on Monday, the 29th June 1885, corresponding with 2nd Asarh 1292 Fual.

The purchaser will be subject to the following conditions of sale—

Conditions of Sale.

1st. The estate to be sold revenue-free to the highest bidder above the upset price.

The purchaser of this estate will be considered as a proprietor of this estate, and the entire proprietary rights of Government in such estate will be transferred to him.

2nd. The sale to be subject of existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd. If the settlement of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If balance be not paid by the noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Notification.

THE Corporation of the Town of Calcutta are prepared, under the provisions of sections 334 and 336 of Act IV (B.C.) of 1876, to receive tenders for a Debenture Loan for (Rs. 25,00,000) twenty-five lakhs on the security of the rates, taxes, and dues imposed and levied under the said Act.

2. Debentures will be issued for the said amount bearing interest at the rate of 5 per cent. per annum, payable on 1st September and 1st March of each year, and having a currency of 30 years.

3. The form of the debenture bonds will be that given in the seventh schedule of the aforesaid Act.

4. No debentures will be issued for any sum less than (Rs. 500) five hundred, and above that amount debentures will be issued only for even sums of (Rs. 100) one hundred.

5. Subscriptions will be received by the Bank of Bengal, and debentures will be issued as soon as possible in exchange for the receipts.

6. Tenders for the whole or any part of the above-named sum of (Rs. 25,00,000) twenty-five lakhs will be received by the Secretary to the Corporation up to 2 o'clock P.M. of the 21st July 1885.

7. Each tender must be made out in the form annexed to this notification, and enclosed in a sealed cover superscribed "Tender for Municipal Loan for 1885-86."

8. Tenders will be opened at the Municipal Office, on Tuesday, the 21st July 1885, at 2 o'clock P.M.

9. The amount of the accepted tenders must be paid into the Bank of Bengal in the following instalments—

50 per cent. of the tender on the 31st July 1885.

25 per cent. on the 31st October 1885.

25 per cent. on the 31st January 1886.

Each tenderer, however, will have the option of paying the full amount of his tender on or before the 31st July 1885, and receive interest from that date.

Anticipation interest will be paid on all instalments; but the whole sum tendered or any portion thereof may, at the option of the tenderers, be paid before the date when it is due, and will bear interest from the date of payment.

10. Each tender must be accompanied by Government Promissory Notes, Currency Notes or Cheques for not less than 2 per cent. of the amount tendered.

11. The deposits on tenders, which may not be accepted, will be returned on application, and will be forfeited if an allotment after being made is not taken.

12. In case of two or more tenders at the same rate, a *pro rata* allotment will be made.

13. The rates stated in a tender must not contain any fraction of an anna. If a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and tender treated as if the tender did not contain such fraction of an anna.

14. In order to avoid mistakes, a separate tender must be made at each rate tendered, and a separate deposit must accompany each such tender. It is desirable that the tender, or at least the name of the person making the tender, and the amount and rate tendered, should be written in English.

15. Forms of tender can be obtained on application at the Municipal Office.

JOHN COWIE, Offg. Secy. to the Corporation.

Municipal Office, Calcutta, 18th June 1885.

FORM OF TENDER.

I hereby tender for (Rs.) of the Loan advertised in the Notification published in the *Calcutta Gazette*, dated 24th June 1885, and agree to pay for the same, subject to the conditions notified, at

the rate of Rupees
not allowed. annas* for every hundred rupees allowed to me.

2. I enclose Government Promissory Notes or Currency Notes for Rs. as deposit under paragraph 11 of the Notification, and engage, if my offer be accepted, to pay to the account of the Municipality at the Bank of Bengal, Calcutta, the amount of the accepted tender in accordance with the terms of the Notification, and I agree to forfeit the deposit if I fail to take the allotment made to me.

N.B.—A separate tender must be made at each rate tendered, and a separate deposit must accompany each tender. In order to avoid mistakes, it is desirable that the tenderer, at least the name of the person making the tender, and the amount and rate tendered, should be written in English.

Overland Parcels for and from the United Kingdom.

1. From and after the 1st July 1885, parcels not exceeding 7lb in weight, which may be posted at any Post Office in India for transmission to the United Kingdom, will be forwarded under special arrangements with the British Post Office as mails, and delivered free of charge (except Customs dues, if any) at the addressee's residence, through the medium of the British Post Office.

NOTE.—Parcels containing tobacco, sent from India to the United Kingdom, will be charged on delivery with a fine of 5d. per lb in addition to duty.

2. Parcels exceeding this weight will be forwarded under the same conditions as at present through the P. & O. Company.

3. Hitherto the dimensions of all foreign parcels have been 2 feet x 1 foot x 1 foot. In future the dimensions of parcels sent to the United Kingdom only, whether sent through the British Post Office or through the P. & O. Company, will be the same as in England, viz. not exceeding 6 feet in girth and length combined, or 3½ feet in length. The minimum size of a parcel will continue to be 3 x 2 x 2 inches.

NOTE.—The previous dimension of 2 feet x 1 foot x 1 foot gives a total of girth and length combined of 6 feet.

4. For the present both classes of parcels will still be forwarded by sea to London.

5. The rates on all classes of foreign parcels remain unchanged, viz. 8 annas per lb or fraction of a lb in India, and 1 shilling per lb in England. Parcels posted in India must be prepaid in cash. Light parcels posted in England must be prepaid, but heavy parcels from that country can be sent unpaid.

6. Similarly, from the 1st July 1885, parcels not exceeding 7lb in weight will be received at any Post Office in the United Kingdom for transmission to India, if presented with a declaration in the prescribed form, copies of which can be obtained at any Post Office.

7. Parcels exceeding 7lb must, as before, be sent to the Indian Parcel Post Office, 122, Leadenhall Street, or 25, Cockspur Street, London, with a letter of advice giving name and address of the parcels and value and contents.

8. All parcels posted in India for the United Kingdom, whether light or heavy, must, in future, be presented at the window, accompanied by a Custom House declaration, filled in upon one of the prescribed forms which will be supplied gratis at every Post Office. The special attention of the public is invited to this provision.

Pandit Ram Narain, Pleader, Chief Court, Punjab.
J. Lockwood Kipling, Esq., Principal of the School of Art.
C. B. Brind, Esq., C.S., Assistant Commissioner, Lahore, *Secretary*.

THE LIBRARY.

This institution has been established, at the desire and with the assistance of the Punjab Government, in order to provide a Public Library for the use of all classes in the province.

Admission to the Reading-Room is free; and books will be lent out subject to rules and subscriptions, which can be ascertained on application to the Librarian.

A large contribution of books and pecuniary support have been promised by Government; but the Committee earnestly appeal to the public for further contributions of books, both European and Oriental.

Privileges will be given to donors of twenty volumes and upwards.

Until the library is formally opened, a private donation of standard works, accepted by the Committee and valued by them as worth not less than Rs. 50, will entitle the donor to the privileges of life member. A second donation of the same value will entitle the donor to nominate a life member.

Life members will be exempt from payment of deposits, subscriptions and fees otherwise required by the rules.

Assistance is especially desired towards securing a complete collection of books relating to India and the East.

Societies, Institutions, and Departments of Government are invited to contribute.

Donors of books may make it a condition of the donation that any of the books they give shall not be lent out, except to the Donor.

Communications should be addressed to—The Secretary, Punjab Public Library, Lahore.

A Manual of Reference to the Examinations in Oriental languages, with the latest orders of Government, and specimen papers of the various standards. By Lieutenant-Colonel H. S. JARRATT. New Edition Rs. 4. Apply to the Librarian, 17, Elysium Row.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT.

(Third publication.)

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 20th May, 1885, and is hereby promulgated for general information:—

ACT NO. IX OF 1885.

An Act to repeal part of section 6 of the Indian Tariff Act, 1882, and to amend the Excise Act, 1881, the Bengal Excise Act, 1878, and the Sea Customs Act, 1878.

WHEREAS it is expedient to repeal part of section 6 of the Indian Tariff Act, 1882, and to amend section 7 of the Excise Act, 1881, section 18 of the Bengal Excise Act, 1878, and sections 145, 149 and 207 of the Sea Customs Act, 1878, in manner hereinafter appearing; It is hereby enacted as follows:—

1. The part of section 6 of the Indian Tariff Act, 1882, beginning with the words "And whereas," down to and including the words "been paid," is repealed.

2. For clause (a) of section 7 of the Excise Act, 1881, the following clause shall be substituted:—

"(a) such duty as the Local Government may from time to time fix in respect of such spirit has been paid, or."

3. In section 18 of the Bengal Excise Act, 1878, for the words "at the rate leviable under any Tariff Act for the time being in force" the words "at such rate as the Local Government may from time to time fix in respect of such spirituous liquor" shall be substituted; but nothing in this section shall affect any Act passed after this Act comes into force by the Lieutenant-Governor of Bengal in Council.

4. The duty now fixed by the Local Government under section 6 of the Indian Tariff Act, 1882, as leviable on spirit manufactured in all or any of the distilleries situate in the territories under its administration, or in any part of such territories, shall, in places in which the Excise Act, 1881, or the Bengal Excise Act, 1878, is in force, be deemed to be the duty fixed by the Local Government under sections 7 and 18 of those Acts, as amended by this Act, respectively.

5. (1) In section 115 of the Sea Customs Act, 1878, after the word "shall" the words "except when provision is made by any enactment for the time being in force for its being immediately deposited in a licensed warehouse" shall be inserted.

(2) In section 149 of the same Act, after the words "custom-house" the words "or to a warehouse licensed under any enactment for the time being in force" shall be inserted.

6. In section 207 of the same Act, for the word "respectively" the words "or any like body hereafter created for any other port" shall be substituted.

PART VI.

Bills introduced into the Council of the Governor General for making
Laws and Regulations, or published under Rule 22

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 10th June, 1885, and was referred to a Select Committee:—

No. 11 OF 1885.

A Bill to amend the Indian Registration Act, 1877.

WHEREAS it is expedient to amend the Indian Registration Act, 1877, in manner hereinafter appearing; It is hereby enacted as follows:—

Short title and commencement. 1. (1) This Act may be called the Indian Registration Act, 1885; and

(2) It shall come into force at once.

111 of 1877. 2. (1) After clause (f) of section 17 of the Indian Registration Act, 1877, the following clause shall be inserted, that is to say:—

“(ff) any debenture issued by any such company and not creating, declaring, assigning, limiting or extinguishing any right, title or interest to or in immoveable property except in so far as it entitles the holder to the security afforded by a registered instrument whereby the Company has mortgaged, conveyed or otherwise transferred the whole or part of its immoveable property or any interest therein to trustees upon trust for the benefit of the holders of such debentures, or”.

(2) In the second paragraph of section 50 of the same Act, “(ff)” shall be inserted between “(f)” and “(g)”.

3. (1) After clause (b) of section 17 of the same Act the following clause shall be added, that is to say:—

“(m) orders granting loans under the Agriculturists' Loans Act, 1884, and instruments

for securing the repayment of loans made under that Act.”

(2) In the second paragraph of section 50, for the word and letter “and (f)” the letters and word “(f) and (m)” shall be substituted.

(3) In section 58 of the same Act, for the words “or a copy of a certificate under the Land Improvement Act, 1871, sent by the Collector to be registered,” or, where the Land Improvement Loans Act, 1883, is in force, for the words “or a copy of an order under the Land Improvement Loans Act, 1883, sent by the Collector to be registered,” there shall be substituted the following words, namely:—

“or a copy sent to a registering officer under section 89”.

(4) After the second paragraph of section 89 of the same Act the following paragraph shall be inserted, that is to say:—

“Every officer granting a loan under the Agriculturists' Loans Act, 1884, shall send a copy of any instrument whereby immoveable property is mortgaged for the purpose of securing the repayment of the loan, and, if any such property is mortgaged for the same purpose in the order granting the loan, a copy also of that order, to the registering officer within the local limits of whose jurisdiction the whole or any part of the property so mortgaged is situate, and such registering officer shall file the copy or copies, as the case may be, in his Book No. 1.”

4. (1) After clause (d) of section 90 of the same Act the following clause shall be inserted, that is to say:—

“(e) notices given under section 74, or section 76, of the Bombay Land-revenue Code, 1879, of relinquishment of occupancy by occupants, or of alienated land by holders of such land”.

(2) In section 91, for the word and letter “and (c)” the letters and word “(e) and (c)” shall be substituted.

(3) The said Act shall be construed as if the amendments made in it by this section had been made at the time the Act came into force.

STATEMENT OF OBJECTS AND REASONS.

THE objects of this Bill are three:—

- (1) to except mortgage-debentures secured by a registered trust-deed from those provisions of the Indian Registration Act, 1877, which either require that such debentures shall be registered, or, where their registration is optional and they are not registered, give precedence over them, as regards the property on which they are secured, to any registered instrument relating to the same property;
- (2) to place instruments whereby immoveable property is mortgaged as security for the repayment of loans under the Agriculturists' Loans Act, 1884, on the same footing, in regard to registration, as certificates or orders granting loans, and instruments of collateral security, under the Land Improvement Act, 1871, or, where the Land Improvement Loans Act, 1883, is in force, under that Act;
- (3) to exempt from registration notices given under sections 74 and 76 of the Bombay Land-revenue Code, 1879, of relinquishment of occupancy by occupants and of alienated land by holders of such land.

2. As regards the first matter, it was represented to the Government of India in 1884 that the heavy expense and trouble entailed on the issue of mortgage-debentures by the joint operation of the Stamp Act and Registration Act practically prevented their being issued. The stamp-duty payable on such debentures has since been remitted, and it seems to the Government of India that, if the trust-deed by which such debentures are secured is registered, the debentures, provided they do not implicate any property beyond that comprised in the trust-deed, and do no more than give effect to the arrangement made by the trust-deed, may well be exempted from registration.

3. The second amendment proposed calls for no explanation. The third seems to be justified on the ground that there is, apart from the Registration Act, a complete official record of the surrenders in question, and that to require in addition that they should be registered under that Act would entail unnecessary trouble and expense on all concerned.

The 29th May, 1885.
